Save 30 to 50 per cent by buying your Oil in barrels. More convenient, too, because you always have a supply on hand.

Order oil in a steel barrel the first time—so as to get a good, safe container. Next time order oil in a wood-barrel and transfer it to the steel container.

Many Ford owners are satisfied to use "just any old oil." They say to the garage man, "Put in some oil"—without bothering to see what kind they will get. Then they wonder why the engine loses its "power," why it is so slow on pick-up and develops "knocks" so soon. One reason is that too often they are not using an oil made especially for the Ford motor.

Thousands of our customers have used and continue to use Runrite Oil for their Fords. It has proved itself a genuinely good and reliable lubricant. At our price, it is a distinct economy. You can buy Runrite Oil—in dustproof containers and backed by Montgomery Ward's guarantee—for less than is usually asked for oils of doubtful quality. Our price is low because we sell it in large quantities and on our one profit basis.

Runrite is the right oil to make your Ford run right. It is blended especially for the high speed Ford motor. It is a medium oil, of the correct consistency for a Ford, and is extra heat-resisting. It is especially suited to the splash lubricating system and thermosiphon cooling system in the Ford engine. It lubricates well and thoroughly at all times—keeping a constant film of oil between pistons and cylinder walls, and helps the engine generate its maximum power with minimum gasoline.

Ward's Runrite Gasoline Engine Oil

Specially recommended for correct lubrication of all makes of stationary and portable gasoline engines.

It is a medium bodied oil, ruby color, with a high fire test. Forms a constant film of oil in the cylinders, and makes the engine produce maximum power from minimum fuel. Where Ward's Runrite Gasoline Engine Oil is applied, the wear caused by friction is less apparent, the life of the engine is prolonged, and years of service added. Tried and tested. We know that this is just the right oil for your engine.

Steam Cylinder Oil

A medium bodied, dark green colored oil, specially made for proper lubrication of steam cylinders and valves.

An oil so compounded that steam at high pressure will not wash it off the cylinders. A thin coat remains between the moving parts and prevents friction and wear. Recommended for any make steam cylinders.

Ward's Runrite Harvester Oil

A heavy bodied dark green oil which may be used on all types of Harvesting machines.

It reduces friction and will not gum or corrode bearings.

An oil which will stand up under considerable heat.

The machine to which Ward's Oil is applied regularly will work more smoothly and wear considerably longer.

Cuts off without a "string" when used from a squirt gun.

Used by hundreds of our customers who find it all that Ward's claim it to be.

Guaranteed**

Driving Tread

Strong, Long Service Fabric Tires

Riverside Road Grip and Driving Treads are big, full size, first quality fabric tires made of brand new, fresh rubber and strong, tested fabric. Experience is always the best teacher. We have directed the making of over 1,600,000 Riverside Tires and this experience has shown us how to make tires that will travel over the roughest roads and give greater service than many tires that cost several dollars more.

The treads of Riverside Tires are thick and exceptionally tough, so they often go thousands of miles before showing signs of wear. Hundreds of customers have written us that Riverside Fabric Tires give them far greater mileage than any other fabric they have ever used.

Remember this—Ward's guarantee on tires means **complete protection** for you. When you send us your order you know you will receive only dependable tires backed by 50 years of fair dealing and our Golden Rule Guarantee.

One Small Profit

Riverside Tires are sold on a one profit basis. There are no jobbers' profits—no salesmen's or agents' profits—no expensive dealers' sales-rooms. Last year we sold over 350,000 Riverside Tires direct to car owners.

All Riverside Tires are Quality Tires

That is why customers send us orders for three or four at a time. That is why we receive orders for three or four thousand Riverside Tires a day, which is considerably more than most dealers sell in a whole year. We absolutely guarantee quality in every way so that you know you will get full service for your money.

Low Parcel Post Rates

All sizes of Riverside Tires can be shipped into all zones by parcel post. In most instances the tires are delivered right to the customer's door—making it decidedly convenient to buy Riverside Tires by mail.

A 30 x 3½ Road Grip Tire, sent to any point in the first or second zones, costs only 18 cents for postage—a 30 x 3½ Cord Tire, only 21 cents. Even the larger sizes are mailed several hundred miles for a very small amount.

12,000 Miles—Still Going

"I put a Riverside Road Grip fabric tire on my car early last year and it has gone over 12,000 miles and is still good for several months' wear."

H. W. Hemphill, Lockport, Illinois.
Printed with Mr. Hemphill's permission.

Less Than Dealers Pay

Think of buying absolutely first quality tires at prices less than most dealers pay for tires of equally dependable mileage guarantee. That is exactly what you do when you buy Ward's Riverside Tires. We sell more Riverside Tires direct to car owners than the total output of several factories which have hundreds of dealers. Our profit on each tire is very small—a great deal less than the profit the average dealer must add. We prefer to make a small profit on large sales rather than a large profit on small sales.

The Greatest Tire Guarantee for You

There are over 200 makes of tires on the market and they all look much alike. Every manufacturer and dealer talks about quality guarantees. Although many makers have eliminated the mileage guarantee, there still remain several who talk about it. But the greatest tire guarantee for you is **SATISFACTION**—that is what Ward's guarantee means to you.

We furthermore absolutely guarantee that Riverside Fabric Tires are full size—that the Riverside 10,000 Mile Cord Tires are oversize—that every tire has the full number of plies of fabric or cords accepted as standard and that every tire is positively **first quality**.

You know you can depend on Ward's guarantee, for it has stood the test for 50 years. Order your next tires from Ward's and prove that we give you "Most for the Money." We guarantee Satisfaction on a definite mileage basis.

More Than 1,600,000 **Do This NOW**
Riverside Tires Sold to Car Owners

Several hundred thousand car owners buy Riverside Tires and keep on buying them. Surely this is one of the greatest proofs of quality. Especially is this true because Riversides are sold by mail. If they did not give greater service for less money, we could not expect our customers to order more.

Satisfactory service is the test that proves quality. It is the test that sells Riversides. We depend on the record of each Riverside to sell more. We do not have any salesmen to urge you to buy or tell you this or that about Riversides.

Riverside Tires have proven their worth in the hardest tests to which a tire can be given. They have made good with our customers on rough country roads—on mountain highways—on city streets—in the cold north and in the hot south. Each year our sales have increased and Riverside Tires now are among the best known on the market.

Prices on Riverside Tires and Inner Tubes are subject to change without notice. We always give you the benefit of our lowest prices, so you can send us your order at any time with the assurance that you will receive a square deal.

Why We Do Not Have Agents

Riverside Tires have given car owners such remarkably good service and our prices are so unusually low that hundreds of motorists have asked us for agencies to sell them in their territories. It has always been our policy to sell direct and share the savings with our customers. If we were to sell Riverside Tires through agents or dealers the tires would cost you more. We prefer to give our customers the benefit of every saving possible, so we do not have any agents or dealers. When you buy Riverside Tires you really become your own dealer and get quality tires practically at wholesale prices.

Riverside Cord Tires

\$10⁴⁵

Riverside 10,000 Mile Cord 30x3½

10,000 Miles Guaranteed

Why Riverside Cord Tires Are Better

Ward's Riverside Cord Tires are full oversize construction. They are much larger than fabric tires and many other makes of cords. This makes a remarkable difference in the easy riding qualities due to the greater air capacity. Oversize also means greater mileage for you. The cords used in Riversides are unusually strong—much heavier and tougher than those used in fabric tires.

These features combined with the heavier treads make Riverside Cords much harder to puncture. Every cord is covered with rubber so no two strands touch each other. Thus each cord works freely with scarcely any friction. That is another reason why they ride so smoothly and heat up less, even at high speeds. Less air pressure is necessary when you use Riverside Cords. They act more as a cushion or shock absorber enabling you to travel over rough roads faster, more comfortably and with greater freedom from trouble.

Nine Miles Service for One Cent

Every Riverside Cord Tire is fully guaranteed to be absolutely first quality. That is where most guarantees stop. But we guarantee more. We guarantee our Riverside Oversize Cord Tires for 10,000 miles service. You are completely protected and know how much mileage your money buys.

You buy wheat by the bushel—you buy butter by the pound—you buy eggs by the dozen. Buy your tires from Ward's by guaranteed mileage.

Figure out your mileage cost so you know how much you will get for your money. Riverside 30 x 3½ Cord Tires cost you \$10.45—this is about 1/10 of a cent per mile—or over 9 miles of guaranteed service for 1 cent. Other sizes are priced proportionately low. We invite a comparison of both our quality and prices. Both are backed up by our guarantee, which has stood the test for 50 years.

Accept This Offer You Don't Risk a Cent

Do This NOW

You don't take a single chance when accepting this offer to see Riverside Tires. It makes no difference where you live, we want you to see our Riverside Tires—either the 10,000-mile cord or 6,000-mile fabric—and compare them with others. If there is any question in your mind regarding their size, construction, weight or any other point that can be made clear by closely examining Riverside Tires, we want you to order at our risk as many as you need—right now. Inspect them thoroughly—put them alongside tires selling for \$5 to \$15 more—examine their sturdy construction—feel the thick, lively tread and convince yourself they are wonderful bargains. Simply send us your order in the regular way, with remittance. If, for any reason, you should feel that you don't want to keep them, send them back and we will refund your money and the transportation charges you have paid. Remember, you must be satisfied.

Save \$5 to \$15 on Each Tire

Compare Riverside Cord Tire prices with the prices of other well known tires and notice how much we save you on each tire—figure the big saving it will be on four tires. If you do not get a greater guarantee of mileage from an equally responsible firm, why should you pay more than Riverside prices? Why pay more for two tires than Ward's ask for three? Although we guarantee Riverside Cords for 10,000 miles, hundreds of customers report 16,000, 17,000, 20,000 miles and even longer service from them.

68,000 Miles From Four Riverside Cord Tires

"I am using four Riverside Cords, size 34x4, and each one has gone over 17,000 miles. They have given me greater service and less trouble than any tires I have ever used. My next tires will be Riverside Cords."

R. R. FROSS,
R. F. D. 2, Tinley Park, Ill.
Printed with
Mr. Fross' permission.

Easiest Way to Buy Tires

Did you ever stop to think that the tires you buy locally were probably ordered by mail? In fact, there are many firms who sell only by mail to dealers only. Selling by mail was originated by Montgomery Ward & Co., just 50 years ago. Today, the habit is growing daily. But, why should you pay an extra profit on tires to have some one else order them for you when you can buy fully guaranteed tires, direct from Ward's at a big saving. Ordering by mail from Ward's is about as easy and simple as using your telephone.

\$9.75 Guaranteed 7,500 Miles

30x3½ Standard Riverside Cord Tires

For those who wish the very best in service and the greatest riding comfort, we recommend our full over-size Giant 30 x 3½ Riverside 10,000-mile Cord Tires, No. 564 C 25, shown at the right. However, to meet the demand of owners of light cars who do not desire to invest the extra amount necessary to buy this big, oversize Giant Riverside Cord Tire, we have developed a new Standard Riverside 30 x 3½ Cord Tire guaranteed for 7,500 miles service. The measurements are the same as the standard 30 x 3½ fabric tire. It is built along the same lines as our oversize 30 x 3½ cord tire, with a new non-skid tread design. You will find this new Standard Riverside Cord the equal in size, construction and service of many cords sold at several dollars above our price. Shipping weight, each, 13 pounds.

Riverside Brown Heavy Duty Inner Tubes are absolutely the best grade obtainable—we guarantee this. Pure Para rubber, the finest known, is used in their construction. They are built thicker and stronger than any tube we have ever seen. The extra thickness is a big help in preventing pinches; and troubles from porousness are practically unknown. The additional strength allows them to stretch far more than ordinary tubes, so they are much more suitable for use in cord tires. Regardless of what tires you use, put in Riverside Heavy Duty Tubes and get more mileage and satisfaction. Only because we sell thousands of these tubes each week can we give such low prices for such remarkable quality.

Heavy Duty Tubes Best for Cord Tires

Due to the oversize construction of many cord tires and especially Riversides, it is advisable in every case to use our Riverside Heavy Duty Tubes. Being heavier than ordinary tubes they easily take the extra stretch necessary to fill the required space. Wise, careful buying motorists are finding Riverside Heavy Duty Inner Tubes and Riverside Cord Tires the ideal combination and the solution to their tube problem.

Riverside Standard Red and Gray Inner Tubes

\$1.25
Red
Size, 30x3

\$1.19
Gray
Size, 30x3

These are fine, strong, standard made Inner Tubes built by the "layer on layer" process which has proven wonderfully successful in doing away with trouble caused by slow leaks. This laminating process is a method of making inner tubes from thin sheets of fresh, strong, lively rubber rolled around a form in about the same way you would roll a sheet of paper around a pencil. After several layers have been rolled, one on top of the other, they are vulcanized together so firmly that if you should cut the tube in half it would appear to be one thick sheet of rubber.

The laminated construction makes Riverside Inner Tubes airtight—free from porousness—and is one of the chief reasons why they hold air for such a long time. Our sales of Riverside Inner Tubes are so great that it is necessary to have new shipments coming in almost daily from the factory; so you are always certain of brand new tubes that will give long service.

This Is Our Fiftieth and Greatest Year of Bargains

Special for Fords

Special Heavy Duty Inner Tube for Fords \$1.85

The very best tube for Ford owners. It can be used in either 30x3 or 30x3½-inch tires and will give wonderfully good service. The rubber is pure gum and the construction is exactly the same as in the Brown Riverside Heavy Duty Inner Tubes shown above. Shipping weight, each, 2½ pounds.

61 C 3244—Each \$1.85

Riverside Universal Inner Tube for Fords \$1.35

A big money and time saver for Fords because it fits either the front 30x3 or rear 30x3½ tires. On the rim side an extra layer of rubber makes the tube thicker and stronger at this point, which tends to prevent rim pinches. Shipping weight, each, 2 pounds.

61 C 3100—Each \$1.35

Tire Supplies That Save Money and Eliminate Worry

\$2.45

Puncture Proof Reliners

Make

Your Tires Last Longer

Ward's Puncture Proof Reliners are made of specially toughened, lively elastic rubber with two layers of non-rusting, flexible metal plates firmly imbedded in the center. These two layers of plates are separated by rubber, one layer overlapping the other so they do not touch. The sides and ends of the reliner are tapered to a feather edge to protect the inner tube.

The rubber in the reliner gives additional strength to the casing and reduces the effect of the blow out the cord or fabric when you hit stones, railroad tracks and bridges. Tires often give thousands of extra miles' service for this reason. The metal plates prevent nails, tacks, wire and other sharp articles from reaching the tube, for when they strike the plates they bend over.

You Have More Pleasure

Think of the pleasure of going on a trip knowing that you will not have any annoyance, delay or disagreeable work because of punctures. You remember how punctures always seemed to come when you were in a hurry — how dirty you got changing tires. These Puncture-Proof Reliners will change all these conditions into memories. You will enjoy trips without thinking of the tires.

Punctureproof Reliner Prices

Article Number	Size Inches	Each	Shipping Weight
61 C 1375	30x3	\$2.45	4 3/4 lbs.
61 C 1376	30x3 1/2	2.95	5 lbs.
61 C 1377	32x3 1/2	3.55	6 lbs.
61 C 1378	31x4	3.65	6 1/2 lbs.
61 C 1379	32x4	3.75	7 lbs.

61 C 1386	33x5	5.45	10 lbs.
61 C 1387	35x5	5.50	10 lbs.

Fit All Tires

Our Punctureproof Reliners have long tapered ends and feather-edge tapered sides so they can be fitted to all makes of tires, cord or fabric. When tube is inflated they conform to the shape of the casing. Many motorists put them in brand new tires; and they can be satisfactorily used in old tires, also. When one tire is worn out you can put the reliner into another tire.

\$1.25

Super Service Fabric Reliners Strengthen Weak Tires

Thousands of auto owners have found these Reliners a sure method of increasing tire mileage. Made of fine grade fabric layer on layer, completely saturated and bound by high grade rubber. Easy to put in casing, and being self-cementing they become practically inseparable.

Hook-on Tire Boot

A good substantial rubber and fabric Boot held to tire by improved riveted hooks.

Don't Throw Away Your Old Tires Use Suction Grip Reliners

\$2.15

These Improved Reliners offer a quick, easy way to save considerable tire money. It is wasteful to throw half worn tires into the junk pile just because one little place became weak and the tire blew out. You wouldn't throw away a pair of shoes if the soles became weak in one place, would you? To put this reliner in a weakened tire is just as sensible as half-sooling your shoes — and it will save you a great deal of money. Order two or three now and save your old tires.

Suction Grip Reliners make the tread so much thicker that it stops ordinary tacks before they reach the tube and usually bends small nails. If it were only for the freedom from punctures and blowout troubles, they would be worth more than the price we ask — but besides these features you have the big advantage of cutting down tire expenses and the pleasure of knowing that you are getting your money's worth from each tire. Suction Grip Reliners give a clean, smooth surface for the inner tube.

Made Similar to Tires

Suction Grip Reliners are made very much like regular tires except that they have not the heavy beads at the bottom. They are made over forms like a tire — have several layers of fabric and a cushion of rubber on the tread similar to regular tires. The edges at the bottom are tapered or thinned down so that they make a continuous smooth surface for the inner tube. We guarantee Suction Grip Reliners against defects in material or workmanship.

Improved Features

Suction Grip Reliners are a great improvement over the old style reliner. Little suction cups are built right into the rubber tread. They form a vacuum which holds the reliner in place, and prevents slipping, thus practically eliminating friction. This invention does away with flaps and wires, making it possible for you to slip this reliner right into the casing as easily as you would a tube.

61 C 1458	Gray tube stock, 1/4-pound roll	25¢
61 C 1462	Combination tube stock, cured on one side, 1/4-pound roll	29¢

Pumps and Jacks

That Make Tire Changing an Easy Job

Improved Yankee Easy Acting Tire Pump

A remarkable new type running board pump that is designed to give far greater pressure with less effort than the old style. It has a heavy brass no-leak cylinder, 5 1/2 by 3 inches. The folding clamp permanently attached. Collapsible handle allows pump to fit in very small space. Quick action hose connection on 7-foot hose. Shipping weight, 6 pounds.

61 C 1621—Without gauge.....\$2.95
61 C 1622—With gauge.....3.60

Rose Tire Pump Patented Valve High Pressure

This is one of the best known and most used pumps on the market. Its construction enables the operator to pump large size tires to a high pressure with surprising ease. It has a new patented valve principle, making it easy to operate under all pressures. Full compression at every stroke with but little friction. Made of 18-gauge seamless steel tubing which will stand hardest service. Length, over all, 23 inches. Diameter, 1 1/4 and 1 1/2 inches. Shipping weights, 3 1/2 and 4 pounds.

61 C 1653—1 1/4-inch size \$1.95
61 C 1650—1 1/2-inch size 2.35

Two Cylinder \$1.69 Tire Pump

We have reduced the price on this popular model to a new low mark. Made of seamless drawn tubing, highly polished, and will not rust. Length of barrels, 16 1/2 inches. Diameter of large barrel, 1 1/2 inches; of small one, 7/8 inch. Fits all tire valves. Shipping weight, 6 pounds.

61 C 1654.....\$1.69

Three Cylinder Tire Pump

A very powerful hand pump. Thoroughly tested before leaving the factory. Three cylinders of heavy seamless drawn tubing, highly polished and rustproof. Diameter of cylinders, 3/4, 1 1/4 and 1 3/4 inches. Length, 18 inches. Length of pump, over all, 22 inches. Base is heavy casting, enameled. If you want a big, powerful, quick acting hand pump, get this one and inflate your tires with little exertion. Shipping weight, 9 pounds.

61 C 1652.....\$3.25

Inland IXL \$3.75 Finest, Quickest Acting Pump

Running Board Tire Pump

The finest, most substantial, easiest operating hand pump we have ever seen. A woman or child can pump up even large size tires with ease. A real friend when there's a tire to pump. Handle, opened, is 25 inches long—giving leverage many times greater than ordinary pumps. Can be quickly attached to either running board. Leak-proof, seamless, polished steel cylinder, 3 by 6 1/4 inches; patented folding handle; folding clamp attached to the strong malleable iron base, fine quality leather plunger, specially treated. Pump folds up so it takes little space—3 by 4 1/2 by 13 1/2 inches. Built No loose parts to rattle or get lost. Built to last for many years. Complete with feet of good quality hose. Ship. wt., 9 lbs.

61 C 1682—Without gauge....\$3.75
61 C 1684—With gauge.....4.25

Apex Tire Pump

A well made single cylinder pump which will meet the needs of most auto owners. Special Apex slip-on hose connection simply push it on valve and a turn of the handle locks or loosens it. The cylinder is 18 inches long and is constructed of heavy gauge seamless tubing which will not dent or bulge under ordinary conditions. Diameter of cylinder, 1 1/4 inches. Shipping weight, 4 pounds.

61 C 1649.....\$1.00

Tire Pump Hose

24-inch hose, five-ply construction. Fits all valve stems. Clamp included. Shipping weight, 6 ounces.

61 C 1750.....43¢

Apex Pump Connection

Place on valve, push the lever and it fits airtight with a no-slip grip. Release lever and it lifts off. Shipping weight, 2 ounces.

61 C 1742.....19¢

Rubber Covered Cable and Lock

Made of a spiral hardened steel cable, covered with rubber. Ends have knobs to prevent slipping through lock. About 3 feet long. Holds two or three tires. Lock furnished with two keys. Shipping weight, 1 pound.

61 C 3368.....\$1.15

For Locking Tire

Tire Gauges

Twitchell Tire Gauge

Positive lock stop holds the indicator so you can take it off the valve and still tell the pressure. Stays up till release is pressed. Very accurate. Made of nickel plated brass. Length, 3 1/2 inches; diameter, 1/2 inch. Shipping weight, 3 ounces.

61 C 1710.....\$1.25

A good low priced gauge. Registers up to 120 pounds. Hand remains stationary at pressure indicated until reset. Made of brass, finely nickel plated. Height, 2 inches; diameter, 1 1/2 inches; 3/4 inch thick. Shipping weight, 4 ounces.

61 C 1701.....69¢

Inner Tube Cases

Inner tubes carried without protection are liable to become cut or injured. This case will prevent their chafing or being cut by sharp edged tools. Made of enameled fabric, fastened with snap buttons. Will hold any size tube up to 37 by 5. Shipping weights, 5 and 10 ounces.

61 C 1757—For one tube.....28¢
61 C 1758—For two tubes.....42¢

Schrader Valve Caps

Exactly the same as those used on all standard inner tube stems. Keep dust and dirt from clogging valve stem, which causes leaks. In neat tin box. Shipping weight, per box, 4 ounces.

61 C 1700—Per box of 5.....25¢

Schrader Valve Insides

Exactly like those used in all standard inner tubes. Damaged valve insides often cause slow leak troubles. Always carry extras. Five in tin box. Shipping weight, per box, 4 ounces.

61 C 1703—Per box of 5.....30¢

White Stripe Covers

Strongly made tire covers with two neat white stripes around the center. Made of durable waterproof enameled fabric. Close with six snap buttons. Fit any make of plain or non-skid tire. To be used on tires mounted on demountable rims which have inside holders such as furnished on the Buick, Ford, Hupp, Chandler, Dodge, Maxwell and scores of other cars. Shipping weight, each, 1 1/2 to 2 1/2 pounds. For cord tires, see special oversize listing under price table.

Giant Footlift Jack

This big strong jack is designed to be used on cars with front and rear axles of different heights. Often if a car gets off the road or in the mud, a jack with only one height is useless, but with the Adjustable Footlift Jack the foot can be set at any height that the axle may be from the ground. Height of foot, 4 1/2 to 10 1/2 inches. Lift of top, from 11 to 17 inches. High grade in every respect. For all cars up to 5,000 pounds. Handle included. Shipping weight, 12 pounds.

\$2.95

61 C 1605.....\$2.95

Double Duty Auto Jack \$1.00

Constructed entirely of malleable iron. Speedy ratchet type. Simple construction, exceptionally easy to operate. Fitted with step bar, giving extra range of adjustments. Adjustable from 10 to 16 inches; footlift from 6 to 11 inches. For cars up to 3,600 pounds. Handle included. Ship. wt., 5 1/2 lbs.

61 C 1613.....\$1.00

Challenge Lifting Jack

A winged handle engages the teeth on the wheel in a way that makes operation easy and quick. A slight movement of the handle brings it in contact with the teeth on the wheel. To reverse, simply move the side lever on the handle. Screw is of 1/2-inch steel, threaded to allow ample body to the thread in the malleable iron nut, causing it to wear longer and travel faster than similar jacks. Adjustment, 10 to 16 inches. For cars up to 2,000 pounds. Shipping weight, 4 1/2 pounds.

61 C 1607.....85¢

Long Handle Jack

You won't have to crawl under the bumper, spare tire or body. Just open the handle, attach it and push jack under the car. Length of handle, open, 29 inches; closed, 18 inches. Screw type jack. Made of malleable iron. Shipping weights, 6 and 7 1/2 pounds.

61 C 1619—Plain top without extension; for cars weighing up to 3,000 pounds. Height, 9 1/2 to 15 inches.....\$1.85
61 C 1620—Extension type with 3-inch step, as shown; for cars up to 4,000 pounds. Height, 8 1/2 to 14 inches when step is down; 11 1/2 to 17 inches when step is raised.

\$1.85

\$2.60

Erp Spare Rim Tire Carriers

Always carry two extra inflated tires. You will enjoy your trips more, as two punctures will not mean the delay of pulling out the tube for patching. The Erp carrier consists of three especially designed holders which clamp over flange of your present carrier. No drilling—attached with ordinary monkey wrench. Shipping weight, per set, 5 1/2 pounds.

61 C 1799—For all Dodge demountable rims. Per set.....\$2.95
61 C 1797—For Chevrolet 490, Overland 4 and Saxon 3 1/2-inch rims. Per set.....\$2.95
61 C 1798—For Buick, Briscoe, Chevrolet Baby Grand, Ford, Grant, Hupp, Mitchell, Oldsmobile, Oakland, Overland and Saxon 4-inch rims. Per set.....\$2.95

Demountable Rim Wrench

Popular type wrench for use on demountable rim bolts. Shipping weight, 2 pounds.

Tire Saving Jacks for All Cars

Tires should not be allowed to stand on oily floors, nor on tire chains or night. Thousands of automobile tires are damaged in this way every season. When your car is not in use, lift it and give the tires a rest. By keeping the weight off the tires, the fabric and rubber are relieved of unnecessary strain so they will give a great deal more mileage. These jacks are made entirely of steel—no castings. Easily operated. Light, neat, simple and thoroughly dependable. Smooth surface when in use rests over the tire, the fabric and rubber are relieved of unnecessary strain so they will give a great deal more mileage. These jacks are made entirely of steel—no castings. Easily operated. Light, neat, simple and thoroughly dependable. Smooth surface when in use rests over the tire, the fabric and rubber are relieved of unnecessary strain so they will give a great deal more mileage. Anti-Skid Tire Chains

Heavy Duty Type

These Tire Chains will prevent many dangerous, costly accidents on wet roads, such as sliding into ditches, skidding into curbs or hitting other machines. They also enable you to travel through mud, sand and snow where it would be impossible for you to go without chains.

See table on Page 570 for sizes used on cord tires.

Article Number	Size of Tires	Per Pair	Ship. Wt. lbs.

61 C 9530—14-inch size.....79¢

Smooth Action Rebound Absorbers

Prevent violent recoil after striking bumps and ruts and enable you to travel over roughest roads in comfort. You will also note a remarkable increase in mileage from your tires. Prevents spring breakage by automatically stopping rebound at the normal height of the car on its springs. One set of these absorbers costs less than a pair of broken springs. Side swaying, which is so common when travelling faster than 25 miles an hour, is almost eliminated, making the car steer easier and hold to the road better. Easy to attach and adjust to the weight of your car. All necessary fittings included with complete instructions. Shipping weight, per set of four, 20 pounds.

Why It Pays You to Put in New Piston Rings

The owner who leaves old worn piston rings in his motor, often wastes more money and time in a month than the cost of an entire new set of Nu-Power Three-Piece Rings.

Worn rings waste gasoline; they waste lubricating oil; they waste power; they waste time required to keep spark plugs clean, and they waste money because the valves have to be ground and carbon cleaned more frequently. Our three-piece piston rings often make old motors run better than they did when new. If you have trouble with sooty or oily spark plugs, put in these new rings—right now.

Nu-Power Three-Piece Piston Rings

Give More Power—Save Gasoline and Oil

We have made tests with several leading piston rings and have found the Three-Piece Ring shown above to be exceptionally reliable under the most trying conditions. This is an excellently constructed piston ring. Motors that failed to pick up quickly—stalled on hard pulls—and used far too much gasoline and oil for their size, have been brought back into condition when fitted with Nu-Power Piston Rings. Nu-Power Piston Rings eliminate a whole lot of repair work, due to their three-piece construction. They fit tightly all the way around, perfectly sealing the compression and preventing leakage. Besides giving more power—more speed—greater flexibility—quicker pickup—Nu-Power Piston Rings greatly aid in doing away with oil sooted plugs and excessive carbon deposits due to oil leakage. Shipping weight, each, 3 to 6 ounces. Each..... 75¢

Oil Groove Quick-Seating Piston Rings

A groove in each ring holds a quantity of oil, thus forming a film that prevents excessive oil working up past the pistons and seals the compression so there is a big saving in gasoline and oil. Your motor will run better and you will not have spark plug trouble due to the pistons "pumping" or "throwing oil." Quick seating style which fit perfectly when driven about 100 miles. When installing the upper ring, place groove at the bottom, and the lower rings, place grooves at the top. Shipping weight, each, 2 to 5 ounces. All sizes. Each..... 27¢

Kingston Carburetor For Maxwell and Chevrolet 490

One of the best known carburetors on the market. These two models incorporate all the latest gasoline saving and power producing features that have been brought out by this company. Quickor pickup—easier starting and smoother action will be instantly noticed when your car is equipped with one of these new models. Shipping weights, complete, 6½ and 5 pounds, respectively.

61 C 5700—For all Maxwell 25 models—1915 to 1921. Furnished complete with hot air extension pipe and exhaust stove. **\$10.30**

61 C 5701—For all Chevrolet 490 models. Furnished complete with all connections. **\$8.85**

Mechanics' Special Assortment

An outfit that will often pay back its price in time saved when making repairs. As it consists of cap screws, nuts, bolts, set screws, rivets, cotter pins, lock washers, etc., in the sizes most used on autos, trucks, tractors and machinery about the farm or shop. Carry a set in your car and keep another at home. Shipping weight, assortment, 4½ pounds.

61 C 3516—Complete assortment. **\$1.08**

We Supply Instructions So You Can Do Your Own Repairing

There are many repairs which the auto owner can easily make on his car, and thus save considerable money; but many motorists hesitate to attempt the work, thinking it may be difficult. We make it easy for you to do most of your repairing by including simple, easily understood directions with every article which the average motorist may not be entirely familiar with. For example, with every order for Challenge Brake Lining we include a little book showing exactly how to reline brakes. These instructions are very simple and are written so clearly that anyone can follow them. Every motorist has found that the more he knows about his automobile and the better he understands it, the more pleasure he gets from driving. There is no better way to learn about your car than to do your own repairing. Get one of our Socket Wrench Sets—order the repairs you need and put them on yourself. You will value both the saving and the experience.

Speedometer Parts

Speedometer Swivel Joints

The swivel may be adjusted for wear or taken apart for replacing worn gears or minor parts. Fit all Stewart speedometers perfectly. Shipping weight, 1¼ pounds.

61 C 2544—Right. **\$2.30**
61 C 2545—Left. **\$2.30**

Swivel joints listed below are non-adjustable type.

61 C 2542—Right. **\$1.58**
61 C 2543—Left. **\$1.58**

Speedometer Shafts

Complete with end fittings to fit Stewart speedometers. Are entirely interchangeable. Shipping weight, 4 pounds.

61 C 2203—50 inches. **\$2.25**

61 C 2210—60 inches. **2.25**
61 C 2211—66 inches. **2.25**
61 C 2212—72 inches. **2.25**

Speedometer Clutches and Shaft Fittings

Interchangeable with Stewart parts. Made of best steel especially heat treated for long wear. Shipping weight of each, 2 ounces.

61 C 2223—Upper end clutch of chassis. **8c**
61 C 2224—Sliding bar and lower end clutch of chassis. **15c**
61 C 2225—Links for chassis. **8c**

Speedometer Fiber Gears

Gears for Stewart have 16 teeth. These gears are made of fresh sheet fiber; accurate mesh. Made in cotter pin type only, for Stewart speedometers only, except No. 61 C 2222. Shipping weight, 2 ounces.

61 C 2216—No. 1; diameter, 2¼ inches **10c**
61 C 2217—No. 2; diameter, 2 inches **10c**
61 C 2218—No. 3; diameter, 1¾ inches **10c**
61 C 2222—Standard Jones, Sears Cross fiber gears for 1915 Fords; 1¾ inches, 12 teeth **10c**

Lock Washers

A full assortment of 39 steel lock washers. Size of hole, from ¼ to ¾ inch. Strong carton. Shipping weight, assortment, 8 ounces.

61 C 3115—10c

Cotter Pins

In paper canisters containing about 100 spring steel cotter pins. In assorted lengths and thicknesses. Ship. wt., assortment, 6 ounces.

61 C 3104—10c

Dunn Counterbalances for Dodge and Chevrolet 490 Crankshafts

Dunn counterbalances carry the pistons over the gap between explosions and reduce vibration, thus saving unnecessary strain on the engine. Prevent springing the crankshaft and reduce wear on the bearings. They also increase the power, as the force formerly absorbed by the vibrating of the crankshaft is transmitted to the rear wheels. Easy to install, and once on they require no further attention. Shipping weights, per set, 20 and 16 pounds.

61 C 6570—For Dodge cars. Complete set. **\$3.35**
61 C 6571—For Chevrolet 490. Complete set. **\$7.85**

Challenge Brake Lining

Prepares You for Emergencies and Gives You a Feeling of Safety

Probably no one thing causes so much uneasiness to the auto driver as the knowledge that the brakes may not hold. Put aside this uncertainty by lining your brakes yearly with Challenge Lining. In an emergency it will lock the wheels or, with a light pressure on the brake, it brings your car to a slow stop without jerking. This lining is used as regular equipment by several manufacturers. Challenge Lining is made of a fine staple, fibrous asbestos yarn closely interwoven with brass wire. It will not char or burn from friction heat, nor does it soften or become hard. It is heatproof, oilproof and waterproof. Average shipping weights, per foot, 4 to 9 ounces.

Article Number	Per Foot	Width	Thickness
61 C 9406	13c	1 in.	¼ inch
61 C 9407	15c	1½ in.	¼ inch
61 C 9408	16c	1½ in.	½ inch

Soldering Outfit

A handy motorist's outfit for soldering radiators and wire connections, as well as for art projects in the home. Outfit consists of soldering iron with handle; piece of tape solder; can of soldering paste and package of steel wool; also instruction sheet. Ship. weight of outfit, 1½ lbs.

61 C 9231—Complete outfit. **\$1.10**

Boycott Service Unit

The gasoline can is red and marked "Gasoline." The oil can is blue, marked "Oil." The water can is covered with heavy striped blanket which helps to keep it cool for drinking. The entire outfit is quickly attached to the running board with two special clamps. Gasoline can holds 2 gallons; oil can 1 gallon; water can 2 gallons. The outfit is complete with the cans and offset funnel, the holder and running board clamps. Shipping weight of outfit, 14 pounds.

61 C 6450—Complete outfit. **\$7.25**

Differential Gears

Drop forged quality ring gears and nickel steel pinion gears to replace those on all Chevrolet 490 cars up to 1921, and all Maxwells, model 25, from 1915 to 1920. Average shipping weights, ring gear, 4½ pounds; pinion gear, 1¾ pounds.

61 C 5702—Ring gear for Maxwell. **\$3.95**
61 C 5703—Pinion gear for Maxwell. **\$2.95**
61 C 5704—Ring gear for Chev. 490. **\$3.25**
61 C 5705—Pinion gear for Chev. 490. **1.35**

A. A. A. Quality Standard Guaranteed Springs

Every spring painted black and fully guaranteed for a year against sagging or breaking. All springs are guaranteed to match the other springs on the car in load depression.

If the make of your car is not listed, write and we will quote prices.

A spring 36 by 1¼ means that the spring measures 36 inches between centers of eyes and that the width is 1¼ inches. Some springs have one leaf more or less than original spring. Measurements shown are without load. Order by article number only. Springs marked with (*) are shipped from stock; all others from factory in Southern Michigan. If style of car is not mentioned, the spring fits all touring, roadsters, sedans or coupes.

Gasoline Can

Carry this can filled and you will always have a gallon ready for emergency. Convenient shape, fits under seat. Height, 10½ inches; thickness, 3½ inches; width, 8¾ inches. Shipping weight, 1¾ pounds.

61 C 9856—73c

Funnel Measures

Very handy tin measure with funnel which prevents wasting oil over the sides. Shipping weights, 1½ and 2 pounds.

61 C 9867—Pint size. **18c**
61 C 9868—Quart size. **25c**

Oil Can

Capacity, 2 quarts. Will hold enough oil to get you home. Height, 8¾ inches; thickness, 3½ inches; width, 5¾ inches. Shipping weight, 1½ pounds.

61 C 9855—59c

Spring Leaf Spreader

Makes the spreading of spring leaves easy for oillog or graphiting. Can also be used as a clamp for a broken spring. Steel, nickel plated. Shipping weight, 1¼ pounds.

61 C 9810—\$1.60

Creep-in Oil for Springs

This is a special oil which will creep in between spring leaves. Used by squirting on the edges of the springs. Makes the car ride easily. Shipping weights, 1 and 1½ pounds.

61 C 6381—½ pint. **30c**
61 C 6382—1 pint. **45c**

Johnson's Liquid Wax

Produces same results as Johnson's Prepared Wax. Easily applied with brush or spray. Shipping weights, 1½ and 3 pounds.

61 C 9558—Half pint. **45c**
61 C 9559—Pint. **68c**

Johnson's Cleaner and Wax

Cleaner removes stains and is much better than soap, putting the body in condition for the wax. Johnson's Wax keeps cars looking like new. Shipping weights, 10 and 7 ounces.

61 C 9560—Cleaner. **35c**
61 C 9561—Wax. **35c**

Simons Kleener and Wax

Two wonderful aids for keeping your car new looking for years. Simons Kleener removes dirt, grease stains and road grime without injuring the surface. Simons Wax is a polish in paste form that gives a bright, glossy, long-lasting finish. Shipping weights: Kleener, 16 ounces; wax, 10 ounces.

61 C 9572—Kleener. **43c**
61 C 9571—Wax. **43c**

Auto Wiping Cloths

A knitted soft cloth for polishing or wiping the automobile, piano or any other delicately finished surface. To be used either dry or with polish. Better than old rags. It will not scratch.

61 C 9606—Package of 3. **22c**

Riverside Auto Polish and Cleaner

Produces a water proof finish; will not collect dust. Contains no wax, soap, varnish or gummy veneering substances. Removes that dull, smoky look which generally results from using just soap and water. Can be applied either with a cloth or sprayer. Cars that have a good finish are always worth more, so keep yours polished. Shipping weights, 3 and 9 pounds.

61 C 9553—Quart can. **43c**
61 C 9554—Gallon can. **98c**

Polishes and Brushes

Auto "Spray" Fountain Brush Gets at those places that are hard to reach and cause so much trouble when using a rag or sponge. The Auto "Spray" is a water saver—uses less water than the hose alone. Quickly attached to any standard hose coupling on ordinary garden hose. There are no loose movable parts and the coupling has a shoulder to hold it in place. Long, hard maple handle reaches out-of-the-way places. Spray part (patented) in seamless brass. Best China brushes used. Entire length, 17 inches. Shipping weight, 1¼ pounds.

61 C 9601—\$1.59

Dustless Duster

It takes up the dust and will not scratch. This is a much easier and quicker method than using rags. Readily washed with soap and water. Length of brush part, 10 inches; width, 5½ inches; length of handle, 7 inches. Shipping weight, ¾ pound.

61 C 9608—39c

\$75.00 Buys Garage

First class materials. Solid construction. Not an inferior portable, but a well built, permanent garage. All parts cut to fit—you can erect it yourself in half a day. Our price includes all lumber, hardware, roofing, and two coats of paint.

Send for Our Circular

Spoke Brush

Just the thing for spokes, under fenders and around the springs. Stiff bristles twisted in wire. Rigid black enameled wood handle. Length, 18 inches. Shipping weight, 12 ounces.

61 C 9602—39c

Shipped Fully Charged

De Luxe Batteries Guaranteed One Year

You take no chances on quality when you buy De Luxe Batteries from Ward's. Every part and ingredient used in De Luxe Batteries is brand new, fresh stock. We positively do not sell rebuilt batteries. De Luxe Storage Batteries are fully guaranteed for a period of one year against any defects in material or workmanship. Any De Luxe Battery which develops trouble due to a defect within the one year period, will be repaired free of charge or replaced on a service basis.

Ward's Guaranteed De Luxe Auto Storage Batteries

Compare Prices — See How We Save You \$6.50 to \$15.00

You save \$6.50 to \$15.00 by purchasing a Ward's De Luxe Battery. We sell thousands of batteries a month on a one small profit basis. By eliminating the usual extra profits paid to jobbers, salesmen, distributors and the high expenses necessary to maintain them we give you better quality for less money.

The Reason Our Prices Are Lower

Every year our sales of batteries have shown wonderful increases. Greater sales enable us to reduce selling prices, for Ward's have always conducted business on the basis of a small profit on large sales rather than a large profit on small sales. Contracts have been placed for battery materials with a view to making this by far the greatest battery year in our history. Manufacturing conditions have been bettered to take care of the increased business. Our shipping arrangements have been improved to give you immediate shipment. And even our one small profit has been reduced to give you a greater value.

30 Days' Trial in Your Own Car

Think of it! You can use a De Luxe Battery 30 days to convince yourself thoroughly that it will do all that can be expected from any battery, regardless of price. You can see for yourself that the De Luxe will spin your motor over with great force — that it will furnish your plugs a powerful spark — that it will give your lamps a strong, bright light.

You Don't Risk a Cent

This 30-Day Trial Offer is, we believe, the fairest battery proposition ever made to auto owners. Simply send in your order in the regular way, enclosing remittance — put the battery in your car and use it. If at the end of the 30 days you should feel for any reason that the De Luxe is not equal in every way to any battery on the market we will refund your money and all transportation charges you have paid.

Made for All Cars

We can furnish De Luxe Batteries for all cars; so if your make is not shown, write and we will quote you a price. Specify name of car, year, model and name of starting system. Also give voltage, length, width and height to the top of the handles of the old battery. If possible tell us all that appears on the nameplate.

Change Your Own Battery

Each De Luxe Battery is specially designed to fit exactly in the space provided by the car manufacturer, and the terminal posts are arranged so your wires can be easily connected. In most cases it is as easy to change a battery as it is to change a tire.

Unless Otherwise Specified, All Batteries Shown on This Page Are 6 Volt Type.—Shipped from Factory in Chicago.

Jar used for distilled water and is sealed by rubber disc on the hydrometer, keeping out dust and dirt. Hydrometer is of the very best type, protected by rubber disc at bulb and rubber square at lower end, preventing it from rolling off bench or running board. Shipping weight, 2 1/2 pounds. Hydrometer only, 1 pound.
61 C 3843—Outfit, \$1.00
61 C 3842—Hydrometer only, .65

These Coils represent the highest skill in making and produce a strong, hot spark even on low voltage. They use very little battery current. Brackets, terminals and connections fit perfectly. Resistance units of original construction are supplied so should new ones ever be required, those supplied by each coil maker are interchangeable with these.

Coils for Other Cars

We can furnish quality Replacement Coils for almost any make of car not shown in above listing. Specify make, year, model of your car and name of ignition system. Allow \$6.45 and transportation charges when ordering. Shipping weight, each, 2 1/4 pounds.
261 C 7100—Each, \$6.45
Shipped from Factory in Chicago

Built of the highest grade materials, these Batteries will stand up well though given the extremely hard usage required on tractors and trucks. Excellent equipment for cars not fitted with starters, also the right type for stationary gas engines. The same care is used in selecting materials and building the different parts of these batteries as is taken in making our De Luxe Starting Batteries. The terminals have an extra washer beneath the seal on top which prevents the acid from getting out, thus stopping corrosion. The clean contact assured by this construction allows the current a free flow that gives a hot, fat spark for ignition and strong bright lights. The terminals are solidly attached so there is no possibility of loose connections. Size shown is total over all; 6-volt, 60 ampere hours. Length, 7 1/4 inches; width, 6 3/4 inches; height, 9 1/4 inches. Shipping weight, 30 pounds.
261 C 3846.....\$11.95

Hot Spark Intensifiers

Make Old Spark Plugs Fire Every Time Just Like New

28¢

They often save many times the small cost in helping locate ignition troubles. Just raise the hood and watch the sparks in the glass cylinders. Hundreds of tests have proved that this wonderful little device with its adjustable gap actually makes spark plugs which are missing and would not fire at the points on account of soot, carbon or similar troubles fire every time just as they did when new. They strengthen the spark so it burns through carbon. Plug not included. Shipping weight, each, 2 ounces.

For Chevrolet and Buick
Special design that fits all models of Buicks and Chevrolets. Shipping weight, each, 5 ounces.
61 C 9088—3/4-inch extension. Ea. 69¢

Riverside GIANT Spark Plugs

With the Famous "775" Porcelains

A great big, sturdy plug that will give years of service. The heavy body is turned from solid bar hexagon steel, scientifically treated and copper plated. The stone colored porcelain is especially selected. Electrode and sparking points made of high resistance, specially treated alloy. A heavy shoulder or ledge on the porcelain rests on a copper gasket in the shell, which in turn is held down and made gas-tight by an adjustable locking nut.

Terminal takes either the regular open end, or round, slip-on connection. Owing to their double point construction, Riverside Giants give remarkably good service in motors that "throw" oil. Shipping weight, each, 8 ounces.

Triumph Hot Firing Tubes

This money saving invention, when attached to the bottom of your spark plug, makes every spark a flaming torch; changing tiny sparks to a spreading white-hot flame. Gives more complete combustion, at every explosion, which aids in developing more power at every stroke of the piston. Quicker pickup. The hot point shields plugs from oil—the result is clean spark plugs. Order 1101 Firing Tubes same as your spark plugs. Be sure to state name of car and size of your spark plug when ordering. Shipping weight, each, 1 ounce.

Our Popular Enameled Case Vacuum Bottle
A thoroughly reliable vacuum bottle which will serve you as faithfully as the high priced models. The principal difference is in the case which encloses the inner bottle. Keeps liquid hot for 24 hours or cold for two days. This bottle is popular among motorists, hunters, fishermen, tourists and others who are not especially particular regarding the finish of the case. It is truly a service model. The case is handsomely enameled, has aluminum shoulder and cap. Shipping weights: Pint size, 1 3/4 pounds; quart size, 2 1/4 pounds.
61 C 6620—Pint size.....\$1.20
61 C 6621—Quart size.....1.95

Lunch Kit with Vacuum Bottle
\$1.49

Package Carrier
The handiest carrying outfit we ever have seen. May be put on or removed from running board in two or three minutes. Holds suitcases or packages firmly so they will not injure finish of car. No more baggage or parcels around in the seats or holding packages when car is full of passengers. Just think of the dozens of times this simple, compact outfit will serve you. Farmers will find use for it on practically every trip to town. Adjustable to any length from 10 to 50 inches, so you may carry all usual size packages. Three thumb-screws hold it securely to running board. Size folded, 10 1/2 by 19 by 4 inches. Shipping weight, 13 1/2 pounds.
61 C 6468.....\$1.45

Best Quality Nickel Plated Vacuum Bottle
A model especially desirable around the home on account of its beautiful finish. In the sick room a vacuum bottle is a wonderful help. Extra strong metal case, heavily nickel plated.
Can be taken apart and cleaned or a new inner bottle inserted in less than a minute. Neck protrudes above metal casing, preventing contents from coming in contact with metal case when pouring. Screw top serves as drinking cup. Shipping weights, 2 1/4 and 3 1/4 pounds.
61 C 6604—Pint size.....\$2.45
61 C 6605—Quart size.....3.35

Don't Go on a Trip Without a Vacuum Bottle and a Package Carrier
An earthenware thermo which holds one gallon and will keep liquids hot or cold. A great convenience on auto trips or fishing trips. For any occasion where the vacuum bottle is not large enough. It has a 3-inch opening and may be used for packing ice cream. Boiling hot water will not break it. Swinging handle makes it handy to carry. Shipping weight, 10 pounds.

Supplies for Fords are shown on Pages 579 to 585

Standard Electric Spotlight

This is a serviceable low price Spotlight. Attaches to windshield by a bracket with a universal joint that allows turning in any direction. The reflector is of a special shape and of high finish, throwing a long parallel beam that lights the road for a great distance. Convex type lens.

The bulb used is a 21 candlepower, nitrogen 6-8, 12-16 or 18-24 volt and throws a very powerful light. An on-and-on connector is provided so that light can be turned on or off at will. Front diameter of lamp, 6 1/4 inches. Finished in black with nickel plated rim. Complete with wire. Shipping weight, 3 pounds.

61 C 6740—For 6-8-volt battery \$2.95
61 C 6741—For 12-16-volt battery 3.00
61 C 6742—For Ford magneto, 18-24 volt bulb 3.10

\$785 Anderson Auto Reelite and Trouble Lamp

The latest type powerful Spotlight and Trouble Lamp combined. Patented reel permits lamp to be removed instantly from the windshield so it can be taken to any part of the car, even as far as the spare tire on rear. If you have a puncture or engine trouble, bring the spotlight around and find out at once just what is wrong. No fusing with matches that burn out or a lantern that will not burn at all. Spotlight is popular size and an attractive model. Black enamel with nickel trim. One of the most useful accessories that you can add to your equipment. There are probably few nights when you will not find use for it either on the road or in the garage. We have sold a great many of these Anderson Auto Reelites, and our customers have been delighted with the service they have given at all times. Reel and about 12 feet of cord included. Shipping weight, 5 pounds.

61 C 6735—With 6-8-volt bulb \$7.85
61 C 6736—With 12-16 volt bulb 7.85

Push and Pull Switch

This is a standard panel push button switch that is neat, simple, easily installed. Can be used for headlights, tail and dash lamps, or in any combination desired.

Spring contacts, wire connections are at the back. Black finish. Shipping weight, per switch, 2 ounces.

61 C 7058—One-gang switch 22¢
61 C 7059—Two-gang switch 43¢
61 C 7060—Three-gang switch 65¢

Spotlight Bracket for Closed Cars

Attaches to the body of a closed car or coupe. Spotlight or mirror can be clamped to the bracket and does not interfere with operation of the windshield. Finished in black enamel. Shipping weight, 3 ounces.

61 C 6719 29¢

\$169 Auto Visor

Best kind of protection from sun, headlight glare or rain. Attaches to the top and can be folded out of the way when top is down. A steel frame, braced in the center, makes the visor rigid. It will not sag, buckle or rattle. Made either in heavy black rubberized cloth or double thickness green and white awning duck. Adjustable to fit any open or closed car. Shipping weight, 4 1/2 pounds.

461 C 9525—Black \$1.69
461 C 9526—Green and white awning duck. 1.69

14¢ Heel Mat

Made of special rubber composition. Heavy ribs prevent foot slipping. More comfortable for the foot and prevents wear of floor board. Size, 5 1/2 by 3 1/2 inches. Shipping weight, 3 ounces.

61 C 3799 14¢

39¢ Adjustable Footrest

Takes strain off of foot and leg muscles, as the foot pivots freely at the center instead of throwing weight on the heel. Suitable for all style accelerators and adjustable in height so you may fit it for comfort. Made of steel. Shipping weight, 12 ounces.

61 C 3549 39¢

Keep-U-Clean Jumpers

Save their cost in cleaning bills—no more grease spots when changing tires or working around engine. Can be snapped on or taken off in four seconds. Held in place by covered, flexible steel bands. Not an overall. Will not wrinkle clothes. Made of durable material that will last the average motorist for years. Fit anyone. Shipping weight, 1 pound.

61 C 3395 \$1.15

Combination Auto Robe and Poncho

Can be used as a raincoat or a hood cover. Makes a warm robe and a protector. Light weight. Makes a serviceable poncho to use in wet weather during engine or tire trouble. Made of waterproof material. Size, about 50 by 70 inches. Shipping weight, 3 pounds.

61 C 6663 \$2.79

Spotlights and Auto Lamps

Silver Ray Spotlight

An innovation in Spotlight construction which throws a powerful, penetrating light. Heavy convex lens which centers the strong, powerful beam of light just where you want it. A three-point bracket with wide range adjustable motion enables you to lower the light for watching the road or swing it sideways and upwards. Easily detached by a turn of cross bolt with the fingers, making it immediately accessible to any part of the car. Has universal bracket to fit all windshields. Finish is black with nickel rim and bracket. Works off any 6 or 12-volt battery or Ford magneto. Complete with wire and bulb. We can furnish at a small additional cost a neat rear view mirror which attaches to lamp. Ship. wt., 3 lbs.

61 C 6724—With 6-8 volt bulb. Without mirror \$5.25
61 C 6725—With 12-16 volt bulb. Without mirror \$5.35
61 C 6726—With 18-24 volt bulb for Ford magneto. Without mirror \$5.45

New Drum Shaped Electric Head Lamp

Handsome drum shaped Head Lamps recently designed to meet the need for lamps that would be extremely attractive and at the same time very effective. Many manufacturers are now using this design as regular equipment. Special brackets included so these lamps can be attached to the following cars: Buick, Chandler, Chevrolet, Dori, Durant, Essex, Hudson, Hummobile, Liberty, Moon, Nash, Oakland, Overland, Paige, Peerless, Saxon and Westcott. Body of lamp is black. Both front and rear lamps are highly nickel plated. Bulbs are 21 C. P. 6 volt. Bulb can be adjusted from rear of lamp. Shipping weight, per pair, 15 pounds.

61 C 6751—Per pair \$8.45

Electric Dash Lamp

Nickel plated. Easily attached to dash of any car. Two inches long and furnished with a 6-8 volt bulb and a switch. Shipping weight, 6 ounces.

61 C 6860—Double contact for metal dash 57¢
61 C 6861—Single contact for metal dash 57¢
61 C 6904—Double contact for wood dash 53¢

Safety Inspection Lamp

Operated by car's storage battery. The plug fits all sockets on dash or in lamps. It brings the light exactly where you want it. Has a polished reflector and protecting wire guard. Ten feet cord that enables you to reach all parts of the car; 6-8 volt bulb. Shipping weight, 1 pound.

61 C 6901—With double contact plug \$1.30
61 C 6902—With single contact plug 1.30

Tail Lamp

Double and Single Contact. Has ruby semaphores lens, which side light to illuminate number; cut-out plug; 4 candlepower 6-volt bulb. Finished with combination prop; opening fits round or flat iron. Black finish. Shipping weight, 12 ounces.

61 C 6769—Double contact 53¢
61 C 6723—Single contact 53¢

Ford Owners: Head Lamps, Lamp Parts and Lenses

for Fords are shown on Page 583

\$169 Aluminum Step Plates

Very popular, as they protect the running board and prevent the shoes striking against the finish on the body of your car. This finest style is a great improvement over the usual kinds, as it has a special scraper arrangement that is used as a cleaner for mud and slush. Besides the scraper these plates have high rear guard and raised sides. The outside measurement is about 10 by 9 inches. Screws furnished. Shipping weight, each, 2 pounds.

61 C 3548—Each \$1.69
61 C 3556—Per pair 3.30

Aluminum Step Plates

These are plain, neat aluminum plates with a high, protecting guard at the back. They are very attractive and will help in preventing wear on the running board. Screws included. Size, about 9 1/2 by 7 1/2 inches. Shipping weight, each, 1 1/2 pounds.

61 C 3547—Each \$1.90
61 C 3557—Per pair 1.75

Running Board Mat

Made of heavy composition rubber. Aids in keeping floor of car clean. Prevents slipping. Screw holes reinforced by metal. Special composition resists wear. Size, about 8 by 11 1/4 inches. Shipping weight, 1 1/2 pounds.

61 C 3798 33¢

Comfy Cushion

For automobiles, motorboats, porches, camps and outings. Made of high grade imitation Spanish leather. Filled with vegetable fiber, soft and downy. Adds to the pleasure of auto riding. Also serves as a life preserver, having four times the buoyancy of cork. Size, 15 by 15 inches. Shipping weight, 2 pounds.

61 C 6685 \$1.30

Cocoa Mat

Closely woven and well bound. Fits any car. Two special spring clamps (woven in) hold it on securely. Gives foothold when getting on car, and serves to keep car clean. Size, 9 by 14 inches. Shipping weight, 1 1/2 pounds.

61 C 3755 89¢

Backrest

Wedge shaped. Fits the back. Imitation leather with a filler that will retain its resiliency and lightness. Welt seam binding. Size, about 16 by 16 inches. Shipping weight, 3/4 pounds.

61 C 6675 \$1.49

Ever-Klean Seat Pad

An attractive and serviceable seat cover. Made of two pieces of strong rice straw, bound on the edges and securely held together with heavy strips of khaki colored cloth. Protects clothes and cushions. Fits all cars. Each half is 17 by 17 inches. Shipping weight, 1 1/4 pounds.

61 C 6690 59¢

Collapsible Canvas Water Bucket

Made of double texture olive drab duck, thoroughly waterproofed. It is fitted with splash guard and strainer spout. Has nonrusting metal ring and all seams are double sewed with strong cotton threads. 8-inch diameter; 12 inches deep. Capacity, 9 quarts. Shipping weight, 1 1/4 pounds.

61 C 9876 \$1.15

Stop Light Safety Signal

An automatic, signal device that warns the drivers back of you. The switch is connected to the footbrake or clutch pedal so when you stop it immediately flashes a strong, bright light that can be seen plainly day or night. No need of putting out your hand. This is really the only practical way of warning during the cold weather or when it is raining or snowing, since side curtains or windows usually make it impossible to reach out. The light is 4 1/4 inches in diameter and is fitted with a 6-8 or 12-16 volt, 21 signal contact bulb. The switch is an improved waterproof type. A special ruby lens is securely fastened so it cannot turn. Shipping weight, complete, 2 pounds.

61 C 6781—Complete, 6-volt type \$1.00
61 C 6783—Complete, 12-volt type 1.00

Parking Lamp

Instead of using your two headlights and the tail light while standing at night, you need only this one lamp. Placed on the left rear fender it gives a warning red light backward and a white light forward. Body of lamp is steel, black enameled. Total height of lamp is 3 3/4 inches; width, 2 1/2 inches. Switch in base. Rubber bushing protects wires; 6-volt 2 candlepower bulb. Ship. weight, 1 lb.

61 C 6738—For all cars using 6-volt battery. \$1.45

McKee Lens

This well known Headlight Lens eliminates all glare. Furnishes good driving light at side of road as well as lighting the road for 600 feet ahead. Static diameter of your old glass when ordering.

Regal Sun and Storm Shield

Shades your eyes from the bright sun or glare of headlights and street lights. It keeps the upper part of your windshield much clearer and more transparent during rain or snow storms. Made of high grade steel reinforced. Beautifully enameled, black on top and eye-appealing, non-reflecting green underneath. The Regal is adjustable and will fit all cars, open or closed, except those with V-shaped windshields. Ship. weight, 8 1/2 lbs.

461 C 9569—For all cars \$3.25

Denver 8-Day Cowl Clock

A splendid cowl dash model of very neat appearance, as it fits flush with the surface of the dash. Runs eight days with one winding. Has large, clear, easily read figures. Furnished in highly polished nickel finish only. Height from rim to rim, 3 1/2 inches; diameter of dial, 2 1/2 inches; depth, 2 3/4 inches. Shipping weight, 2 1/2 pounds.

61 C 3551 \$5.45

Frisco Cowl Clock

A fine appearing, flush fitting cowl clock with reliable one-day movement. Built to withstand jars and vibrations. Slight turn of special catch loosens clock for winding and setting. Nickel finish. Height, over all, 3 1/2 inches; diameter of dial, 2 1/2 inches; depth, 2 inches. Ship. weight, 1 1/4 lbs.

61 C 3554 \$3.95

"Save-the-Sleeves" Gloves Keep You Clean

They are large enough to slip over your coat sleeves, completely protecting arms as well as hands and cuffs. Just right for working around motor, changing tires, or greasing differentials. Quickly save their cost. Made of heavy, carefully sewed canvas. Total length, about 25 inches. Shipping weight of pair, 10 ounces.

61 C 9679—Per pair 49¢

Use Riverside Tires

Cold Weather Necessities

Complete Radiator and Hood Cover

Covers radiator and entire hood. Made of waterproof enameled fabric, lined with a good quality heat retaining material. The radiator cover is the same as that described at the right, and the outfit includes all the necessary straps and clips to insure a secure fit. Carried in stock for Chevrolet 490 and Dodge cars only. Average shipping weight, 7 pounds.

\$220

Electric Engine Warmer

Instead of fussing with stoves and draining water from radiator to keep the water from freezing over night, just put this heater under the hood with a blanket over the radiator, and in the morning the motor will be ready to start easily. Operates from any 110-volt current, alternating or direct, attaches to lamp socket. As there is no flame it is safe. Size, about 6 3/4 by 3 1/4 inches. About 10 feet of cord. Consumes about 2 amperes. Shipping weight, complete, 1 1/2 pounds.

61 C 3663—Complete..... \$3.45

Taplex Heater

A great improvement over old style charcoal heaters, as all you need is a match to light the bar of fuel—no smoke. One bar heats continually for 6 to 8 hours. Economical to operate. This heater is also very handy around the house for chilly days. Size, 7 1/2 by 14 inches. Shipping weight, complete outfit, 9 pounds.

Has no chemical action on iron, copper or brass, and is safe to use. One can protects a 3-gallon radiator to 10° above zero. Directions printed on each label. Shipping weight, per can, 9 pounds.

561 C 3661—Gallon can..... 89¢

Imperial Primer

Cold weather starting troubles will be practically done away with if your car is equipped with an Imperial Primer. One stroke of the primer within easy reach on the dash board sprays vaporized gasoline into the manifold. You can start without the fuss or delay usually experienced in winter motoring. No priming through petcocks; no standing in the snow or rain. Do not risk injury to your battery by grinding away for several minutes to start your motor when it is cold. This feature alone is worth many times the price of the outfit. Outfit consists of substantially made plunger pump, all necessary bolts, connections and tubing. Shipping weight, complete, 14 ounces.

61 C 3668—For all cars fitted with a vacuum tank. Complete outfit..... \$3.20

61 C 3669—Special for Fords..... 3.20

Electric Intake Heater

Heats the intake manifold, giving a quickly combustible gas mixture that ignites instantly. Uses about same amount of current as the lights. Fits any size pipe. Can be bent for curved pipes. No drilling or tapping—simply clamp around pipe.

Complete with wire and switch for attaching to battery. For single contact lighting systems only. Shipping weight, 8 ounces.

Handy Socket Wrench Set

Due to the high cost of making repairs and adjustments, many car owners are doing this work themselves. Loose nuts and bolts cause excessive wear, which means new parts. Here is an outfit that will cut down high costs for you. The sockets in this outfit will fit practically every bolt and nut on all autos; and with the use of our new improved flat ratchet handle you can tighten loose parts and make adjustments in a great deal less time than with ordinary wrenches. Outfit consists of socket wrench; an assortment of 30 case-hardened, cold drawn, pressed steel sockets ranging in size from $\frac{5}{16}$ to $1\frac{1}{2}$ inch; a universal joint (permitting the use of the wrench at any angle up to 90 degrees); one long extension bar, permitting wrench to reach into engine or crankcase; also a long socket for removing spark plugs. Shipping weight, per set, 10 pounds.

61 C 9537—Complete set in strong steel box... \$5.95

A Turn in Time Saves Nine - Do Your Own Repairing

All Pressed Steel Sockets Shown on This Page Are Guaranteed Not to Break

Don't wait until new parts are necessary before tightening up nuts and bolts. Go over the car occasionally. Keep the nuts tightened up. Your car will last longer and your repair bills will be less—you will get greater pleasure from driving. A good socket wrench set makes the work easy.

Tractor Socket Wrench Set

A special set that probably will do more than anything else to keep your tractor on the job all the time. Set consists of one nickel plated ratchet handle; one 12-inch steel handle Stillson pipe wrench; one pair 8-inch drop forged nickel plated combination pliers; five flat wrenches (ten openings); one cotter pin extractor; one folding screwdriver; one universal joint; one long and one short extension rod; one offset socket wrench handle; one hexagon spark plug socket which fits standard $\frac{3}{4}$ -inch tractor plugs; and 38 guaranteed pressed steel sockets varying in size from $\frac{3}{16}$ to $1\frac{1}{2}$ inches. All in strong steel box. Shipping weight, per set, 18 pounds.

61 C 9597—Complete set... \$12.95

Master Socket Wrench Set

The set for the boss mechanic or critical auto owner who insists on having the best; who demands that every nut or bolt be properly tightened. Hard-to-reach connecting rod nuts, brakeband and clutch adjustment are easily handled. The Master Set contains one flat ratchet handle; one 7-inch drop forged pipe wrench; one pair pliers; five flat wrenches (ten openings); one cotter pin extractor; one folding screwdriver; one universal joint; one long extension rod; one offset socket wrench; handle; one spark plug socket $\frac{1}{2}$ by 4 inches long; 38 guaranteed pressed steel sockets. Strong steel box of convenient size to carry in car. Shipping weight, per set, 15 pounds.

61 C 9733—Complete set... \$9.95

Challenge Wrench Set

Set of 14 sockets, fitting almost all sizes of bolts, nuts and setscrews. Universal joint and extension enable one to reach into cramped, difficult places at any angle without trouble. The set is in a strong wood box and can be carried in the car. Shipping weight, of set, 8 $\frac{1}{2}$ pounds.

61 C 9730—Complete set... \$3.60

Plier Grip Wrench

Simply adjust to within $\frac{1}{4}$ inch of the nut size, then grip the handle and the jaws close tight on the nut. Works in a smaller space than the regular monkey wrench and can be operated twice as fast. Holds square or hexagon nuts or bolts. Also useful as pliers. Jaws and handle are drop forged, nickel plated finish; 10-inch size has opening up to 1 $\frac{1}{2}$ inches; 8-inch size has opening up to 1 inch. Shipping weight, 1 $\frac{1}{4}$ and 2 pounds.

61 C 9541—8-inch size... \$1.30

61 C 9542—10-inch size... \$1.68

Utility "S" Wrench Set

This set consists of five best grade drop forged wrenches; lengths varying from 6 $\frac{1}{2}$ to 10 $\frac{1}{2}$ inches. Ten different openings as follows: $\frac{7}{16}$, $\frac{1}{2}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, and 1 inch. The ends are semi-finished and each opening is accurately ground to size. With this set you can adjust practically every nut and bolt. Shipping weight, per set, 3 pounds.

61 C 9750—Set of 5... \$1.18

Simplex Quick Action Grease and Oil Gun

Works quickly and does away with soiled hands or clothing. Simply remove lower cap and insert in grease. Pull up plunger and the gun fills—no air pockets. Slip off outer sleeve which prevents superfluous grease from sticking to gun. Put on lower cap and pump grease. The tightest places are easily reached. The Simplex is one of the most satisfactory grease guns on the market. Diameter, 1 $\frac{1}{4}$ inches. Shipping weight, 2 $\frac{1}{2}$ pounds.

61 C 9803... \$1.79

Oil and Grease Gun

Will load and discharge grease as well as the lightest oil. End of gun is threaded to fit the Ford differential. Heavy metal tubing, 1 $\frac{1}{4}$ by 9 inches. Double leather plunger. Capacity, 6 ounces. Finished in brush brass. Shipping weight, 1 pound.

61 C 9817... \$3.50

Fenders for Fordsons

Strong, wide, heavy metal fenders. Braces arranged so fenders are very rigid and will withstand practically all vibration. A board can be placed across lower braces so driver can stand on it when tired of sitting down. Complete with attachments. Shipping weight, per pair, 135 pounds.

161 C 9991—Per pair... \$14.50

Water Circulator for Fordsons

A successful water cooler that will last as long as the Fordson. It pays for itself in a short time by the savings made on repair bills due to overheating. Keeps water cool under conditions where radiators alone fail. Can be fitted in a few minutes. Shipping weight, 15 pounds.

61 C 4077... \$16.55

Special Socket Wrench Sets

An always ready, sturdy set of four wrenches makes all the important bolts and nuts on the Chevrolet 490 easy to get at. Sizes: $\frac{1}{2}$ -inch hexagon; $\frac{1}{2}$ -inch square and $1\frac{1}{16}$ -inch hexagon; $\frac{3}{4}$ and $\frac{3}{8}$ -inch hexagon; $\frac{1}{2}$ and $\frac{3}{8}$ -inch hexagon. Shipping weight, per set, 5 pounds.

61 C 9581—Set of 4... \$2.10

These three wrenches will fit all the important bolts and nuts on a Dodge. Socket sizes: $\frac{7}{16}$ -inch and $\frac{3}{8}$ -inch hexagon; $\frac{1}{2}$ -inch offset hexagon; $\frac{3}{4}$ -inch and $\frac{3}{8}$ -inch hexagon. Shipping weight, per set, 5 pounds.

Rex High Pressure Greasing System

To get the best service from your car, it must be greased. Grease lessens wear so parts last three or four times longer; makes the car ride more smoothly; eliminates squeaks and saves many dollars in repair bills. But ordinary grease cups are dirty, hard to work and take long to adjust. The Rex Greasing System consists of a grease gun that will exert 2,000 pounds pressure (with one hand) without leaking, and a complete set of fittings to take the place of the old grease and oil cups. Gun holds enough grease to take care of several bearings—and does the job quickly. It forces the old grease and grit out so you have new, fresh grease that makes the bearings work freely and quietly. Non-leaking swivel joint with threaded coupling to connect the Rex fittings enables you to reach all bearings easily. Outfits are complete with gun and all fittings for cars shown. When ordering give the catalogue number and state make and model of your car. Average shipping weights, from 4 to 6 $\frac{1}{2}$ pounds.

Neat Striped Seat Covers for Fords

A great many Ford owners prefer this dark striped pattern instead of the light colored materials. These covers are made of a durable fabric seat cover material that will give long service and always present an attractive appearance. The seams are strongly sewed and the armrests are reinforced with heavy patent finish duck. You can remove the covers to clean them so they can always be kept neat, giving complete protection to the daintiest dress or suits. Covers are included for all the doors. The touring car set has pockets in three door covers. The roadster has a pocket in the right door cover. Both the sedan and coupe door covers have pockets. These door pockets are especially handy for carrying extra plugs, wrenches and pliers. Shipping weights: Roadster and coupe, 4 pounds; sedan and touring, 8 pounds.

Stick-Tite Windows for Fords

Stick them on like an inner tube patch and they stay indefinitely. The Stick-Tite Windows enable anyone to replace his own back curtain window in a few minutes. There are no stitches or fasteners used in any part of these windows. Attractive in appearance. They have celluloid lights bound with auto rubber cloth to fit Ford cars. Large size for 1916 and all earlier models having oval top single opening. Complete, ready to attach, with full instructions. Shipping weight, each, 3 to 6 ounces.

61 C 2703—Large size, 19 by 11 inches.	75c
61 C 2719—Small size, fits 1917 to 1922 models having three small lights in rear.	39c

Hot Spark Intensifiers

Makes Old Plugs Fire Like New

They often save their cost several times over in helping to locate ignition troubles. Just raise the hood and watch the sparks in the glass cylinders. Hundreds of tests have proven that this wonderful little device with its adjustable gap actually makes spark plugs which are missing and would not fire at the points on account of soot, carbon or similar troubles, fire every time just like they did when new.

They strengthen the spark so it burns right through carbon. Hot Spark Intensifiers will save you spark plug money. Plug not included. Shipping weight, each, 2 ounces.

61 C 2116—Each.....\$.28
61 C 2117—Set of 4.....\$ 1.10

Extra Porcelains to Fit Champion X and Horseshoe Spark Plug Shells

Save spark plug money by replacing cracked porcelains with these highly efficient Porcelains. They fit Champion X and Horseshoe shells perfectly. Complete with gaskets and electrode. Carefully packed. It pays to carry extra porcelains as they often save you buying a whole new plug. Shipping weights, 4, 6 and 12 ounces.

Heaters for Ford Cars

Exhaust Heater

Designed to attach easily to Ford exhaust. No upkeep cost. Nothing to get out of order. No odor—no noise—no back pressure. Keeps you warm in the coldest weather. Regulator fits in floor board and may be closed on warm days. An excellent Heater for all Ford owners. Shipping weight, 4 1/2 pounds.

61 C 3650.....\$2.35

Sure-Warm Heater for Fords

A practical way of using the heat from your exhaust pipe to keep you comfortable on the coldest days. The Sure-Warm Heater is a simple, compact heating arrangement consisting of a metal casing that carries fresh air over the exhaust pipe where it is quickly heated and then forced through a register which fits in the floor board. You always have a good circulation of heated air with no noise—no odor—no gases. You simply place the heater over the exhaust pipe and tighten the manifold clamps over two metal strips, then place register in floor board. Shipping weight, 4 pounds.

61 C 2320.....98¢

Comfort Heater for Fords

An entirely new model of heater that will furnish sufficient heat to keep you very comfortable in the coldest weather. Made of metal and designed so it fits over the exhaust pipe and beneath the floor board of all models. It carries the heat to the pedal openings so it is not necessary to cut or alter the boards. Exhaust pipe fits in opening in the heater so you do not have to cut the pipe or drill holes. Screwdriver only tool needed. A regulator varies the temperature. No gases, odor or noise from the exhaust. Shipping weight, 4 1/2 pounds.

61 C 3589.....\$1.95

Hot Spot Generator

Manifold Heater

On cold mornings you may use this Hot Spot Generator and start the motor quicker at 10 below zero than you would in summer without the generator.

May be used nearly a hundred times for one cent. Attached in a couple of minutes. Heats the intake manifold so the engine starts almost instantly and will keep running without sputtering and jumping. Will last for years. Shipping weight of outfit, 6 ounces.

61 C 2942—Complete outfit.....65¢

Jiffy Intake Manifold Heater

The Jiffy Intake Heater covers the Ford Intake and exhaust manifolds, making a stove around them so the hot exhaust manifold heats the intake manifold. The Jiffy will pay for itself in gasoline saved within a few days, and you immediately will notice the improvement in the running of your motor. The Jiffy can be put on in less than five minutes. Shipping weight, 2 pounds.

61 C 2382.....55¢

Steady Action Foot Accelerator for Fords

Leaves both hands free for steering. Does not interfere in any way with the action of your regular throttle lever. The easy, steady, dependable action of this accelerator is due to its special design and construction. Instructions included. Shipping weight, 1 pound.

61 C 2529.....\$1.20

Spark Plug Wrench

Malleable iron, finished with baked black enamel. Fits all spark plugs listed on this page. Shipping weight, 12 ounces.

Carburetors and Ignition Supplies for Fords

Spark Plugs for Fords

Champion X Spark Plug

This plug is the same as Champion X's that were in your Ford when it came from the factory. Champion X plugs have been used as standard equipment on Ford cars for years. The electrode is a special design and particularly adapted to the requirements of the Ford motor. It also will give equally good satisfaction in other motors using a 1/2-inch standard pipe thread plug. Shipping weight, each, 5 ounces.

61 C 2114—Complete plug; 1/2-inch size. Each.....43¢
61 C 2115—Porcelain only; 1/2-inch size. Each.....27¢

Genuine Thomas Timer Elevator for Fords

A big improvement for Fords, completely eliminating trouble so often caused by wires becoming soaked with oil or having the insulation rubbed off by the fan belt. It places the timer in a clean, accessible position away from oil, mud and water so you will never have trouble from these sources. Thousands of these elevators have given great satisfaction. All gears are specially hardened and the working parts are very carefully made. Fits all timers made for Fords. Shipping weight, complete, 4 1/2 pounds.

61 C 2386—Complete, without timer.....\$3.85

Coil Protector for Fords

Prevents the water from seeping in between cowl and dash. Protects the coils from becoming short-circuited through water running down on the terminals or soaking back of the coil box. Made of thin sheet steel. Easy to install. Fits all 1917-18-19-20-21-22 models. Shipping weight, 6 ounces.

61 C 2582.....48¢

Coil Protector Rain Shield

This Shield positively prevents delays and troubles caused by water leaking down to the coils or wiring. Also stops water going through hinged part of the hood, which often causes cracked porcelain. Made of durable rubberized duck material and will last for years. Top part fits snugly at windshield with snap and is easily removed. Front fastens over radiator cap. Two straps hold sides from flapping. Shipping weight, 10 ounces.

Genuine Herz Hammerblow Timer

A great improvement in timer construction that gives Ford owners a reliable, positive timing system which will quickly repay the additional cost above common kind in time saved and extra service from the car. The Herz has no roller, no brush, no fiber and no raceway—parts which always have been trouble makers with ordinary timers. A simple, hardened steel cam replaces the old style roller or brush and always gives a sure acting press contact. The terminal housing has two little plunger buttons which are released with a snap of the cam passes. This causes a lightning quick break, which action, absolutely cannot fail to produce a strong spark. This jerks a hot, fat spark out of the coils at all speeds. It is built to give years of accurate, faithful service. Shipping weight, 1 1/2 pounds.

61 C 2592.....\$4.50

Positive Contact Timer for Fords

The contact is made on the sides of a double roller which gives a much greater surface so the roller will not wear like the ordinary kinds. A spring enclosed between the two rollers keeps them expanded against the contact points. Its action is as positive and accurate as the knife type electric switch. The case is made of aluminum alloy which will not rust. Fits all Ford models. Shipping weight, 12 ounces.

61 C 2381.....\$1.45

Thermo Carburetor

An entirely new style Carburetor guaranteed to show a greatly increased mileage from each gallon of gasoline when compared with the results you get from your regular carburetor. It has a patented primer which pours gasoline into the atomizing chamber before the engine is turned over, which makes starting much easier and quicker. It is designed to run on a finer mixture, but in case more gas is needed for hard pulls it can be had instantly by operating the dash control furnished. Many of the complicated, troublesome parts, such as the needle valve and gasoline adjustment, have been eliminated from the Thermo. A double spray of air breaks up the gasoline more effectively so it is in thoroughly combustible condition when drawn into the cylinders. Fits all Ford. Shipping weight, 2 3/4 pounds.

61 C 2180.....\$7.75

New Kingston Model L4K Economy Carburetor with Strainer

This is the new model which is being used as regular equipment by the Ford Motor Company on its cars. The L 4 K is a remarkable improvement over the old style Kingstons as it produces more power under all kinds of road and weather conditions. Many tests have shown mileage of 26 to 30.6 miles per gallon on touring cars, coupes and roadsters, and from 21 to 25.4 miles to the gallon from sedans. It has an improved spray nozzle entirely different from the one formerly used. The saving in gasoline will quickly repay you for the amount invested. Shipping weight, 3 pounds.

61 C 2153.....\$4.85

Anco Hot-Spot Manifold

This Hot-Spot Manifold will save enough gasoline to pay for itself in a short time. Heats the intake manifold making your car or truck run more smoothly. It breaks up the gasoline so the pistons do not draw in raw gas to choke the engine, foul the spark plugs or carbonize the valves. You will notice a great improvement in your motor almost instantly when you put on this Hot-Spot. Made in one piece and will fit perfectly on all Ford cars. Put on with ordinary monkey wrench. Shipping weight, 12 1/2 pounds.

61 C 2178.....\$3.85

Hot-Spot Manifold with "Quick Start" Heater

A brand new, thoroughly tested gasoline-saving Manifold that completely and evenly heats the gas for all cylinders, so the engine runs more smoothly and with greater economy. Actual tests on many Fords show savings of over 30% on gasoline. Besides saving gasoline this device serves as a "Quick Start" manifold heater for cold weather. By using the heater on cold mornings, you can start the motor as quickly at 10 degrees below zero as you can in summer. This saves the battery and starter. Aluminum construction. Replaces regular intake manifold. Shipping weight, 4 1/2 pounds.

61 C 2694.....\$6.75

Carburetor Adjuster

Every Ford that has a cowl or instrument board needs the extension. It places the control of your carburetor within easy reach. It will improve the running of your car, as the ease of control means that you will watch this vital part more closely. Dial on dash shows position of needle valve. You can install it yourself in a few minutes, as all necessary parts are furnished. Fits all models, closed and open. Shipping weight, 10 ounces.

61 C 2176.....60¢

Piston Ring Compressors for Fords

Help Your Ford Motor Keep Cool

Great Radiator Bargain!

By purchasing thousands of these sturdy, fully guaranteed Radiators we are able to save our customers several dollars on each one. We are certain you will agree that you have not seen such a strongly built radiator for anywhere near this remarkably low price. The cores are built of brass strongly reinforced and so designed that we guarantee they will withstand freezing without breaking.

\$12.75

The tanks are one-piece, seamless brass which gives extra long service. You will notice a big difference on hot days, as the zig-zag construction of the cores gives a much greater cooling surface for the water than is possible with ordinary straight tubes. Spring cradle supports protect the core from severe shocks and take up the strain when the frame twists so that the core is not liable to damage. Water connections of malleable iron. Every radiator is thoroughly tested. The finish of the detachable steel shell is a brilliant black enamel, baked on. Shipping weight, 45 pounds.

- 161 C 1940—For 1917-18-19-20-21 and 22 Fords \$12.75
- 161 C 1941—For 1916 and older Fords. Original shape \$12.75

Sure Cool Water Circulator \$2.35

New design solid brass circulator which greatly increases water circulation. Fords that would overheat within 4 or 5 miles have been run with this device for 100 miles without a sign of overheating even on the hottest days. Overheating ruins engines—stop it with this circulator. Easily attached. Complete with belt. Shipping weight, 2¼ pounds.

- 61 C 2678—For 1917-1922 Fords inclusive... \$2.35

Improved Water Circulating Pump \$7.25

This improved model will keep your Ford cool on the hottest summer days and during the winter the forced circulation will help prevent freezing. Pump is rotary type and forces water through circulating system at a rapid rate. It is exceptionally well constructed with bronze bearings and all working parts very carefully fitted. You can install this pump in a short time—instructions are included. Complete belt and all necessary parts furnished. Shipping weight, 10 pounds.

- 61 C 2356—For 1916 and older models... \$7.25
- 61 C 2357—For 1917-20 models... 7.25
- 61 C 2358—For 1921-22 models... 7.25

Banker Windshield Hinge

Fits all 1915-21 Ford cars. Converts your regular Ford Windshield into the ventilating type. You can quickly attach it yourself. Adjustment of top shield throws current of air down around the floor boards, carrying away heat from the exhaust, assuring coolness even on the hottest days. Also allows better adjustment for driving in rain. Shipping weight, per pair, 3½ pounds.

- 61 C 2625—Per pair... \$1.18

Liberty Lock \$1.25 For Fords

When locked the steering wheel is held rigidly without having any control over the front wheels, so a thief cannot steer the car. No drilling necessary. Simply replaces gear housing under the steering wheel. Shipping weight, 1½ pounds.

- 61 C 3442... \$1.25

Never-Out Gasoline Tank For Fords

Holds an extra gallon of gasoline. Made of very heavy galvanized steel. Specially designed to fit in the space at either end of the regular Ford gasoline tank on touring cars, roadster and trucks, and has a steel spring on top which is depressed by the seat bar so it prevents rattling or jolting around. Shipping weight, 2¼ pounds.

- 61 C 2390... 70¢

Robe Rail

Will hold one large robe or several dusters. Neat looking, black enameled. Width, 3¼ inches; length, 28 inches. Shipping weight, 2 pounds.

Armstrong Loc-Kap \$2.75

A beautifully designed ornamental wing style radiator Locking Cap for use with all sizes of motometers. Consists of double cap arrangement that requires no drilling to attach. When locked the cap cannot be removed or "picked" so your motometer is safe. Elegant nickel finish. Total width, 8 inches. Fits all Fords. Steam, water and air tight. Will not rust. Shipping weight, 2¼ pounds.

- 61 C 3602... \$2.75

Latest Style T-Handle Radiator Cap

You will like this Cap because it looks much better than the ordinary Ford cap and is a great deal easier to remove or put on. You will not burn or injure your fingers because the wide handles are cool and once the cap is started, you can spin it off or on. Our low price is possible because we buy a great quantity of them. It has a handsome nickel plated finish. Total width, 5½ inches. Shipping weight, 10 ounces.

- 61 C 3597... 29¢

Oversize Steering Wheel \$2.45 Aluminum Spider Genuine Walnut Rim

Diameter, 17 inches. Makes steering and driving easier and safer. Greater leverage and better grip makes this a big improvement over the small regular wheel. We have never known a Ford driver to change back to the small wheel after using this 17-inch size. Fits all Fords. Genuine walnut rim with heavy aluminum spider. Shipping weight, 3½ pounds.

- 61 C 2073... \$2.45

Warner Wheel Tilt For Fords

Make your regular Ford steering wheel into a tilting wheel by using this simple, inexpensive Tilting Device. Wheel lifts so it is easy to get in and out. Wheel is rigid when in driving position. Light pull on catch releases for tilting. Women like it. Can be put on in a few minutes. Needed on all Fords—open or closed models. Shipping weight, 1½ pounds.

- 61 C 2448... \$1.25

Draft Preventer

Closes space between windshield and top of car. Keeps out rain and snow. Made of heavy rubber coated auto cloth. Complete with fastenings for all Ford open cars. Shipping weight, 6 ounces.

- 61 C 2613... 29¢

Strong Built Radiator For Fords

Has a patented flexible bronze core and will stand freezing without breaking. Will withstand the toughest road usage without weakening. Patented shock absorbing brackets positively prevent damage when the frame twists or spreads. The use of bronze in the core makes it proof against the effects of lime and alkali waters. The large round holes allow a greater volume of air to pass through the radiator, which is also a great aid in keeping the water cooler. Every radiator is thoroughly tested. The finish is black enamel baked on, with a gray core. Shipping weight, 50 pounds.

- 161 C 2998—For 1917-18-19-20-21-22 Fords \$14.95
- 161 C 2999—For 1916 and older models... 14.95
- 161 C 2997—Same as 161 C 2998, with nickel-plated shell... 16.45

Hood for Fords

If your old hood is damaged, rusty or worn out, replace it with this new "Beauty" type which fits all 1917 to 1922 Fords. Many Ford owners use it to dress up the car. Additional side openings make it better looking. Fits perfectly. Lustrous black, enamel finish, baked on. Shipping weight, 18 pounds.

- 461 C 2354... \$3.95

Hood and Radiator Shell

Will give 1915 and 1916 model Ford cars lines similar to very latest models. Consists of a complete radiator shell or cover and a hood cover of new design. Fits lower portion of present Ford fasteners. Easy to attach. Hood is heavy sheet steel. The shell and hood are handsomely finished with two coats of black enamel. Full directions included. Not made for 1917 or newer models. Shipping weight, 36 pounds.

- 161 C 2353—For 1915-16 models... \$8.70

Running Board Tool Box \$1.65

This Box has large carrying capacity, yet it is so neat and shapely that it really improves the appearance of your car. The box is constructed of steel, black enameled. It is fitted with two trunk catches and a lock. Size, 22 by 9 by 7 inches. Shipping weight, 9 pounds.

- 461 C 2276—Box only... \$1.65

Battery Box for Fords

This Battery Box completely covers the battery, keeping it clean and dry. A battery kept in this condition will last longer. It is quite simple to fit around the hanger, as the openings are properly cut to accommodate all wiring. The box is strongly made of heavy gauge metal, black enameled. Shipping weight, 6 pounds.

- 461 C 2437—Box... \$1.05

Motometer and Cap for Fords

The Motometer indicates the heat of the water, acting like a thermometer. The driver can see from his seat the slightest change in the motor's condition before damage occurs. Handsomely constructed of brass, enameled finish. Furnished complete with black radiator cap. Height above radiator cap, 2½ inches; width, 2½ inches. Shipping weight, 14 ounces.

- 61 C 3625... \$2.85

Ball Thrust Bearings for Ford and Chevrolet 490

Keep the gears together. Ordinary plain washers such as used in Ford and Chevrolet 490 rear axles wear thin and allow gears to separate, which causes considerable trouble such as grinding, jerking and breaking of differential gear teeth. The Ball Thrust Bearing shown above has a number of small hardened balls which rotate so there is scarcely any wear even after several thousand miles of use. Will fit perfectly in either the Ford or Chevrolet 490, taking the place of the usual plain washers. Shipping weight, complete 1 pound.

- 61 C 2477—Complete... \$1.45

Guaranteed Ball Bearing Set

For Ford and Chevrolet 490. Front wheels. Complete with specially made cups and cones and highest grade balls. The construction of the cones is such that the bearings cannot separate. Balls do not work out and break. Even if the cones and bearings part, due to loose adjustments, the bearings are held by the cups so they will not break or chip as they generally do with the balls separated. Shipping weight, per set, 1 pound.

- 61 C 2238—Complete set for both front wheels... \$2.25

Roller Bearings for Ford and Chevrolet 490

Remove balls and retainers now used and replace with this set. Set includes bearings and retaining sleeves for both front wheels. Shipping weight, per set, 3 pounds.

- 61 C 2269—Set... \$4.20

No-Draft Brake Mats

Heavily padded Mats that fit closely around emergency brake and foot pedals of all Ford open or closed cars. They close the present wide openings, keeping out the cold drafts in winter and the heat in summer. Shipping weight of outfit, 9 ounces.

- 61 C 2606—Complete outfit... 30¢

Safety Devices for Fords

Universal Radius Rod Support—Fits All Fords

Here is a real Radius Rod Support made of heavy gauge angle iron. Will not break or bend. Every detail thoroughly worked out. Will fit all model Fords. Strengthens and braces front preventing vibration of the front axle. Makes steering easier. Helps prevent bending of radius rods, which often causes serious necking. Study the illustration above—it shows exactly how it is attached. Do not confuse this with ordinary auxiliary radius rod supports—it is entirely different. Shipping weight, 6 pounds. **61 C 4078—89¢**

Start Your Ford From the Seat with a Sandbo Starter

Turns the motor over two compressions on one pull. Two cylinders fire the charge instead of one, as usually occurs when cranking in front. A primer rod is included so you prime from the seat. There is no danger of injury from backfire, so you can set your spark lever down further, which generally makes Fords start quicker. The Sandbo is exceedingly simple and can be installed by the average owner without the aid of a mechanic. The motor is not disturbed—just take off the old crank and slip on the Sandbo. Outfit furnished complete. Shipping weight, complete, 9½ pounds. **61 C 2293—\$9.70**

Dunn Crankshaft Counterbalance

A great aid in preventing spring in the crankshaft and reduces wear on the bearings and other parts. Can also be used to advantage on racing cars or Ford trucks increasing effective power and making the motors operate more smoothly. The motors operate more smoothly at either high or low speeds, as counterbalances carry pistons over the gap between the explosions and smooth the power impulses. Fits on easily and cannot come off. Shipping weight, per set, 12 pounds. **61 C 5006—Complete set of 4—\$6.95**

Driveshaft Tube Support

An exceptionally strong malleable iron clamp which fits over the end of the driveshaft tube and around the driveshaft roller bearing housing. It holds these parts in perfect alignment even though given the roughest usage, preventing breakage. It may also be used to repair broken tubes which would otherwise need to be replaced. Complete with bolts ready to apply. Applied in a few minutes with only a small wrench. Ship. weight, 4 lbs. **61 C 2387—\$1.95**

Sturdy Power Attachments For Fords

A simple, convenient Power Attachment which can be slipped under the rear wheel of your Ford in less than two minutes and will deliver power for grinding feed pumping water, sawing wood, running a hay press or grindstone or any machine that can be operated by an 8 horsepower gas engine. Made entirely of iron and steel. The wear on the tires is less than one-fifth what the wear would be on the road. It makes no difference where you need the power, you always have it handy. Just put this attachment on your running board and take it out in the field, up to the house or to your pump. Over 30,000 of these machines are earning money for Ford owners. Shipped complete, ready for work. Center pulley is 10 inches in diameter and 6 inches wide. Saw, saw frame, belt, etc. not included. Shipped from Factory in Central Indiana. Ship. wt. 17½ lbs. **261 C 5441—Complete outfit—\$19.25**

Stewart Speedometer Model 160-A

Every Ford needs a Speedometer, as it is the only way to determine speed and check up the mileage from tires and gasoline. Speedometer has a special flange for all Fords that have instrument or cowl board. Shipped complete with all regular Stewart equipment, including flexible shaft and swivel joint. Has a rotating speed dial (60-mile capacity)—10,000-mile season register and a 100-mile trip register. Black enamel finish. Diameter, 3¾ inches; depth, 2½ inches. Shipping weight, 11 pounds. **61 C 2197—\$12.95**

Speedometer Clutches and Shaft

Interchangeable with all Stewarts. Ship. wt., 2 oz. **61 C 2223—Upper end clutch of chains—3¢**
61 C 2224—Sliding bar and lower end clutch of chains—15¢
61 C 2225—Links for chains. Per foot—8¢

40¢ Radius Rod Support

Will aid in preventing breakage or bending of the radius rods by bracing from lower part of axle. This rod reduces wear on ball and socket at rear of radius rod. Easily and quickly put on. Does not interfere with shock absorbers. Made of angle iron enameled black. Does not fit 1920-21-22 models. Shipping weight, complete, 4½ pounds. **461 C 2517—Complete—40¢**

Rigid Rear Axle Truss

Braces the Ford rear axle so as to prevent sagging. Keeps the differential gears in perfect alignment which lessens wear on the gears and often helps to eliminate that grinding noise. This saves repair bills. Consists of rod and two black enameled clamps which fasten to rear axle near hubs. Fits all Ford models with standard 56-inch tread. Shipping weight, 3 pounds. **461 C 2518—50¢**

Sturdy Running Board and Fender Brace

Ford running boards become loose and wobbly; but this can be remedied by using this Brace. It holds up the steps, braces the fenders and stops the rattling. You'll notice a big difference as soon as you step on the running boards—they feel solid. Brace consists of angle steel crosspiece with hooks and two short pieces of board to put beneath metal step. Has adjustable clamps. Shipping weight, 13 pounds. **161 C 2347—\$1.05**

Steering Column Brace

Strengthens and makes steering column rigid. Steering wheel is often used as handle in getting in and out of car. This frequently bends and sometimes breaks steering column. Finished in black enamel and furnished with bolts. For all model Fords. Shipping weight, 14 ounces. **61 C 2326—77¢**

54¢ Crank Arm Support

If the crankarm breaks, use this inexpensive support instead of laying up your car and spending many dollars. Attached in fifteen minutes. Boiler plate steel. Shipping weight, 2½ pounds. **61 C 2548—54¢**

Spindle Arm Adjustment Bolts and Anti-Rattlers

Prevents rattling and loosening of spindle arm, which generally loosens quickly. Easily attached. Takes up wear. Shipping weight, per pair, ½ pound. **61 C 2507—Per pair—62¢**

Economy Power Pulley for Fords

The most simple and economical power transfer we have seen for Fords. Consists of an iron pulley 10 inches in diameter, which slips over the hub of either rear wheel and is held in place by a self-centering hub cap. Just remove the regular Ford hub cap and screw on the special hub cap furnished, jack up the wheel and your Ford is ready for work. Operates any machinery that could be run with an 8 horsepower gasoline engine. This outfit will pay back its cost in a few hours' time. There is nothing to wear out, so it will give many years of service. It takes up very little space, so may be carried in the car. Pulley is 5 inches wide. Belt not included. Ship. wt., complete, 24 pounds. **461 C 2317—Outfit, complete—\$4.98**

Finest Speedometer Swivel Joints

An improved Swivel Joint made of the best materials. All gears are carefully fitted insuring great durability and wearing qualities. The swivel can be adjusted for wear or taken apart for replacing worn gears or minor parts. Fits all Stewart speedometers perfectly. Right hand drive means for right wheel as you look at it from driver's seat. Shipping weight, 1¼ pounds. **61 C 2544—Right—\$2.30**
61 C 2545—Left—2.30
The swivel joints listed below are made of excellent materials and are the nonadjustable type. **61 C 2542—Right—\$1.58**
61 C 2543—Left—1.58

Complete Speedometer Shaft

Complete with end fittings to fit Stewart and other speedometers. The flexible tube is made of high grade rolled steel, exceptionally strong. Ship. wt. 4 lbs. **61 C 2208—For Stewart, 50-inch—\$2.25**
61 C 2209—For Stewart, 54-inch—2.25
61 C 2210—For Stewart, 60-inch—2.25
61 C 2211—For Stewart, 66-inch—2.25
61 C 2212—For Stewart, 72-inch—2.25
61 C 2213—For Standard and Sears Cross, also Jones 1915 Ford equipment, 54-inch—\$2.25
61 C 2214—For Standard and Sears Cross, all models, 60-inch—2.25
61 C 2215—For Standard and Sears Cross, all models, 66-inch—2.25

Safety Pilot Makes Fords Steer Easier

Thousands of Ford owners have found this Safety Pilot steering device a wonderful driving aid. It holds the front wheels in a straight line. Saves tires by keeping them running straight. Tension on the steering connections eliminates constant wobbling of the wheels when traveling over rough roads. Takes strain off the driver's arms. Even though you take your hands off the steering wheel the car will continue to travel straight. In case you hit a bump the Safety Pilot automatically straightens wheels. Made of malleable iron with a high grade spring so it will give long service. Shipping weight, complete, 5 pounds. **61 C 2287—Complete—\$1.95**

Easily Attached to Front Axle and Steering Cross Rod \$1.95

Columbia Irreversible Steering Gear for Fords

The Columbia Steering Gear eliminates that continuous jerking and vibrating of the Ford steering wheel which causes tiredness and a strain on the arms. Rough roads will not bother you as the road shocks are held back by the gear. The steering wheel becomes firm, steady and safe. This is a genuine irreversible safety gear for replacing the Ford steering gear at the bottom of the steering column. It is entirely different from the ordinary attachments which connect to the axle. No machine work necessary to install the Columbia—it can be put on by the average owner in a short time. Instructions included. Shipping weight, 9 pounds. **61 C 2361—\$10.95**

Non-Kick Device for Fords

Prevents injury from Backfire. Every time you crank your Ford you take a chance of being injured by backfire unless it is equipped with a good, efficient non-kick device. When the motor backfires or kicks this Non-Kick Device automatically disengages the crank handle. Does not interfere with cranking of car. Made of heavy steel. Slips right over crank handle. It is not necessary to remove the crank to attach device. Shipping weight, complete, 2 pounds. **61 C 2294—Complete—\$1.49**

Dunn Motor Support

The strongest and best Motor Support we ever have seen for Fords. A great help in making your car run smoother, as it holds the motor absolutely rigid. You will get greater service from your car with considerably less repair cost, as it is practically impossible for the motor to become loose or work out of alignment in the frame as often occurs without this support. Attached to the frame of the car by two extra strong U-bolts, and to the motor by bolts through the frames on the fly-wheel housing. Shipping weight, 15 pounds. **61 C 2385—\$5.50**

Motor Support for Fords

Prevents broken crankcase arm which always is expensive and means delay. Also braces motor so vibration is minimized, making motor run smoother. Hard roads and bumps will not break arms with this support. Not necessary to remove motor. Easily put on. Shipping weight, 4 pounds. **461 C 2348—99¢**

Rear Fender Braces for Fords

They will make your fenders strong, noiseless and much better looking, as they are held up in place instead of drooping over, which sometimes cuts the tire. These braces are made of stamped steel and designed to give maximum strength. They are bolted to the fender and screwed under the corner of the body with heavy screws. Bolts and screws included. Shipping weight, per pair, 6 pounds. **61 C 2307—Per pair—45¢**

Fender Anti-Rattler

Old fenders, if not too badly torn, may remain in service for a long time with the aid of these little braces. They stop rattling, holding fenders firmly to the running board guard. Fit front or rear fenders. Screws and nuts included for attaching. Shipping weight, per set, 8 ounces. **61 C 2391—Set of 4—15¢**

Ford Owners! Don't Miss Page 574

We sell thousands of batteries every month direct to Ford owners. Accept our 30-Day Trial Offer before buying a battery elsewhere. Our guarantee gives you absolute protection on quality.

Little Sho-Fur Steering Device \$1.35 For Fords

It holds the car in a straight line on the road at all speeds. When the front wheels strike an obstruction and are deflected, the Little Sho-Fur pulls them back in a straight line. It acts like a flash. Just consider the low price compared with what it may mean to you at some future time. Made of high grade spring stock with malleable iron fittings enameled black. Shipping weight, 2½ pounds. **61 C 2292—\$1.35**

Steering Rod Silencers

A device which clamps around the steering joints and tie rod. They are a big help in steering the car, for they prevent slack in the steering knuckle connections. Made of high quality spring steel. Shipping weight, per pair, 8 ounces. **61 C 2499—Per pair—25¢**

Brake Rod Anti-Rattlers

Wear causes brake rod connections to become loose and wobbly. This causes rattling that is hard to locate. These Anti-Rattlers hold both front and rear connections of the brake rods firmly and reduce the wear, besides doing away with the annoying rattle. Shipping weight, per set, 4 ounces. **61 C 2500—Set of 4—25¢**

Radius Rod Anti-Rattler Ball Socket

The ball joint into which the rear end of the radius rod fits wears down after a Ford has been used for some time. This causes the radius rod to rattle in a very annoying manner. This device automatically takes up wear by having a patented spring which does away with the frequent adjustments necessary with regular style sockets. To install, you simply take off old socket and put this in its place—the work of but a few minutes. Shipping weight, 8 ounces. **61 C 2503—26¢**

Steering Gear Anti-Rattle Ball Socket

For use on steering gear connecting rods, where it takes the place of steel cap. Spring behind pivot takes up the wear and eliminates all rattling. When once attached no further adjustment needed. Fully dependable. Shipping weight, per pair, 4 ounces. **61 C 2502—Per pair—26¢**

Brake Rod Supports

Replaces the present pressed steel support on Fords. Hardened steel bar is held in tension against brake rod. Bar moves and does not wear rod. Attached without removing rod. Shipping weight, per set, 1 pound. **61 C 2504—Set of 2—35¢**

For
Fords

\$5.25
Set of 4

from coming loose. Improved drop forged steel drums. We want you to prove every word we've said by purchasing a set and using them on your car for two months—60 full days. If you are not fully satisfied, send them back and we will return your money and all transportation charges. You may put on these absorbers yourself as there are no holes of any kind to drill. Shipping weight, per set, 18 pounds.

461 C 2419—For touring cars. Set of 4. \$5.25
461 C 2420—For roadsters. Set of 4. \$5.25
461 C 2421—For Ford coupes and sedans. Set of 4. \$5.25

Improved Steelbilt Shock Absorbers

You will never know the full amount of pleasure you can get from your Ford until you put on shock absorbers. These Improved Steelbilt Shock Absorbers are stronger, smoother riding, and far better in every way than any of this type we ever sold before. New patented features allow the easy acting coil springs to open further and more freely than any others ever do; so you may ride over the roughest roads without being jolted about. Your Ford will hold the road better and steer easier; the tires will last longer and repair bills will be less—for the soft, easy, smooth action of these eight-coil springs prevents even the little bumps from jolting the car and passengers. Special fastenings prevent the springs from perching prevent springs hitting the brake drums. We want you to prove every word we've said by purchasing a set and using them on your car for two months—60 full days. If you are not fully satisfied, send them back and we will return your money and all transportation charges. You may put on these absorbers yourself as there are no holes of any kind to drill. Shipping weight, per set, 18 pounds.

Stronghold Rear Brakes

A dependable Brake direct on the rear wheels of your Ford like those used on the highest priced cars. Practically eliminates transmission and rear axle troubles caused by the strain of jumping and jerking. No grinding, chattering or jerking when you stop with Stronghold Brakes. Operated by foot pedal. No more adjusting transmission brake bands—no rods to rattle. Connected with 3/8-inch steel cable. Can be installed in about an hour; Special steel cable equalizes braking force to each wheel. Do not interfere with shock absorbers. Shipping weight of outfit, 12 pounds.

61 C 1927—Complete outfit. \$11.90

Improvements for Fords

Smooth Action Rebound Absorbers for Fords

Practically eliminate the bouncing of the body so common with Fords. This will have a remarkable effect on the increase in mileage from your tires and will help prevent spring breakage. Bumps which usually throw the passengers from the seat can be driven over at a fair rate of speed, with practically no jar. May be adjusted to suit the load of your car and are easily attached without drilling or machine work. All attachments are included so you may put them on yourself. Fit all Ford cars. Shipping weights: Set of four, 16 pounds; rear pair only, 8 pounds.

461 C 2496—Complete set of 4. \$11.50
461 C 2315—Rear pair only. 6.25

Non-Chatter Transmission Compound

Mix with oil and pour on the transmission band drums. Works into the bands and stops the chatter, jumping and jerking. It is a non-conductor of electricity. Will not clog the oil pipe. Shipping weight, 2 ounces.

Dayton Wire Wheels

These Dayton Wheels are of exactly the same strong construction and have the same type hubs and locking device as the wire wheels used on the highest priced cars. They are easier riding and will prove a big help in getting greater mileage from tires. You will agree that they make a wonderful improvement in the appearance of your Ford.

To take off a Dayton wheel and put on the spare takes only 3 or 4 minutes and you don't get dirty. The Dayton outfit is complete—consisting of 5 wire wheels, size 30x3 1/2 with clincher rims; 4 inner hubs with caps; a special spare wheel carrier for the rear, and a hub cap wrench. The wheels have a beautiful enamel finish. Instructions included. Tire not included. Shipping weight, 130 pounds.

161 C 2131—5 wheels and carrier. White finish. \$49.75
161 C 2132—5 wheels and carrier. Cream color finish. \$49.75

The very latest type, most serviceable, finest looking tempered steel Double Spring Bumpers for all Fords. Special bracket fastens securely without drilling. Shipping weight, 50 pounds.

Duplex Spring Bumper for Fords

161 C 1946—Front bumper, black finish. \$9.75
161 C 1949—Front bumper, nickel finish \$11.25
161 C 1942—Rear bumper, black finish. \$9.75
161 C 1997—Rear bumper, nickel finish. \$11.25

95¢ Strapless Running Board Tire Holder

It is reliable, convenient, lasting. Has no unsightly straps, chains or cables to break or wear out. No loose parts to rattle or get lost. To remove tire simply unlock the padlock, lift up on the tire and it is free. Easily slipped back into place. Whole operation can be done in less time than it takes to fasten straps. Made of steel throughout. No drilling of body to attach. For tires on or off demountable rims. Padlock not furnished. Ship. weights—61 C 1925, 4 pounds; 61 C 1926, 5 pounds.
61 C 1925—For one tire. Each. \$.95
61 C 1926—For two tires. Each. \$ 1.45

These Wheels will enable Ford owners who now have 30x3 wheels in front to fit their cars with 30x3 1/2 tires all around. Will fit your present front or rear hubs. Regular clincher rim (not demountable). Well seasoned hickory, black finish. Shipping weight, each, 19 pounds.
161 C 2270—Each. \$3.49

Wheel and Demountable Wheel Outfit for Fords

These Wheels are made of well seasoned hickory, primed and painted. To make a tire change on the road it is only necessary to slip off the rim and put on the spare. Outfit consists of five 30x3 1/2 demountable clincher rims, four wood wheels, rim wrench and bolts for attaching to your hubs. Furnished in either black or natural wood finish. Shipping weight of outfit, 135 pounds.
261 C 1974—Black finish. Complete outfit. \$19.50
261 C 1975—Natural finish. Complete outfit. \$19.50
Shipped Direct from Factory in Central Michigan

Demountable Wheel Outfit
With these parts Ford owners who do not have demountable rims may convert the four wheels now on the car into quick demountables. It is not necessary to change present tire equipment. No machine work required. To change wheels simply remove the bolts and slip the wheel off over the hub. The outfit consists of flanges for five wheels, 24 bolts and nuts, and lock washers. Any regular Ford wheel can be used as a spare. Shipping weight of outfit, 9 pounds.
61 C 2249—Outfit complete. \$5.50

Handy Wheel Puller
Easy to disengage wheels that stick tightly with this puller. Made of malleable iron accurately threaded. Shipping weight, each, 1 1/2 pounds.
61 C 2462—Each. \$4.50

Mosco Wheel Puller
Raps on plunger easily loosen the wheel without injury to the threads or puller. A big improvement over ordinary pullers. Ship. wt. each, 1 1/4 pounds.
61 C 2461—Each \$1.19

Mechanics' Special Assortment
An outfit that will often pay back its price in time saved when making repairs, as it consists of cap screws, nuts, bolts, set screws, rivets, cotter pins and lock washers, in the sizes most used on autos, trucks, tractors and machinery about the farm or shop. Carry an outfit in your car and keep another at home. Shipping weight of outfit, 4 1/2 pounds.
61 C 3516—Outfit complete. \$1.08

35¢ Oil and Grease Gun for Fords
The end of Gun is threaded to fit the Ford differential. Constructed of extra heavy metal tubing, 1 1/2 by 9 inches. Plunger has a double end leather washer. Two nozzles. Finished in brush brass. Shipping weight, 1 pound.
61 C 9817. \$35¢

Footbrake and Reverse Ratchet Wrench
Two of the most important adjustments for Ford owners to watch are the foot brake and reverse hands in the transmission. With this Wrench you slip the away with necessity of removing the wrench so you may do the job more carefully in quicker time. Shipping weight, 1/2 pound.
61 C 2383. \$36¢

Lower Prices on Well Known Supplies for Fords

Standard Fenders for Fords

Fit all Ford open or closed cars. Beautiful, strongly constructed fenders that are duplicates in design of regular Ford fenders and are perfectly interchangeable.

Baked-on enamel finish. We placed an exceedingly large order for these fenders at a low market price of steel, and are giving you the benefit of our purchase. The lowest prices we have ever quoted for such fenders. Shipped from Factory in Southern Ohio. Ship. wt., set of four, 80 lbs.
261 C 2253—Set of 4. For 1909-16 Fords. \$9.95
261 C 2271—Set of 4. For 1917-22 Fords. 9.95

It Is Easy to Repair Fords with These Tools

Special All Size Ratchet Wrench Set for Fords

This Special Ratchet Wrench Set will help to keep your car out of the garage. With it you may tighten nuts and bolts that are usually left for the repairman because ordinary wrenches are hard to use. The sockets fit the nuts tightly, preventing battering up the edges, which makes nuts or bolts hard to turn. You don't have to keep removing the wrench for a new hold—simply work the ratchet handle back and forth. A fine socket for nearly every bolt and nut. Contains a new improved flat ratchet handle; one long extension rod; one universal joint; one pressed steel spark plug socket 3/4 by 4 inches long; the most popular sizes of guaranteed pressed steel sockets. The 1 1/2 and 1 3/4 inch hexagon sockets are tapered to handle nuts and bolts where ordinary sockets will not fit. Set is packed in strong wooden box. Shipping weight, per set, 4 pounds.
61 C 2441—Complete set. \$2.75

Service Wrench Set

To meet the demands of Ford owners for a good, serviceable, low price Socket Wrench Set, we offer you the five popular hexagon sockets—opening sizes: 1/2, 5/8, 3/4, 7/8, 1, 1 1/4, 1 1/2, 1 3/4, 2, 2 1/4, 2 1/2, 3, 3 1/2, 4, 4 1/2, 5, 5 1/2, 6, 6 1/2, 7, 7 1/2, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100. Shipping weight, per set, 1 1/2 pounds.
61 C 2389—Set. \$9.50

Handy Wrench Set for Fords

Five most used Wrenches for Fords. Tighten nuts and bolts in one-third the time. The triple and double socket offset wrenches fit most nuts and bolts. Other three wrenches fit connecting rods, flywheel and ratchet for reverse hand. Shipping weight, per set, 5 pounds.
61 C 2185—Set of 5. \$1.85

28¢ Connecting Rod Wrench

Fits all Ford connecting rods, including the fourth one, which is located out of reach of ordinary wrenches. No Ford owner should be without it; it may save your laying up the car. Shipping weight, 1 pound.
61 C 2375. 28¢

Double Socket Offset Wrench

Socket sizes, 3/8 and 1/2 inch, handle, 9 inches. Used on brakeshoe support, crankshaft (main) bearing, fan bracket, steering gear post, steering post bracket, spindle bolt and nut, lamp bracket nuts, front spring clip nuts and universal ball cap. Shipping weight, 1 1/4 pounds.
61 C 2377. 49¢

Triple Socket Wrench

Has two 3/8-inch hexagon sockets and one 1/2-inch hexagon socket, fit axle housing bolt and nut, brake shoe support bolt, cylinder head cap screw, dash bracket to dash bolt and nut, drive shaft roller bearing stud and nut, water cylinder inlet connection cap screw, water cylinder outlet connection cap screw. Shipping weight, 1 pound.
61 C 2440. 35¢

Spark Plug and Cylinder Head Wrench

A strong, commonly used Wrench for Fords. The socket fits every cylinder head bolt and the open end fits Champion X and some other 1/2-inch plugs. Black finish. Length, about 10 inches. Shipping weight, 1 1/2 pounds.
61 C 2301. 27¢

Drop Forged Wrenches \$1.59

Six Wrenches with twelve openings made to fit every nut on a Ford car. One thin wrench with offset bar for reverse gear and brake adjustments. Openings, 3/8, 1/2, 5/8, 3/4, 7/8, 1, 1 1/4, 1 1/2, 1 3/4, 2, 2 1/4, 2 1/2, 3, 3 1/2, 4, 4 1/2, 5, 5 1/2, 6, 6 1/2, 7, 7 1/2, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100. Shipping weight, per set, 3 pounds.
61 C 2460—Set of 6. \$1.59

T Handle Wrench

Hexagon socket 3/8-inch; used on ball and socket joint, clutch release fork clamp, commutator case support, crankcase arm, engine bolts, cylinder cover, cylinder valve cover, fan adjustment, front radius rod ball, inlet and exhaust clamp, muffler bracket, radiator and transmission cover. Shipping weight 1 1/4 pounds.
61 C 2376. 40¢

Speed Wrenches

Long shank brace hexagon Socket Wrenches are used as speed tools in assembling and dismantling cars. Are most efficient when used on a series of the same sized nuts as on cylinder heads. To gain the most time in removing nuts, first release the nut with an offset socket wrench, then spin nut off with Brace or Speed wrench. These tools are big time savers and are considered indispensable in garages where they have been tried. Average shipping weight, 1 1/2 pounds.
61 C 2370—3/8-inch size. 55¢
61 C 2371—1/2-inch size. 55¢
61 C 2372—3/4-inch size. 55¢
61 C 2373—1-inch size. 55¢
61 C 2374—1 1/4-inch size. 55¢

Flywheel Wrench

Socket size, 1 1/8-inch hexagon. Used on flywheel cap screws heretofore considered an impossible place for a socket wrench. A difficult place made accessible when this wrench is used. Shipping weight, 1 1/4 pounds.
61 C 2378. 43¢

"Save-a-Man" Speedy Wrench for Fords

One man with this Wrench can remove all the bolts from engine base or transmission case where it fastens near the center in less time than it generally takes two men with ordinary wrenches. The sockets are carefully machined and are held in place by a coil spring. This wrench will make it possible for Ford owners to do repair work on their cars which they had hesitated to do on account of not being able to satisfactorily hold the bolt on top. It holds the bolts and enables you to spin the nuts off or on very easily and quickly. Shipping weight, 3 pounds.
61 C 2379. \$1.50

Rives Pedal Pads

Ford owners who use these wide extension Pedals tell us they wouldn't think of driving again without them. You will feel the same way after using them a few days. They completely eliminate the possibility of feet slipping off. The extra width of the pedal combined with the rubber foot rest, makes driving much more pleasant and safer. Three pedals in set, two wide and one narrow for reverse pedal. Shipping weight, per set, 1 1/2 pounds.
61 C 2299—Set of 3. 82¢

Pedal Pads 33¢

Prevent feet from slipping off pedals. Rubber composition with metal bands for attaching. Especially desirable in wet, slushy weather. Quickly and easily attached to pedal. Shipping weight, per set, 8 ounces.
61 C 2341—Set of 3. 33¢

Mats for Fords

There is a big demand on the part of Ford owners for good grade Rubber Mats. We assure you these mats will give good service and satisfy you in every way. They are made of a good quality rubber composition with a strong fabric foundation. Front mats fit either touring cars or roadsters. Shipping weight for front and rear open car mat, 3 1/2 pounds; sedan mats, 6 pounds.
61 C 2278—Front mat for 1914 and older cars. \$.80
61 C 2279—Front mat for 1915 to 1922 models. .80
61 C 2365—Rear mat for all touring models. .14
61 C 2364—Complete mat for all sedans. 3.25

Durable Carpet Floor Mats for All Ford Closed Cars

Neat Floor Carpets add greatly to the appearance of your car. The floor mats pictured are made of heavy, excellently constructed carpet material about 1/4 inch thick. To make them last longer the edges are bound with a durable fabric material so there is a strong reinforcement all around the outside and also at the places where it is necessary for pedal openings. The color is a pleasing shade of gray that is serviceable and attractive. Shipping weight of sedan mats, 6 pounds; coupe mats, 3 pounds.
61 C 2363—Carpet for all coupes. \$2.18
61 C 2362—Carpet for all sedans. 3.65

A thick heavy Cocoa Mat for the rear of touring cars. Much better looking than rubber mats. The edges are heavily bound. Will give long service. Measure 21x28 inches. Can be used in other cars where the size is suitable. Shipping weight, each, 2 pounds.
61 C 2940—Each. \$2.45

Running Board Mats

Made of long fiber closely woven together so it keeps its shape and will wear a long time. Saves cleaning floor mats all the time. Quickly attached by steel clips. Size, 8 1/2 x 13 inches. Shipping weight, each, 2 pounds.
61 C 2281—Each. 78¢

Handy Valve Grinder

Will fit all valves and under the dash on last valve of Ford car. Made of steel, wood handle with special swivel arrangement that works faster than the old style. Shipping weight, 8 ounces.
61 C 2396. 25¢

Valve Reseater

Used to ream out Ford valve seat. Makes a clean even surface which cannot be obtained by grinding. Cutting surface made of carefully machine-hardened steel. Shipping weight, 10 ounces.
61 C 2560. 54¢

Valve Lifter

The ratchet holds it in position, requiring no holding while removing valve pin. Simply constructed and can be adjusted instantly with one hand. Enameled black. Length, 11 inches. Shipping weight, 1 1/2 pounds.
61 C 2556. 36¢

Valve Refacer

When Ford valves are badly pitted it is hard to get a perfect seat. This Refacer overcomes the difficulty. It turns valve to the right angle. Blade of tool steel. Shipping weight, 6 ounces.
61 C 2561. 29¢

Valve Adjusters

Made to take up the wear and lost motion between the ends of valve stems and push rods. They will silence the click and noise. A set consists of eight cups and sufficient discs. Shipping weight, per set, 3 ounces.
61 C 2563—Complete set. 17¢

Riverside Valve Grinding Compound

Packed in a double end box, one end containing a fine and the other a coarse grade. Contents, 4 ounces. Shipping weight, per box, 7 ounces.
61 C 9308—Per box. 23¢

\$1.15 Complete Pistons for Fords

Made of gray iron with carefully fitted step-cut piston rings. Tight fitting pistons will give you a smooth running engine, increased power, more mileage from gasoline and oil. They will hold compression and do away with piston slap noises. Oversize pistons are often the only successful remedy for motors

that "pump" or "throw" oil. Piston rings, pin and bushings included.

Article Number	Part	Name of Part	Each
61 C 2961	3020	Piston standard size...	\$1.15
61 C 2962	3020C	Piston complete oversize...	1.15
61 C 2963	3020D	Piston complete oversize...	1.15

Shipping weights: 61 C 2961, 2 3/4 pounds; 61 C 2962, 3 pounds; 61 C 2963, 3 pounds.

Engine Gaskets

Well made of copper and brass and lined with asbestos. For all Fords. Set consists of one cylinder head gasket; one cylinder head water outlet gasket; one cylinder head water inlet gasket; one carburetor flange gasket; six inlet and exhaust pipe gaskets. Set furnished complete.

61 C 2564—Complete set. Shipping weight, 5 ounces.36¢

61 C 2869—Head Gasket only. Shipping weight, 5 ounces.25¢

Warp-proof Valves for Fords

Ordinary valves for Fords very often warp, which causes the motor to miss, lose power and use more gas. These Warp-proof Valves are made of a specially treated metal which is guaranteed not to warp even though your motor becomes intensely hot. This means a very noticeable saving in gasoline and repair bills, as you will have better compression and more power without having to continually grind the valves. Shipping weight, each, 4 1/2 ounces.

61 C 2838—Each.15¢

Best Quality Connecting Rod Piston Pin and Bushing

Full size, drop forged, accurately made and machined Connecting Rods with the finest grade babbit bearings. This is an excellent quality rod and should not be confused with the low priced ones now on the market. Shipping weights: 61 C 2883, 1 3/4 pounds; 61 C 2884, 4 ounces; 61 C 2882, 4 ounces.

Dependable Replacement Parts for Fords

Kant-Break Front Spring

Worth the Difference in Price

A new Spring, one that every Ford owner will appreciate as it prevents the front end of the car from excessive bouncing. Special curl arrangement or rebound feature on the first leaf—this prevents the spring from going down to the breaking point. Guaranteed not to break. Protects car, engine and front axle when going over rough roads and bad bumps. Shipping weight, each, 21 pounds.

461 C 2968—Each.3.20

Fine Quality Springs For Fords

Though our prices are exceedingly low, these are guaranteed fine quality, oil tempered, heat-treated, perfect fitting springs. They are standard size and will give complete satisfaction.

Article Number	Part No.	Name of Part	Each

Windshield Glass for Fords

Clear, heavy auto plate Glass fits into regular Ford windshield frames. Clear white; no waves or bubbles. Standard thickness, 3/16 inch. Each one is packed separately with great care to prevent breakage. Fits all 1915-16-17-18-19-20-21-22 Fords. We do not furnish glass for older models. Shipping weight, 16 pounds.

161 C 2934—Upper Glass only.2.28

161 C 2935—Lower Glass only.2.75

Gearless Differential For Fords and Chevrolet 490

Eliminates sideways slipping and tendency to skid. Gives a positive drive to both rear wheels—all the advantages of a solid axle in straight-away driving. Over soft or uneven ground, power is delivered to the wheel having traction. Pulls through bad spots where a car with the ordinary gear differential would be hopelessly stalled. Gives full power out of every atom of fuel. The saving in gas, oil and tires pays for it several times over. Exceptionally valuable for winter driving. Shipped complete, ready to install. Shipping weight, 20 pounds.

61 C 2463—For Fords.15.45

61 C 2464—For Chevrolet 490.15.45

Differential Gears

When you put gears in your differential it pays to use the best. We could buy cheap gears but we know they would not give you the service that these will give. Our gears are carefully machined to fit perfectly so they work smoother and do not grind like the inferior kinds. They are so strongly and accurately made that we guarantee them for one year against breakage.

Article Number	Part	Name of Part	Each
61 C 2819	2518	Differential Drive Gear, 40 teeth	\$2.15
61 C 2822	2597B	Driveshaft Pinion, 11 teeth	.69

Shipping weights: 61 C 2819, 3 1/2 pounds; 61 C 2822, 14 ounces.

Finest Quality Special Differential Gears

The 2 3/4 - to - 1 ratio gears are particularly desirable for very fast driving or racing cars and will develop the maximum speed in proportion to the power of the motor. The 3-to-1 gears are for fast driving over country roads and are especially adapted for dirt track racing where pick-up is a big factor. The 4-to-1 gears are used where more power is needed and are suitable for sedans or Fords used for trucking and heavy loads, or where hills and sandy roads are encountered. The pinion gear is nickel gear steel. These gears are perfect fitting and interchangeable with the present Ford gears. Shipping weight of set, 4 pounds.

61 C 2957—2 3/4 - to - 1. Per set of 2.6.45

61 C 2467—3 - to - 1. Per set of 2.6.45

61 C 2478—4 - to - 1. Per set of 2.6.45

Power King Muffler

Mufflers clogged with carbon and dirt cause a back pressure which causes a waste of power. Many mufflers have small holes or pockets that become clogged; but this is impossible with the Power King, as it is of an entirely new design with a large cone that breaks up the force of the exhaust, producing quietness without the usual loss of power. It is excellently constructed with a heavy rolled steel plate, steel and cast iron end. Shipping weight, 6 pounds.

61 C 2325.1.65

Fan for Fords

Replaces Ford Part No. 3960. Complete with pulley assembly for Fords 1909-1920. Shipping weight, 1 1/2 pounds.

61 C 2932.68¢

Cork Gasket Set for Fords

This complete set, as illustrated, contains 12 pieces of high grade compressed cork. Most all larger engine manufacturers use cork gaskets. You should keep a set on hand at all times. A gasket leak around your engine is dangerous, expensive and dirty. Shipping weight, per set, 2 pounds.

61 C 2965—Per set.35¢

Felt Washer and Gasket Set for Fords

Complete set of Washers and Felt Gaskets for Ford cars. The set includes two each of Numbers 2510B, 2809, 3111, 3377 and 3451, one each of 2580, 3070, 3071, 3102, 3379, 3363 short, 3363 long, 3544, 3279 and 3012. Shipping weight, per set, 6 ounces.

61 C 2566—Set complete.26¢

Babbiting Jig for Ford Connecting Rods

This device holds the Ford connecting rod in such a position that when the babbit is poured it will have the correct centers. No scraping necessary. Made of cast iron and steel. Suitable for use by both Ford owners and garage men. Shipping weight, 2 3/4 pounds.

61 C 2447.85¢

Lakeside Special Saws Not in List

Saws listed can be furnished with any ordinary size hole at no extra charge. We carry in stock for immediate shipment saws in standard sizes, as listed but will supply special gauges as promptly as possible. It usually takes from 10 to 30 days to make up special saws at the factory. Prices on saws larger than 36 inches and on inserted tooth saws given on request.

When Ordering Special Saws
Be sure to advise us of the diameter, hand, gauge at center and run, number of teeth, kind of lumber to be cut, speed of saw while turned in log (not while running out of cut) horse power of engine, greatest feed, whether mandrel runs cool or warm, and templet showing size of holes. All saws come filed and set, ready for use.

Table of Speeds
Always run saw at proper speed. Too fast or too slow is equally bad.

Saw Diameter	Speed	Saw Dia. In.	Speed	Saw Dia. In.	Speed
18 in.	2,000	26	1,384	34	1,050
20 in.	1,800	28	1,285	36	1,000

Eclipse Cordwood Saws

Made expressly for use on Cordwood or Pole Sawing Machines and on our Saw Mandrels. They are hammered to run properly at the usual speeds of these machines and are precisely hand filed and set, ready for use. The improved special shaped teeth with large gullet, make these saws cut fast and hold their edges remarkably. They are tempered to stand the severe outdoor weather service to which they are subjected, and will be found to be thoroughly reliable in every way. Made only in sizes listed below, for crosscut sawing. State size wanted.

Lakeside Planes \$280

The frames of these planes are made of heavy Japanned iron. Sides and bottom accurate ground and polished. Strong cutter caps. The "Easy Grip" handle and knobs are of close grained hardwood. The cutters are made extra heavy to prevent clattering when planing rough boards or knots. The improved thumb nut adjustment in rear raises or lowers the cutters in removing blade, and the lever shown underneath adjusts the blade, assuring you of a smooth and level planing edge. Made with both smooth or grooved bottom. Shipping weights, 4 1/4 to 10 1/4 pounds.

\$735 Combination Screen and Storm Door

The Permanent Door Panels Easily Changed

One Door Frame Serves the Purpose of Two

No need to change doors twice a year. Costs little. Is long lasting, the door once adjusted, stays fitted and does not have to be placed down or re-adjusted twice a year. By merely taking out the removable screen and putting in the sash you have changed it from a screen to a storm door. Removable panels fit flush with door frame. Held firmly in place by a patent metal lock, quickly and easily adjusted with a screwdriver. No amount of jarring can loosen the screen or storm sash. Just as solid as if built in. Door frame is made of selected white pine 1 1/2 inches thick, sanded and smoothed. Screen panel wired with fine 14-mesh galvanized wire cloth. Storm sash glazed with strong clear glass.

Ajax Stock Fence

Ajax—The Lasting Fence
 "I put up some Ajax ten years ago that is just as good now as it was when I first put it up."
 J. Schuster,
 Wisconsin Rapids, Wis.
 Printed with Mr. Schuster's permission.
 Ajax quality is even better today than ten years ago. Ajax is the "Greatest Fence Value."

Read What Other Customers Say

"I bought several kinds of hog fence, and find it pays best to buy heavy wire such as 'Ajax,' which cannot be sagged. It securely withstands every assault of time, weather and live stock. My neighbors and myself pronounce Ajax the best fence on the market."

L. A. Longman,
 Missouri Valley, Iowa.
 Printed with Mr. Longman's permission

Ajax Lasts Longer

Because—
 the wire used is basic open hearth steel, unusually springy and tough, heavily galvanized to prevent rusting. The stay wires and line wires are of the same size, making a strong rigid fence. The top and bottom wires are heavier because they stand more strain. "Ajax" always stands erect. The upright stays are one piece, and are not twisted around the line wires, but held to them by the famous "Ajax" knot which eliminates the weak points and cracked surface of twisted line wires. The more you stretch the fence the tighter the knot grips. It holds every wire firmly in place, and every wire in the fence stands its share of the strain. The expense for posts and labor is the same whether you stretch a light weight inferior fence or our "Ajax," but the cost per year of service is much less for "Ajax." Thousands of farmers in all parts of this country know "Ajax" as the "Greatest Fence Value." Shipped direct from the nearest factory, saving you freight, and with only one small profit added.

AJAX is the Best

"It is cheaper to buy Ajax fencing than a lighter kind. I would rather have Ajax than any other fence I have ever bought."
 Thomas Bemrose,
 Anamosa, Iowa.

Printed with Mr. Bemrose's permission.

Barbed Bottom Hog Fence

19¢ Per Rod
 The Top Wires Not Included
 Stays are continuous and firmly interlocked with the line wires making a very rigid fence. Barbed bottom wire helps to keep hogs and pigs in or out by preventing rooting a hole under fence. We recommend Standard Grade for hogs and Special Grade for small pigs.

Made in Two Grades
 Made of tough open hearth steel wires. Galvanized. Bottom wire of two-point barbed wire. Each stay is one continuous wire.
 Height: 26 and 32 inches.
 Line Wires: 7 and 8 inches.
 Spacing: Two bottom meshes, 3 in., widening to 6 inches at top. Stays are 6 inches apart.
 Wire Gauge: Standard Grade: top No. 10; all the others, No. 13.
 Special Grade: Top, No. 11; all others, No. 14.
 Shipping weight, 20 rods: 85, 100, 105 and 120 pounds.

Fence Supplies

Galvanized Barbed Wire

An excellent wire. Thoroughly annealed. Heavily galvanized. We recommend standard weight with two point single twist barbs. It is neater than four point, easier to handle and just as effective. Cattle wire has barbs 5 inches apart. Hog wire has barbs 3 inches apart.

Standard Grade: has 2 strands No. 12 1/2 gauge wire. Shipping weight, per rod, about 1 pound.

Art. No.	Style	Quantity	Price
284 C 5420	Cattle 2 pt.	100 lbs. on reel	\$3.95
284 C 5421	Cattle 2 pt.	80 rods on spool	3.20

Fence Posts

Steel Fence Posts Cost Less Than Wood

Heavy Angle Steel Fence Posts. Size, 1 1/2 by 1 1/2 by 1/2 inches thick. Total length, 7 feet. Can be quickly driven into any kind of soil and easily removed when relaying fields or pastures. No staples required, as there are hooks or prongs punched out of the steel upon which the wire rests.

Hooks are close together to take woven wire fencing of any size mesh, suitable for fencing any height up to 60 inches. Shipping weight, 9 pounds.

284 C 5410—Painted with weather-resisting black paint. 23c

284 C 5411—Galvanized rust-resisting. 50c

Picture shows heavy steel anchor plate

Corrugated Steel Roofing and Siding

Read the general description. Made with 1 1/4-inch and 2 1/2-inch corrugations. Sheets are 24 inches wide, but should be lapped one corrugation, so one sheet will cover a space 24 inches wide. Be sure to allow for end lap also.

Galvanized sheets have a heavy rust-resisting protective coating of spelter. Painted sheets have one coat of red mineral paint on both sides.

Order by sheets and state length and number of sheets. Use the table below.

Remember to allow for end lap. A "square" is 100 square feet of roofing. Without end laps it requires 108 square feet to cover 100 square feet of surface. A square will cover on the average 90 square feet of surface.

Buy Now. Protect Your Buildings. The best building investment you can make now. (Prices subject to market change.)

Metal Roofing and Siding

Permanent and Economical Protection

For Permanence and Protection from Fire and Lightning

Has any building you know about ever been damaged by lightning while protected by metal roofing and siding? This protection has always been economical; but now it is a bargain which you can not afford to miss. Our prices are practically at the pre-war level in spite of the fact that other prices have not yet come all the way down.

Our Metal Roofing and Siding are made of fine open hearth sheet steel. We recommend the heavy No. 26 gauge, galvanized, because it lasts longest and is therefore most economical. Will give double the service of other styles.

It may be applied directly over old sheathing or shingles or on the studding itself. Very easy to apply. A hammer and tinners' shears are the only tools needed. Prices do not include paint or nails. Order one pound of 1 1/4-inch barbed roofing nails for each square (100 square feet). If you are not sure of the number of sheets you need send us a rough sketch showing the dimensions and we will figure the correct number.

Remember to allow 2 inches for end lap for siding and 4 to 5 inches for roofing.

Painted sheets have a coat of red mineral paint on both sides but should be painted again after being laid.

Read the general description. Made with 2 V-crimps, one at each edge, or with 3, one at each edge, one in center. One sheet will cover a space 24 inches wide and is called a 24-inch sheet, so when you buy 100 square feet of this roofing you get enough to cover 100 square feet of surface, without allowing for end laps. Galvanized sheets have a heavy rust-resisting protective coat of spelter on both sides. Painted sheets have one coat of red mineral paint on both sides. Made in two gauges of which No. 28 is the heavier. Always nail through V-strip shown below. A square of roofing requires 50 feet of V-strip and 1 1/2 pounds of 1 1/4 barbed roofing nails for 2-V and 100 feet of strip and 2 pounds of nails for 3-V. Order by sheets and state length and number of sheets. Remember to allow for end laps. Buy Now. Protect Your Buildings.

V-Crimp Steel Roofing and Siding

Wood V-Strips For V-Crimped Roofing and Siding. Requires 50 feet for a square of 2-V and 100 feet for a square of 3-V. Shipping weight, per 100 lineal feet, 20 pounds. **284 C 5005**—Per 100 lineal feet, 75¢. Shipped from Factory in Iowa.

NOTE: Prices on all sheet metals subject to market changes, but we always give lowest prices.

Metal Ceiling \$4.00

Fire-retarding, Dustproof, Sanitary and Economical. Adapted for use in churches, halls, lodge rooms, theaters, hotels, restaurants and private homes. Eliminates all danger of falling plaster. Lasts a Lifetime.

Our Metal Ceilings are made of steel. The embossed design is clear and deep. Edges of sheets and borders and moldings are made so they will go together properly and not leave a gaping seam. Corners and miters are made of one piece. No difficult cutting and fitting to do on the diagonal. Very easy to put up.

We send you a working plan of the finished ceiling which enables you to put up your ceiling correctly without any trouble.

How to Order

Give us the sizes of the room and a sketch showing all offsets with their dimensions clearly shown. We will figure the exact amount of ceiling needed in the style you select and ship it to you cutting up with complete directions and plan for putting up. Write for our Building Material Catalogue which shows more styles.

How to Estimate Price

Figure the number of square feet in your ceiling. Do not deduct the size of any skylight or other opening unless it is over 100 square feet. For number 5104 add 6 inches times the total length of your walls to allow for the drop of the cornice which runs down the wall 6 inches. The price shown is for a "square" of 100 square feet, that is, enough ceiling to cover 100 square feet. For number 5100 figure the length of cornice and the number of miters separately. The length of cornice is the total length of walls along which you want the ceiling edged with cornice. The number of miters is the number of corners in the cornice.

Enough nails, and wooden brackets for cornice are included with the shipment and included in the prices quoted below. If you wish to use furring strips to nail on the ceiling first where the joints in the metal ceiling will be nailed, order them separately.

Shipping weight, per square, 100 pounds.

284 C 5100—(Shown at right above). Center design plate only. Per 100 square feet... \$4.00

284 C 5101—Cornice to match as shown in illustration. Per foot... 8¢

284 C 5102—Miter (corner sections). Each

35¢ Ten Feet Eave Trough Best Grade Steel Down Spout Ten Feet 40¢ Galvanized

A slip joint makes it easy for any one to put up this Trough. Simply push sections together. No tinner needed. Makes a neat, tight job and requires no soldering at the joint. Always state whether right or left-hand trough is wanted, or send sketch showing position of outlets. Right hand means that, as you face the building, the water in trough will flow to the right. We recommend the extra heavy 26 gauge. Costs no more to put up, lasts twice as long as standard gauge and at our prices will give you a big saving. Prices subject to market changes.

Galvanized Eave Troughs

Made of best grade galvanized sheet steel in 10-foot lengths without a seam. One end of each length is made with a slip-joint, quickly put together; requires no soldering. Not malleable. In two grades, Standard and Extra Heavy.

Complete line of builders' Hardware shown on Pages 598 and 599.

Highest Grade Blow Torches and Gasoline Furnaces

Gasoline or Kerosene Blow Torch

Brass body. New Bronze burner specially constructed for burning Kerosene. Will generate heat to 2300 degrees F. or 400 degrees more than other torches of its kind. Easily regulated. Indispensable for paint burning, soldering, thawing pipes. Removable holder for soldering copper.	
84 C 5220—Capacity, 1 pint. Height, 7 inches. Shipping weight, 3 pounds.	\$3.45
84 C 5221—Capacity, 1 quart. Height, 9 inches. Ship. weight, 4 pounds.	\$3.85

Double Jet Gasoline Brazing Torch

Generates intense heat of about 3000 degrees (Fahrenheit). Will produce large or small, pointed flame. Fine for brazing or tempering. Made of heavy brass and bronze. Pump is in handle. Capacity of tank, 1 quart. Height over all, 9 inches. Directions included. Shipping weight, 4 pounds.	
84 C 5226	\$8.50

Gasoline Auto Torch

Brass body, flat oval shape for use in narrow places. Powerful burner. Folding support on bottom prevents tipping over. Fitted with soldering iron holder. Pump is contained in the handle. Capacity, 1 pint; height over all, 9 inches. Shipping weight, 4 pounds.	
84 C 5224	\$4.15

Gasoline Torch and Sprayer

Burner gives hot flame. Separate nozzle throws fine stream of gasoline for cleaning machinery, destroying vermin and similar uses. Well made and finely finished. Capacity, 1 quart. Height, 9 inches. Shipping weight, 5 1/2 pounds.	
84 C 5222	\$3.95

Gasoline Furnace

Produces a very hot flame. Has shield to hold melting pot. Melting pot not included. Heavy galvanized iron tank. Rubber pressure bulb. Malleable iron and brass casting. Burner is extra heavy copper pipe. Consumption, 1 pint of gasoline per hour. Height over all, 17 1/4 inches. Diameter, 8 1/4 inches. Shipping weight, 10 pounds.	
484 C 5232	\$4.25

Combination Gasoline Torch

Heavy, drawn steel, enameled gasoline tank. A heavy rim projects 1/2 inch below the bottom of tank for protection. Has brass pump in tank and brass filler cap. Removable hood. Burner may be swung in any position. Produces a hot flame. Will heat a pot of lead and a pair of soldering coppers at the same time. Burners are not affected by wind or weather. Well made and durable. Capacity, 3 quarts. Height over all, 12 inches. Diameter, 8 1/4 inches. Shipping weight, 12 pounds.	
484 C 5234	\$8.75

Soldering Copper—Solder—Babbitts

Soldering Coppers

Lightning Rods

Lower Rates of Insurance

Protect Your Building Reduce Insurance Rates

Insurance Companies allow special reductions on fire insurance for buildings equipped with our lightning rod equipment as specified because our equipment and fixtures are approved by the Underwriters' Laboratories. Uprights must be placed on the highest points of the building, beside chimneys, on top of cupolas or gables, not over 20 feet apart and at least 3 on each building.

This is an easy way to reduce expense and at the same time obtain added protection for your buildings and their contents.

To get correct measurement run a stout cord up one corner of the building to the roof, then along all ridges and to all high points where uprights are to be placed and down on the opposite end of the building. The line can be tacked with a staple every few feet and pulled out when all measured. Be sure to allow enough to connect to everything of metal on or near the roof such as gutters and cornices. Also add 10 feet at each end for grounding.

Uprights are made three-legged of galvanized steel to support the silvered-copper tip and copper tube which connects to lightning rod cable. Complete instructions for installation included with each order.

Heavy Genuine Copper Cable

Made of 99 per cent pure copper. Has ample capacity for the heaviest stroke of lightning. Gives effective protection at lowest cost. Lasts longer than the average building. Always fasten lightning rod directly to building without any insulation. Enough clips and brass screws are included to fasten the cable every 3 feet.

Shipping weights, per 100 feet, 25 and 35 pounds.

Lakeside Church, School, Factory Bells

\$9.75 For 20-inch size

Lakeside Church Bells are made of a special composition metal, producing a clear, rich, mellow sound. The larger the bell, the deeper and richer the tone, which improves as the bell ages. Larger clear-sounding bells for less money than larger brass bells would cost. Lakeside Church Bells produce a clear, deep, mellow tone that can be heard a great distance. Are complete with tolling hammer. Lakeside School and Factory Bells are of the same quality as our Church Bells but do not have a tolling hammer and are designed for schools, court-houses and small churches.

Note: We will replace free any Lakeside Bell which may break within five years. Prices are for bells complete with wood sills and iron wheels. Sizes over 36 inches have wood wheels. Fitted with smooth, easy running bearings.

284 C 4645—School or Factory Bells. Complete with Clapper, but without Tolling Hammer.

Blacksmiths' Solid Box Vises

Special 5-inch Jaw \$3.98

A fine Vise at less than the price of the 1 1/2-inch jaw size in the heavy pattern. Heavy enough to stand severe usage. Superior quality. Curo has been taken to proportion this vise right. Workmanship is of the best. Made of wrought steel, with specially hardened and tempered steel jaws. This vise has a strong steel screw with deep and accurately cut threads encased in a solid thread box. This Vise is provided with loose collars which prevent binding. This is the best vise of its kind for garage and shop use, and we absolutely guarantee this Vise. Lag screws are included for fastening to the bench. Shipping weight, 40 pounds.

484 C 6869.....\$3.98

Heavy Pattern \$3.75

This Vise is the same as the special vise shown at left. It has the same strong steel screw and deep accurate threads. Fitted with loose collars to prevent binding, and steel faced jaws. Lag screws included for fastening to bench.

Heavy Floor Grinder

Has tight and loose pulleys. Long bearings, well habilitated, with dust-proof collars. Adjustable rests. Will carry two wheels, 12 by 2 inches or a diameter arbor, 27 inches. Diameter, arbor between collars, 1 inch. Size pulleys, 3 1/2 by 3-inch face. Shipping weight, 105 pounds.

184 C 6720—\$18.25

Finest Quality — Belting — Lowest Prices

6¢ Canvas Belting

32-Ounce Red Stitched
Our Red Stitched Canvas Belting is not affected by atmospheric changes or injured by water or steam, and may be subjected to a degree of heat that would be ruinous to many other kinds of belting. It is therefore the best belting for outdoor use and for damp or hot places. Made of long fiber 32-ounce cotton duck, carefully and closely stitched, stretched and inspected. Thoroughly saturated in oil, which makes it permanently water proof and flexible. Covered with a special waterproofing compound which gives the belt an excellent non-slipping surface. Always flexible in hot or cold weather.

84 C 7690—4-ply. Shipped weight, foot, 2 to 17 oz.		84 C 8692 6-ply. Shipped weight, foot, 6 to 27 oz.

Endless Canvas Thresher Belts

Full 32 Ounce Weight
Made in the same manner as our red stitched canvas belting of long fiber 32-ounce cotton duck. Especially adapted for threshers, saw mills, stone crushers and similar severe uses. It requires three feet to make the lap, therefore in measuring, each belt will be just three feet short. For example, the actual net length of a 100-foot belt will be 97 feet. We carry in stock for prompt shipment, the following standard lengths and sizes. Shipping weight, per foot, 6-inch, 11 ounces; 7-inch, 12 ounces; 8-inch, 14 ounces.

Red Friction Surface Rubber Belting

Our "Red-Man" brand is the very finest grade of rubber belting. Use this belt for heavy duty, high speeds and on small diameter pulleys. It will give longer, better and more economical service than any other kind of belting. The belting is red in color to distinguish it from ordinary belting and is sold with our full guarantee, to give entire satisfaction under the most severe usage. It is constructed of a tough and closely woven cotton duck, with a high grade friction between the plies and a friction surface which takes hold of the pulleys with a full contact from edge to edge. The friction compound is forced into the fabric under great pressure, the plies will not separate, and all the undesirable stretch is taken out of the belt.

How to Order Special Endless Belts

Include the price of seven extra feet of the belt for the cost of making the lap. For example, if you want an endless belt 100 feet long, pay for 107 feet. Mention the length of belt wanted after being made endless. Order by the following numbers:
84 C 7687—Endless Rubber Belts. Made in Extra Standard grade and "Red-Man" brands only. Shipped from Factory in Illinois
Endless Canvas Belts. Made in four or six-ply. (See 84 C 7700 and 84 C 7702 for stock lengths.)
Belt Shipped from Factory in Northern Ohio Allow ten days for filling order

Starrett's Speed Indicator
Frictionless bearings. Two rows of figures reading right or left. Nickel plated iron. Rubber tips. Size, 5x1 1/2 in. Ship. wt. 10 ounces.
84 C 1858—With iron handle. \$1.00
84 C 1859—With rubber handle. 1.48

8¢ Leather Durable Belting

Standard Grade is of medium quality and will give satisfaction. For ordinary mill, factory and farm machinery. Extra Standard Grade is made from select, short lap, oak tanned stock, cut from the center of the hide. Recommended for thresher belts, high-speed pulleys, and for hard factory or mill usage. If belts are wanted endless, state actual length of belt wanted after splicing, and allow price of 3 feet of belt extra for lap and labor of splicing. Notice—In very damp or wet places, use rubber or stitched canvas belting.

Bath Tubs

White Porcelain Enameled Bath Tubs are easily kept snowy white. They are made of heavy cast iron with white Porcelain Enamel on the inside and on the roll rim. Height, to top of rim, 24 inches, width, including rim, 30 inches, depth inside, 17 1/2 inches, Heavy 3-inch roll rim. The above description and dimensions apply to both styles. Fittings for either solid base tub shown left or tub on legs shown at right, are in two styles. Ideal fittings include lifting waste and overflow. Supply pipes to floor and fittings all nickel-plated brass. Regular fittings have nickel-plated connected waste and overflow with chain and rubber stopper. Otherwise same as Ideal. Fitted with iron supply and lead waste connection. (For iron pipe connection see page 614.) Ivory White Finish is an exceptionally fine enamel applied in 6 coats to give the outside of the tub an attractive glossy finish.

\$6.95 Galvanized Range Boilers

For storing hot water under pressure. To be connected with a heating coil in kitchen stove, furnace or heater. Cold water is carried by tube from top and discharged at bottom of boiler, so it does not mix with hot water which rises to top and always is available.

Full instructions included with boiler on request. A 30-gallon boiler is sufficient for an ordinary household. All boilers made of galvanized steel. Height, without stand, 60 inches. Prices below for boilers complete include stand, cold water tube and four union couplings. Prices for boilers only include nothing but the boiler. Shipping weights, from 75 to 145 pounds.

Standard Boilers—Guaranteed one year. Tested at 200 pounds pressure. For over 85 pounds pressure of water, we recommend our extra heavy boilers.

	30 Gal.	40 Gal.	52 Gal.
181 C 6707—Boiler only.	\$6.95	\$9.10	\$14.75
181 C 6719—Complete.	8.55	10.70	18.10
Extra Heavy Boilers—Guaranteed for three years. Tested at 250 pounds. For use with water pressure of more than 85 pounds.			
181 C 6708—Boiler only.	\$8.25	\$10.35	\$18.45
181 C 6728—Complete.	9.85	11.95	21.80

Boiler Stands

Strong and durable cast iron. Shipping weights, 4 to 6 pounds.

481 C 6730—Adjustable for 30 and 40 gallon boilers. \$4.00

181 C 6720—52 Gallon boiler stands with ring top. \$1.98

Horse Shoe Burner and Valve

For use under range boilers, tanks and stoves. Air supply is adjustable. Complete with burner, valve and mixer with set screw, for 3/4-inch Iron Pipe Gas connection. Shipping weight, 4 pounds.

Automatic Closet

For basement or unfinished places. Requires no tank. Cast iron bowl, white porcelain enameled inside, painted outside. Patent valve flushes automatically, when the seat is occupied. Seat is light oak. Flush valve threaded for 1/2-inch pipe. Shipping weight, 50 pounds.

181 C 6480.....\$9.10
181 C 6484—Same as above except without seat or flushing mechanism. May be connected to 1/2-inch water pipe for direct flushing by hand. Shipping weight, 30 pounds.....\$3.50

Automatic Cesspool Syphon

For use with septic tanks. This Syphon works automatically and drains the septic tank at regular intervals. Prevents the constant flooding of the distributing system and permits the liquid to reach all parts of the drainage or aerating line and to soak into the soil before another discharge. Made of cast iron, of simple construction and easily installed. Shipping weight, 210 pounds.

281 C 6829.....\$17.95
Shipped from Factory in Central Iowa.

Cesspool Cover

For cesspools, cesspools and catchbasins. Set on top of eastern wall, 6 inches below ground so that only the actual cover shows above ground. Heavy solid casting so that wagons may be driven over it. Not easily displaced. Diameter, 19 inches. Diameter of flange at bottom, 30 inches. Shipping weight, 165 pounds.

181 C 6141.....\$12.85

Bell Trap Cesspool

Cast iron, bell trap Cesspool or drain. Used for drain outlet in cement floors of basements and area ways. Has bell-shaped trap, which prevents escape of sewer gas. Top plate strainer is removable for cleaning. Easily accessible in case of clogging or stoppage. Has 2-inch outlet. Size, 6 by 6 inches. Shipping weight, 4 pounds.

81 C 6738.....58c

Refrigerator Drain

Should be used with every refrigerator. The perforated disc and the trap are removable, making cleaning easy. A water-sealed trap, made when strain traps into water in the base, effectively prevents odors coming through the drain pipe. Diameter, 7 1/2 inches. Depth, 2 1/2 inches. Outlet threaded for 1/4-inch pipe. Shipping weight, 8 pounds.

81 C 6739.....60c

Iron Cistern Covers

Cast iron covers, with rings painted black. For wells, cisterns, and cesspools. Sizes indicate the diameter of opening. Shipping weight, 50 pounds.

181 C 6139—Size, 18 inches.....\$2.35
181 C 6140—Size, 20 inches.....3.75

Lever Hand Hydrant

Brass stop and waste valve, shut-off rod and gooseneck bend for 3/4-inch hose connection. When hydrant is shut off, water drains out. Connects below frostline. Length, 4 feet. Shipping weight, 15 pounds.

181 C 6892.....\$2.20

Anti-Freezing Hydrant

Cast Iron Hydrants in ornamental pattern. A drain valve in the bottom draws all water from the body of the hydrant when not in use. The outlet is threaded for regular 1/2 and 3/4-inch garden hose coupling and union. By removing two bolts, the valve may be pulled out from the top for repairs without digging up the hydrant. Sets 3 1/2 to 4 feet in the ground. Pipe coupling, 3/4-inch. Shipping weight, 45 pounds.

181 C 6897.....\$8.20

Chemical Indoor Closet

\$6⁹⁵

Windsor Chemical Indoor Closets

For the Particular Housekeeper
Endorsed by Doctors and Health Authorities

Easily and quickly installed. No plumbing required. No running water needed.

They not only do much to prevent disease but are one of the most practical conveniences ever invented. They provide the home with several of the greatest advantages of the modern bathroom—comfort, convenience and protection. In cases of illness or when members of the family are aged, one of these indoor closets is almost a necessity. Entirely eliminates the health endangering and inconvenient outdoor closet, so often the means of spreading disease.

Chemical kills odor and makes closet entirely sanitary. Always well ventilated. Free from flies and insects.

May be installed in a curtained corner of a bedroom, in a closet, in waste floor space under a stairway, any convenient place where ventilator connection is obtainable. The cost is trifling. Anyone can install it. Less than half an hour's time is enough and no special tools are necessary. The floor is not cut. The vent pipe is attached to any chimney hole or connected with the outside air in any other way. When installed it is no more conspicuous than an ordinary closet with water connection.

The chemical is very strong and quick in its action. Only needs to be emptied every week or so for a family of four or five.

As with everything else we sell, it bears Ward's guarantee of satisfaction or your money back.

With Steel Case

Attractive enameled steel case with varnished mahogany seat and cover. Complete with seven 12-inch lengths of 3-inch vent pipe, two elbows, wall collar and chimney reducer, all enameled to match; also paper holder, one roll of paper and one gallon can of Windsor Chemical, enough to last from 4 to 6 months. Height 18 inches; diameter, 16 inches. Shipping weight, 35 pounds.

Anti-Freezing Force Pump

With Three-Way Valve

For Windmill or Hand Use

Anti-Freezing Pump with improved vertical distributing valve to send water through underground piping to water supply tank, etc. Valve is underground but is operated by wheel handle at spout. Spout is fitted with 3/4-inch hose coupling. Pump is tapped for 1 1/2-inch discharge and 1 1/4, 1 1/2, or 2-inch suction pipes, depending on size of cylinder. Length from platform to lower elbow, 4 feet 10 inches. Width at bottom over valve, 11 inches.

Price includes pump standard with extension below pump base only. Includes 3-way valve. Cylinder not included.

Shipping weight, 100 pounds.

181 C 5875—With 6-inch stroke.....\$12.75

181 C 5876—With 10-inch stroke.....\$13.40

Double Acting Force Pump

Three-Way Valve

For Windmill or Hand Use

Anti-Freezing

Complete with upper and lower brass lined cylinders. Has a quick-acting cam-lever shifting device, and lower three-way valve. Water may be forced through underground pipe to storage tank or from the spout as desired. The spout and three-way cock have 1-inch discharge. The upper cylinder is of drawn brass tubing. Has a large water-way and a spacious air chamber, and will work easily against heavy pressure. Has 6-inch stroke. Width over cylinder, 6 inches. Length below platform, 4 feet 6 inches. Shipping weights, 81 and 85 pounds.

181 C 5882—With 3 by 10-inch brass lined cylinder for 1 1/4-inch pipe.....\$14.50

181 C 5883—With 3 1/2 by 10-inch brass lined cylinder for 1 1/2-inch pipe.....\$15.10

Injector Model X

Will start instantly after interruption to steam or water supply. Will start at 20 pounds, and work to 120 pounds. Will lift water 20 feet with 80 pounds of steam, and will handle hot water as hot as 130° F. Takes same pipe connections as U. S. Penberthy and other injectors of this type. Shipping weights, 3 to 9 pounds.

Fastens to end of suction pipe with set screw. Made of malleable iron. Covered with brass wire cloth. Average length, 6 1/2 inches. Shipping weights, 1 to 2 pounds.

For pipe size, 1 in.

Our Heating Prices Help You Save

Monarch Boilers—Steam, Vapor, Hot Water

The Monarch Sectional Boilers represent the result of a half century's practical experience in the manufacture of heating apparatus. An extensive range of sizes renders their use applicable to practically all kinds of heating installations. Their convenience in installing, ease of operation and economy in fuel, are but a few of their many advantages which have won for them popular favor.

In the construction of these boilers special attention has been given to maintaining the proper ratio of grate to heating surface—which is a very important feature.

A glance at the sectional view will give a comprehensive idea of the Monarch Construction, showing the deep combustion chamber, sensitive waterways and enormous amount of heating surface presented to the action of the fire. These features combined with the long travel of the gases of combustion, utilize all the effective heat units, giving the highest efficiency with the most economical consumption of fuel.

We show here, the push nipple type connection. This connection consists of a heavy machine turned, smooth tapered nipple, made of cast iron, and is held together by heavy tie rods. These connections are in no way exposed to the action of the fire. The boiler is very low in height, which is a very desirable feature for low cellars or basements.

All Monarch Steam and Water Boilers are made on the unit or sectional principle, and their capacity may be increased or diminished by adding or taking from them a number of sections.

Coiled openings are provided in the Back Sections for the insertion of coil or Water Back for heating water for domestic supply.

The Fire Box of the Monarch Boiler is made of ample depth and capacity to allow for a sufficient amount of fuel to carry the fire for a long period without attention. A Water Section Bridge Wall is used in the larger boilers to reduce the grate areas to the proper ratio of heating surface.

All parts of the Monarch Boiler are accurately machined and fitted, and thoroughly tested to 100 pounds Hydrostatic pressure, before leaving the factory.

The Monarch Grates

The Grate Bars are divided into two sections, each operated by a separate lever, thus permitting adjusting the whole body of fire or only half of it. By removing the front panel of the ash pit, the entire grate frames can be withdrawn, giving free access to every part of the grate.

When adding sections to the boiler, new sections can be added also to the ash pit, eliminating the expense of an entire new ash pit—an excellent feature of the Monarch ash pit.

Easy to Clean

Large front and rear clean-out doors, give free and easy access to every part of the fire surface for cleaning.

Prices

Monarch Boiler Prices are subject to market changes. Write us if you wish our help when selecting a Monarch Boiler.

\$195.00 Heats a 5-Room House

Complete Sterling Windsor Installation
Clean Comfortable Economical Heat

A new, economical way to heat your home with hot water, without going to the expense of digging a basement. The Sterling Windsor Boiler may be placed on the same floor as the radiators, in any room of your home. It is small and compact, 48 inches high, and built in sections which permit it to be increased in size by the addition of other sections to meet any alterations in the home. It is of neat design and may be painted to match the furniture or color scheme of any room, making an attractive fixture. It is far more pleasing in appearance than any stove and is much easier to keep clean. Its simple operation and fuel economy added to its low cost make this heating system the ideal method for the average home.

The heating expands the water and it rises to the expansion tank located directly above the boiler. As the heated water leaves the boiler, cold water from the balance of the system flows in to replace it, thus starting a circulation which continues as long as there is fire in the boiler. As the requirements of no two homes are alike it is impossible to exactly estimate the cost of installing a Windsor without a plan of your home.

Send us this information and we will gladly estimate the cost of installing a Windsor in your Home, Office or Shop.

Valves, Cocks, and Gauges

Brass Stop Cocks

Solid brass. Rough finish. With ground key for iron pipe connection.

Size	Shipping Weight	Price Each
1/2 in.	7/8 lbs.	55c
3/4 in.	1 1/4 lbs.	72c

Lever Handle Stop and Waste Cocks

Solid brass. For iron pipe.

Hot Water and Steam Heating Equipment

Windsor Hot Water and Steam Boiler

A Boiler is the very heart of a successful Heating Plant and must be correctly proportioned to insure satisfactory heating results with a minimum amount of fuel.

Our Boilers are the results of long, successful experience in house heating. A Windsor installation will solve your heating problem for many years.

Highly efficient round type, made of heavy cast iron. Has large surface set on a deep ashpit provided with improved rocking grates which are operated by a convenient lever. All sections are joined together by heavy tapered push nipples, assuring tight and firm joints. Large feed and shut doors making firing and cleaning an easy task.

Draft is burned—not wasted—in this boiler. The maximum number of square inches of heating surface is directly exposed to the fire to insure the best heating results. One of the features of the Windsor Boiler design is the careful distribution of heating surfaces.

When the gases and smoke pass out through the smokepipe, nearly all the heat has been absorbed. There is just sufficient heat left to promote a good draft in the chimney.

The remainder has been absorbed by the water in contact with heating surfaces in the boiler and carried to the radiators located in the various

rooms of the house.

All of our boilers are provided with deep firepots below the feed doors, so they will hold sufficient fuel to last at least 8 hours. Under favorable conditions our Windsor Steam and Hot Water Boilers need only be fired once every 10 hours. Long intervals between firing periods mean less work for the busy housekeeper.

All Windsor boilers have coil openings in the firepot so coils for the purpose of heating hot water for domestic use may be installed. Separate gas or coal heaters are not necessary. This means an additional saving to Windsor boiler owners.

Steam boiler is fitted with diaphragm regulator for operating draft and check dampers, steam gauge, pop safety valve and water gauge. Both Steam and hot water boilers are furnished with shaker handle, due brush and handle, scraper and poker.

Giant Windsor Tank Heater

Used for heating water tanks for domestic purposes. Also adapted for heating garages, poultryhouses, baptistries, etc. May be used for small hot water heating plants where the radiation installed is from 100 to 150 square feet. Simple construction and easy to fire.

The tank capacity given in the table below means the amount of water the two sizes will heat per hour, from 40 degrees to 200 degrees Fahrenheit. Burns any fuel.

Article Number	281 C 7878	281 C 7879
Diameter of grate	12 inches	14 inches
Height	38 inches	42 inches
Tappings	1 1/2 inches	2 inches
Diameter of Smokepipe	5 inches	5 inches
Tank Capacity	250 gallons	350 gallons
Shipping weight	300 pounds	400 pounds
Price	\$32.00	\$46.00

Expansion Tank

For hot water heating systems. Strongly made and heavily galvanized. With brass gauge glass and guard rods. Connecting pipe and fittings not included. Capacity in gallons listed with sizes below. State size.

Cap. Gallons	Size In.	Radiation	Ship. Wt.	Price Each
8	10x20	300 to 400 sq. ft.	36 lbs.	\$6.25
10	12x20	400 to 500 sq. ft.	40 lbs.	6.65
15	12x30	500 to 600 sq. ft.	48 lbs.	9.35

26	16x30	700 to 900 sq. ft.	74 lbs.	11.90
32	16x36	1000 to 1300 sq. ft.	88 lbs.	11.50

Heat Intensifier

Keeps constant pressure of about 10 pounds on the water in the system so that it may be heated to as high as 235 degrees without boiling. Easily attached to any hot water heating system. Will increase the heating capacity of any system where insufficient radiation has been installed. Shipping weight, 5 pounds.

Size	1/2 in.	1 in.	1 1/2 in.	2 in.

81 C 7905	78c	98c	\$1.35	\$1.90

Quick Opening Radiator Valve

A half turn opens or closes the valve. When valve is closed, just sufficient water is allowed to circulate through the radiator to keep it from freezing. Valve is well made of solid brass, finely nickel plated. Wood wheel handle with nipple and union for connection, as shown in illustration. State size wanted.

Size	3/4 in.	1 in.	1 1/2 in.	2 in.
Ship. wt. pounds	1/2	1 1/2	2 1/2	3 1/4
81 C 7900	78c	98c	\$1.35	\$1.90

Union Elbow

Solid brass, nickel plated. Accurately ground ball joint union and brass nipple. Used for making return connection from hot water radiators. Shipping weights, 3/4 to 2 pounds.

Size	3/4 in.	1 in.	1 1/2 in.	2 in.
Ship. wt. pounds	1/2	1 1/2	2 1/2	3 1/4
81 C 7904	54c	67c	85c	\$1.10

Straightway Gate Valve

With union. Solid brass, highly nickel plated. Rising stem and wood handle. Has ball joint union and nipple, for making connection to radiator. Used where connection from the riser is made above the floor. Valve is made with double gate, each disc ground to fit valve seat. Shipping weights, 1 1/4 to 5 1/2 pounds.

Size	3/4 in.	1 in.	1 1/2 in.	2 in.
Ship. wt. pounds	1/2	1 1/2	2 1/2	3 1/4
81 C 7902	\$2.10	\$2.55	\$3.25	\$4.40

Hot Water Radiators

All radiators are tapped for 2-inch pipe, and bushed to take pipe as follows: Hot water; under 50 square feet, 3/4 inch; 50 to 100 square feet, 1 inch; over 100 square feet, 1 1/4 inches. Steam; under 24 square feet, 1 inch; 25 to 60 square feet, 1 1/4 inches; 61 to 112 square feet, 1 1/2 inches; over 112 square feet, 2 inches. Other tappings may be ordered.

Three column 38-inch radiators are most common. For very narrow space use 2-column. For short space where more radiation is needed use 4-column. Prices on 1-column radiators given on request. In figuring length allow 1/2 inch at each end for bushings. The center radiator in picture at left is 3-column, 7 sections.

Prices and Sizes for Hot Water, Steam and Vapor Radiators.

To Find Length multiply the length of one section by the number of sections and add 1 inch to allow for bushings on ends.

To Find Heating Surface multiply the number of square feet for one section by the number of sections.

To Find Price multiply the price per square foot by the total number of square feet in entire radiator.

First, find out how many square feet of radiation you need. We recommend that you send us a plan of the room or rooms you wish to heat, showing doors, windows outside walls, type of construction (frame, brick, stucco, etc.) and let us figure out what you need.

Second, determine style of radiator wanted, by height and width of available space for placing radiator.

Third, find number of sections of that style needed to give the surface required, from which you can determine the price.

Note: Let us figure the radiation you need or the entire heating plant. We guarantee satisfactory results from our heating jobs.

Two Column Radiators				Three Column Radiators				Four Column Radiators			
Each section 2 1/2 inches long Radiator 7 1/4 inches wide				Each section 2 1/2 inches long Radiator 9 1/2 inches wide				Each section 3 inches long Radiator 12 inches wide

Altitude Gauge

For Hot Water Heating Plants

Indicates when sufficient water has been supplied to hot water heating systems. Japanned (black) steel case. Stationary and traveling pointer. Shipping weight, 3 3/4 pounds.

Size, inches	3 1/2	4 1/2	5
81 C 7918	\$2.35	\$2.65	\$3.15

Steam and Water Gauges

Japanned case. For stationary engines. Registers up to 200 pounds. With brass cock. Pipe size, 1/4 inch. Shipping weights, 2 to 4 pounds.

Size, inches	3 1/2	4 1/2	5
81 C 5550	\$2.35	\$2.65	\$3.15

81 C 5554—For water supply systems. Registers up to 100 pounds. Shipping weights, 2 1/2 to 4 1/4 pounds. Size 3 1/2 in. 4 1/2 in. 5 in. Price \$2.25, \$2.55 \$3.10

81 C 7917—For low pressure steam heating boilers. With brass cock. Registers up to 30 pounds. Shipping weight, 3 3/4 pounds. \$2.35

Farm Engine Gauge

Special Gauge with auxiliary spring for traction and farm engines. Size, 4 1/2 inches with brass cock 3/4-inch pipe size. Japanned case. Registers 300 pounds. Always use a syphon with steam gauges. Shipping weight, 4 pounds.

Size	3/4 in.	1 in.	1 1/2 in.	2 in.
81 C 5552	4.95	5.95	6.95	7.95

Steam Gauge Syphon

Made of iron tubing to secure water in spring of gauge. Should be used with all steam gauges. Pipe size, 1/4 inch. Shipping weight, 8 ounces.

Size	3/4 in.	1 in.	1 1/2 in.	2 in.
81 C 5556	15c	18c	21c	24c

Gauge Cock

Brass gauge cock. Suitable for steam, water or oil. For 1/4-inch iron pipe connection. Shipping weight, 3 ounces.

Size	3/4 in.	1 in.	1 1/2 in.	2 in.
81 C 5557	25c	30c	35c	40c

Hot Water Thermometer

Indicates temperature of water in hot water heating systems. Usually mounted on boiler. Also may be attached to one of the riser pipes at any convenient point in the system. Registers up to about 260 degrees Fahrenheit. Accurately tested and adjusted. Shipping weight, 1 1/2 pounds.

A Pipe Furnace System assures a positive circulation of warm air to all rooms, and such systems should be used where a house is of large proportions, having large rooms with high ceilings and small doors; in fact, in any house where it is not possible to create internal circulation.

For most economical operation, and to lengthen the life of the furnace, we recommend selecting a size in the capacities listed when using hard coal as fuel, the next larger size where soft coal is used, two sizes larger when wood is burned.

Of Simple, Sturdy Construction

Heavy Cast Iron Radiator. The radiator is of large proportions and is designed so that heat reaches every part of it. Every opportunity is taken advantage of to increase the amount of heating surface both in the radiator, firepot and dome sections which come in contact with the circulating air. By reason of our radiator construction, the smoke and gases must make a complete circuit before passing into the chimney. A great deal of heat is absorbed by the air circulating through the radiator and up into the living rooms that otherwise would pass up the chimney, as in the ordinary type of radiator.

Leak Proof Joints. The radiator, dome and firepot sections are joined together by means of deep, heavy tongue and groove joints, which are filled with our special asbestos furnace cement when the furnace is erected, making gas leaks an impossibility.

Heavy Firepot and Dome. The firepots are made in both single and double sections and are corrugated on the outside to increase the heating surface. The domes also are cor-

rugated, and will not sag or warp when subjected to intense heat. The finest grade of heat-resisting iron is used in the firepot and dome castings. The wide throat or opening between the dome and the radiator, together with equal distribution of draft, makes impossible the explosion of unconsumed gases.

Improved Triangular Grates. These grates will burn any kind of fuel—coal, coke or wood. They are of an improved design which grind up any clinkers that may be formed. The extra surface obtained by the triangular construction tends to keep the grates cool, thereby lengthening their life.

Casings. A heavy insulated galvanized iron casing is used. A lining of bright tin reflects the heat, increasing the heating capacity considerably. Between these two is a layer of heavy asbestos.

Water Pan. A large water pan in the casing provides moisture; by keeping it filled you will maintain a healthful quantity of moisture in the air.

Price includes casing, regulating dial, damper chain, shaker handle, check damper and water pan. Smokepipe not included.

Note: The top bonnet of furnace is furnished without any holes for pipes; these are to be cut as required, while being installed.

181 C 8014—Hot Water Heating Coil to fit. Shipping weight, 10 pounds. Each **\$1.75**

Weights and dimensions of furnaces are approximate and may vary slightly.

Fittings for Warm-Air Furnaces

Heat Regulator With Clock Attachment

Keeps the temperature at any desired degree, day and night, regardless of weather. As temperature tends to rise or fall the motor will shut off or open the draft and damper. Motor is controlled by thermostat, mounted on a brass case, from living room wall. Clock attachment assures you of warm rooms in the morning, as it may be timed to open up the drafts at any predetermined hour. You may set it for any low temperature when retiring and then set the clock to throw it over to 70 degrees an hour or so before rising. Outfit consists of clockwork motor and crank, hall bearing pulley, damper chains, wire and electric dry batteries. Everything necessary to make a complete installation is included. Used for all furnaces and boilers. Shipping weight, 30 pounds.

181 C 7899—With clock attachment..... **\$28.75**
181 C 7898—Without clock attachment..... **24.25**

Baseboard Sidewall Register

Made of pressed steel. Equipped with shutters controlled by foot pedal. Deflector causes heat to emerge from register at an angle. Face may be removed for cleaning out register. State size.

Lowest Prices We Have Ever Quoted On These High Grade Heating Systems

Once More Ward's Leads

A GAIN Ward's comes forward with a furnace offering which is one of the outstanding features of this catalogue—the lowest prices ever quoted on Ward's Pipe Furnace. Think what this means! Not only lower than last year's prices or those of two and five years ago, but lower than ever before. Quality has in no way been sacrificed to reach this new price level. In fact not only have we embodied the best features of last year's Windsor but we also have added many new improvements.

These prices are made possible only by our huge volume of business. Ward's enormous buying power and direct sales plan which excludes wholesalers, jobbers and retailers are the chief reasons for this large volume of business. Ward's policy in both buying and selling is a decided advantage to our millions of customers. It permits us to give values which otherwise would not be possible.

Much comfort is in store for you when you install a Windsor Pipe Furnace; comfort which you never have known before if your home has been heated by stoves. In volume and quality furnace heat excels, while in cleanliness and healthfulness there is no comparison as to which is the better method. Read below what some of Ward's customers have to say about Windsor Furnaces.

Accessories for Warm-Air Installation

Our stock of pipe, fittings and accessories for warm air installation is complete. The items shown on the opposite page represent but a small part of our entire line. Many items which we stock are not shown in this catalogue, so if there is anything you need in making your installation, which cannot be found here, write us and we shall be glad to fill your requirements.

Read These Letters From Our Customers

"I must let you know that I have the Windsor Warm Air Heating Plant in working order and it is just fine. Myself and the whole family are very much satisfied with it. We have never been so comfortable before and are not using as much fuel as before. I should have written to you long before this, but have been so busy and sort of neglected it. I installed the entire plant myself and everything works most satisfactorily and I thank Montgomery Ward & Co., gratefully. I will recommend you to my friends."

Ed Huck,
1405 Central Ave.,
Wilmette, Illinois.

Printed with Mr. Huck's permission.

"We have had our furnace set up 4 or 5 months now and it has given complete satisfaction, so much so that we recommended it to P. V. Miller of this town and he bought one from you also. We have not burnt as much coal as some of our neighbors have running 2 stoves, a range and a heater and only keeping 2 or 3 rooms warm and we dried the plaster in our house and heated 5 to 9 rooms. If it gives as good satisfaction in its lasting qualities as it has with everything else, I will be more than satisfied and I cannot see why it should not do so."

P. M. Hall,
Arnolds Park, Ia.

Printed with Mr. Hall's permission.

"I put in my Warm Air Furnace last fall and it is O. K. I can heat my house all over on the coldest day as warm as I want it and am sure I saved from \$50 to \$75 by having it sent from you. I installed it myself and it was easily done."

Arthur Hagedorn,
Bay Village, Ohio.

Printed with Mr. Hagedorn's permission.

Ward's Perfection Super-Heater

Exceptional values at these low prices. The most modern methods in pipeless furnace construction are employed in making the Super-Heater. Has an exceptional heating capacity for the same fuel consumption as the usual furnace. Gives the best possible results. No furnace can heat better than the Perfection Super-Heater.

Constructed to Give the Greatest Heat from Your Fuel

The very best materials and the finest workmanship. Our aim is to make this the finest furnace of its kind. Operates like an ordinary furnace but the castings are so made that the maximum heat is given to the air going into the rooms and only enough heat passes into the chimney to give the necessary draft. The heating surface of the cast iron parts is half again as large as in the average furnace. The fire pot has straight sides admitting more air to the fire and insuring even combustion, and greater heat. The air passages are large to permit a free circulation of air which makes it impossible for the castings to overheat, preventing damage to the furnace and parching of the air going into the house.

Air Circulation and Super-Heating

The continual circulation of air through your rooms is through a combination floor register which discharges warm air through its center sections and draws the cold air from the floor into the heating space of the furnace. The design of the radiators in this furnace gives it double the amount of heating surface used in the average furnace. After the heat is created in the firepot, it rises to the top of the first radiator (Fig. 3) and is deflected down along the sides. It again rises up through the four arms (Fig. 3) and passes into second heat trap (Fig. 2). Here it travels horizontally along this chamber. After traveling the entire circle it passes up into Radiator No. 3 (Fig. 1) from which it passes to the chimney. Rapidly circulating air surrounds these heat traps and absorbs every possible heat unit before the hot gases escape to the chimney.

Grates—Extra heavy. Made in three sections, each one movable and reaching to the side of the firepot. There are no pockets for ashes to collect.

Ashpot—The ashpot is large and dustproof, provided with an exceptionally large door so it is possible to remove the ashes quickly. There is also a dust flue between the ashpot and firepot for the purpose of keeping all dust out of the basement when you are shaking the furnace.

Firepot—Extra heavy, one size all the way down and heavily corrugated, presenting the greatest possible amount of heating surface. All cup joints are large and well proportioned to insure a tight furnace even under the most severe firing conditions.

Firing Tools—With each furnace we include a bent-end poker, coal shovel and flexible handle clean-out brush.

Fuel—Super-Heater furnaces will burn hard coal, soft coal, coke or wood with equally good results. With each furnace we furnish a complete set of instructions; therefore you will experience absolutely no trouble in completing a first class installation.

Cottage Windsor Pipeless Furnace \$52.00 Was \$63.65

Suitable for a Small Home
Not as efficient as the high quality pipeless furnaces shown on the next page being tighter weight and lower in price. Moderate fuel consumption.

Easy to Install
You simply place the furnace in the basement, connect the smokepipe to the chimney and cut a hole in the floor for the one register. Cold air may be taken from the basement or you may build a duct to take it from the outside or one of the rooms. The collar on top permits adjustment to a basement 6 to 8 feet high.

Durable Construction

Has a heavy cast iron firepot, steel radiator, roomy combustion chamber, triangular revolving grates and a galvanized steel casing. Large feed door for wood or coal. Cast iron water pan. Price includes floor register, damper, chain, pulleys, shaker and cement to make joints gas tight. Smokepipe not included.

20" Size Was 99.90—Now 79.00
22" Size Was 119.75—Now 97.00
24" Size Was 134.00—Now 113.00

Above are quoted the lowest cash prices at which we were able to sell Windsor Pipeless Furnaces during 1921. Compare them with today's new low prices.

PRICE is not always the main thing to consider when buying a furnace. Low fuel consumption, reliability and durability, all are matters of great importance. But, when a furnace with the reputation of The Windsor, possessing all three of these qualities, is offered to you at a price lower by many dollars, even than last season's bottom bargain figures, then price is a matter of first consideration.

Read carefully the specifications below—make every comparison and note the many exclusive Windsor features. Then too, see how easy it is to pay for this furnace. Our Time Payment Blank on the opposite page will give you all of these details.

Read These Specifications Carefully

The Radiator is of heavy cast iron which is more serviceable than steel because it will not warp or leak. Windsor radiators are properly proportioned, wide, deep and absolutely gas tight.

The Combustion Chamber is made of heavily corrugated cast iron; generous in size so that gases will be consumed properly before entering the radiator. Note in the picture the wide, deep, gas-tight cup joints.

The Firepot is of heavy cast iron with deep corrugations which increase the heating surface, thereby saving coal. A deep, gas-tight cup joint connects the two sections of the firepot.

The Revolving Triangular Grates are hung in pairs with two sides exposed to the air and the third side to the fire. This adds greatly to the life of the grates which will burn all fuels and hold a bright, clean fire.

The Doors are Large. An important feature. Easy to fire and easy to clean. They are carefully ground to fit closely, permitting no air to enter the furnace, except through the draft door. This assures absolute control over the fire.

The Ashpit is wide and deep, with a large door which makes the removal of ashes an easy task. The ashpit draft door is made large to allow the entrance of plenty of air for proper combustion. Plenty of cool air prolongs the life of the grates.

Casings. Inner and outer casings are of galvanized iron. The inner casing is lined with asbestos in addition to a lining of deeply corrugated tin, which reflects the heat and sends the warm air into the house instead of radiating it into the basement.

The Hood is adjustable for any basement up to 8 feet. The inner hood is lined with asbestos, keeping all heat within inner casing.

In all, this Windsor Pipeless is a better, heavier, more massive furnace than we ever have built before, and the prices are lower than they have been for many seasons past.

Things to Remember When Ordering

We recommend the sizes and capacities listed when burning hard coal increasing to the next larger size for soft coal and two sizes larger for wood. Always use a wood burning grate plate when wood is burned. Make allowances for exposure to high winds, poorly fitted doors, windows, etc. Heating capacities shown are based on an ordinary slow burning fire and an outdoor temperature of zero. Make extra allowance if the temperature falls below zero. A furnace a size larger than is actually required is more economical in fuel and will last longer than one just large enough, which is fired hard in extremely cold weather. Be sure to order your furnace large enough.

The above picture is a sectional view of The Windsor Pipeless to show you the many individual features embodied in this new improved furnace. Note how the gas-tight cup joints are fitted; see the construction of the firepot;

the heavy corrugations and the thick asbestos lining. Pay particular attention to the size and depth of the ashpit and generous dimensions of the cast iron radiator.

Wood burning grates, smokepipe and elbows shipped from Factory with furnaces

Our low cash or Easy Payment prices make it possible for every home to enjoy the comforts and convenience of this modern and economical method of heating. Don't delay, send your order now—remember Montgomery Ward & Company's guarantee protects you.

Easy Payment Order Blank on Opposite Page

Better Pipeless Furnaces

The Windsor Pipeless

Is the Kind of Furnace You Want

YOU want a furnace which will heat your house in any kind of weather, from the coldest winter days, to the milder spring and fall mornings and evenings—a furnace which may be regulated to give not only the proper amount of heat but the proper kind of heat.

You want a furnace which will outlast the building in which you install it and one which will give you reliable service as well as long service. You want a furnace which will do all of these things at the lowest possible cost of upkeep.

Because we purchase thousands of these furnaces and sell them direct to our customers, with only our one small profit added, we are able to offer the highest quality and most economical heating system at an attractively low price.

If you have waited for prices to reach a lower level, you will need wait no longer. Two years ago the lowest cash price at which we could sell a 20-inch pipeless furnace was \$129.75; last year it was \$99.90; now it is only \$79.00. Market indications now are that the next change in price will be up and not down. Remember, too, that this low price is for a better and heavier furnace than we were able to offer before.

The Pipeless Furnace is the Easiest Heating System to Install

Complete and simple directions are furnished with this system. With the assistance of a helper, you can easily install a pipeless furnace in less than a day and do the job as well as a furnace man could do it. This will add further to the saving you make through our low prices.

A Clean House. Keeps ashes and dirt out of the living rooms. Heats all your rooms evenly, from one central heating plant and burns only a little more fuel than a stove. Does not have to be taken down in summer and does not take up space in your living room in winter. Requires the least attention of any heating system on the market. If you have no cellar, a pit large enough to hold the furnace and fuel is all you need.

We Have Sold Thousands of Furnaces Under Our Strong Guarantee of Satisfaction or Your Money Back and Have Received Many Enthusiastic Testimonials like the following—

Saved \$50.00

"We now have furnace in and it is very satisfactory. I saved \$50.00 on the outfit. I am well pleased with my plant."

Winfred Sutton,
15 West Market St.,
Iowa City, Iowa.

Printed with Mr. Sutton's permission.

Saved \$75.00 to \$100.00

"I saved from \$75.00 to \$100.00 on the furnace I bought of you, figuring on the price I would have had to pay if I had purchased it here and I have a better furnace."

E. F. Larimer,
Glendive, Mont.

Printed with Mr. Larimer's permission.

Would Not Have It Taken Out For Double the Cost

"In regard to the Windsor Furnace that I purchased of you last fall, I must say it is a dandy and would not have it taken out for twice what it cost me."

W. S. Powell,
Washta, Iowa, R. R. No. 1

Printed with Mr. Powell's permission.

Saved One-half

"Am well pleased with the working of the furnace. I believe that I saved about one-half by purchasing my outfit of your house."

L. K. Ainsworth,
Sherbourne, N. Y., Box No. 194

Printed with Mr. Ainsworth's permission.

No Trouble to Keep Warm

"In regard to the furnace which you furnished me, I installed the plant myself. It is what I call a good furnace, and it gives perfect satisfaction. We had a very cold winter last year and it was no trouble to keep the house warm. This furnace has certainly done all you claim for it."

J. Rohr,
Lyons, N. Y.

Printed with Mr. Rohr's permission.

Burns Hard or Soft Coal Equally Well

"I saved about \$60.00 by ordering my furnace from you and it has proven very satisfactory. We heat five rooms easily at a total fuel cost of \$23.50. My furnace burns soft coal just as well as hard coal, the only difference is that when you burn hard coal you keep the damper in the smoke-pipe closed and for soft coal you open it. The furnace has done everything you claim for it."

O. J. Cook,
Clyde, Ohio

Printed with Mr. Cook's permission.

Saves 25 Per Cent on His Coal Bills

"I installed your furnace without any trouble; it is giving perfect satisfaction. We find, since the furnace has been installed, that we are using only about $\frac{3}{4}$ the coal we did before, to say nothing of the \$40.00 saved on the installation."

Ray Leevee,
Defiance, Ohio, R. F. D. No. 8

Printed with Mr. Leevee's permission.

The picture below shows how effectively the warm air circulates in a home which is heated by a Windsor Pipeless Furnace.

Calcium Carbonate.....	7.5
Barium Sulphate.....	6.8
Silica and Silicates.....	3.4
Linseed Oil.....	30.0
Japan Drier.....	5.8
Moisture (None).....	0.0
	100.0

Note.—The above formula is by weight only. By volume, over 80 per cent of the liquid is Pure Linseed Oil.

Ward's Coverall House Paint

TRADE MARK

Ward's Standard, Guaranteed House Paint—the kind our customers have been using for years. Thoroughly reliable and the best paint we know of for the money. The only reason we can sell it so low is that we make it ourselves, and sell direct to you without any middlemen's profits. Our "Money Back Guarantee" with every gallon purchased.

Paint to protect your property. Keep in good condition and postpone repairs. Don't put off painting until next spring. Paint NOW and protect your home from weather wear this winter. Fall is an ideal time for painting. Many experts consider it an even more favorable time than spring. Paint NOW—and use Coverall.

Edwin E. Cluff,
Manager, Paint Department

Coverall House Paint is made from thoroughly reliable and dependable materials. (See formula listed at the left.)

It spreads well, covers thoroughly, looks good, is hard drying and long wearing. It also has a large covering capacity—1 gallon covers 250-300 square feet, 2 coats. When you consider this point, it makes Coverall less expensive than ever. Because it goes farther—you need less paint to complete the job.

Protects—Preserves—Increases Value

Coverall's tough, durable film shields from the hot sun, sheds the soaking rain, keeps the surface sound, watertight—and safe from rot and decay. Its fine, attractive finish so improves the appearance of your house that it increases its value. Your house is worth more painted with Coverall.

No Experience Needed to Paint with Coverall

When you use Ward's Coverall you can do your own painting—and you can do it well. Ward's Coverall is so carefully mixed and thoroughly ground in our factory that it is all ready to use.

Coverall House Paint is ready mixed and ready to apply. Full directions on each can. Ordinarily, two coats are sufficient; but where the surface is in very bad condition we recommend three. On new work or where the old paint is practically gone, it is necessary to thin the first coat down with 1 pint of Turpentine and 1 pint to 1 quart of Raw Linseed Oil to each gallon of paint. Write us for lowest prices on best quality Turpentine and Pure Linseed Oil.

Choice of White, Black and 30 Colors. Make your selection from the list below, or refer to our last spring Catalogue No. 96, where the color cards are shown, or write for color cards. It is not necessary, however, to see the colors before ordering, as the names below clearly indicate the color.

Be Sure to State Color Wanted.

Ward's Coverall Barn Paint

TRADE MARK

\$1.12
A
Gallon
In 50-Gallon
Barrels

A genuine mineral Barn Paint with an extra tough, durable film. Just the paint for keeping your barns, cribs and other buildings in prime condition and protecting the money you have invested in them.

Manufactured in our own factory from weather and wear resisting mineral pigments and oxides, ground by heavy machinery and thoroughly mixed with the necessary linseed oil, driers and other essentials.

Average Covering Capacity

250 square feet per gallon, two coats. Remember this in figuring the cost of your paint. Coverall's large covering capacity saves you money because the paint goes farther. You need fewer gallons to complete the job.

Choice of four colors. See your last catalogue or write for color cards.
No. 159—Gray. No. 157—Red.
No. 150—Yellow. No. 155—Maroon (Dark Red).
Be sure to state color wanted.

Good Oil at Low Prices

See Page 565 for our low prices on Rump High Grade Lubricating Oil for autos, tractors and gas engines.

Wardway House Paint

TRADE MARK

Recommended for the Finest Homes

THE longer you postpone painting your house, the more money you lose. Because of the delay you will require more paint, and while you wait your house deteriorates more and more from exposure to the weather. Now is the time to paint. Do it this fall and your home will be protected from weather, wear and decay during the long, cold winter months.

Remember, we manufacture all of our paints according to our own specifications. Therefore every gallon is absolutely uniform. When you paint your home with Wardway's you will be thoroughly protected by Ward's 50 year old guarantee of satisfaction.

Paint from a Special Formula
Our paint is made from a special formula which is the result of our long experience and skill in manufacturing good paint. The white lead, zinc, linseed and other materials in Wardway House Paint are carefully selected. We use sublimed White Lead, for example, and every item in the time tested formula is chosen for a purpose.

Extra Large Covering Capacity
One Gallon Will Cover 250 to 350 Square Feet, Two Coats

This is an extra large amount of surface for a good coat to cover, yet Wardway Paint covers it thoroughly; not one coat, but two.

Remember this in figuring the cost of your paint. Buy according to the amount of surface it covers instead of the price per gallon, alone, as you use paint which spreads better and goes further, you do not need as many gallons.

Wardway House Paint is ready mixed and ready to use. Full directions on can. Ordinarily, two coats are sufficient; but where the surface is in very bad condition recommend three. On new work or where the old is practically gone, it is necessary to thin the first coat with 1 pint of Turpentine and 1 pint of 1 quart of Linseed Oil to each gallon of paint. Write us for prices on best quality Turpentine and Pure Linseed Oil.

Choice of White, Black and 30 Colors

Make your selection from the list below or refer to our last spring Catalogue No. 96, where the paint colors are shown, or write for color card. It is not, however, necessary to see the colors before ordering, as the names below clearly indicate the color.

Be sure to state color wanted.

Read What Our Customers Say About Our Paints

Cheaper and Better Quality
I think your paint is an extra good paint for the price. It would have cost at least \$1 per gallon here.
Sidney Armstrong, Magazine, Ark.

Likes Our Paint Best

For the past year I have purchased paint and finished from you. I have used other makes but not like them as well as yours.
Rev. G. H. Carpenter, Mt. Holly, N. J.

Saved Buying from Us

The paint I bought from you this spring is the best paint I ever used. I figured I saved a gallon buying direct from you.
F. C. Richter, LaPorte, Ind.

Printed with permission of customers

How to Measure Your House For Painting

Coverall and Wardway House Paints are noted for the large amount of surface one gallon will cover.

To figure how many gallons you need for painting your house, first figure the number of square feet of surface to be painted. Add the length of the four sides together and multiply by the height. For example, take a house 30 by 40 feet, 20 feet high, as shown at right.

Front.....30 feet
One side.....40 feet
Other side.....40 feet
Rear.....30 feet
Multiply by height.....by 20
Gives surface to be covered.....2800 square feet
Divide the total number of square feet to be covered by 300, which is the average number of square feet one gallon will cover. The result will show the number of gallons needed. Allow a little extra—especially if on new lumber. Allow about one-quarter extra for trimming.

To Measure Your Roof for Painting

Multiply width of the house by the length and add one-half, which will give you approximately the number of square feet in the roof. Divide by the number of square feet 1 gallon will cover as given in the description of the kind of paint you are ordering.

These Are Only a Few of Many Letters Received

Looks as Good as It Did Last Spring

"I am very well pleased with the paint I got for my store. Put it on and has been on a year and looks just as good as it did last spring when it was first put on."
Mrs. Emma Kuehl, Breed, Wis.

Paint Wears Long as Any I Ever Used

"Your paint wears as long as any paint I have used."
G. H. Fornwalt, Kingman, Kan.

No Painter Required

"It does not require a professional painter to do a good job with your paint."
Alf Ericson, Stanhope, Iowa.
Printed with permission of customers

Wardway Creosote Shingle Stain

For either shingle roofs or sidings. A beautifully colored stain and wood preservative in one. Colors the shingles and at the same time protects them from weather wear and decay. Manufactured in our own paint factory and contains refined creosote oil, one of the best wood preservatives known. Penetrates the wood, makes shingles last longer. Wardway Stain gives that pleasing "mottled" appearance.

Easy to use. Brush it on with an ordinary paint brush, or if the house is new, dip the shingles two-thirds their length in a tank or trough filled with the stain. Brushed on, 1 gallon covers 100 square feet, two coats; 2 1/2 gallons will treat 1,000 shingles, dipped two-thirds their length.

Choice of four popular colors. (See list below.)

Barrels Shipped from Chicago Paint Plant

Wardway Waterproof Stucco Paint

A high grade, durable paint for stucco, brick or cement buildings. Not a cheap, temporary "white-wash" affair, but a thoroughly reliable weather-resisting coating for permanent work. Made expressly for this class of work and guaranteed.

Wardway Stucco Paint is extra durable. It not only retards decay by protecting the stucco from weather wear, but also "seals" the surface, preventing the water from spotting the walls. Renews old stucco and preserves new. Is a protection against dampness, seepage and decay. Also recommended for concrete fence posts, brick walls, basement walls (inside and outside), concrete and cement floors. One gallon covers about 100 square feet depending on the condition of the surface.

Choice of white and four colors. (See list below.)

Porch and Deck Paint

An exceptionally hard drying paint used on porch floors and steps. Protects the wood and delays the signs of wear, resists hardest wear and constant outdoor exposure; sheds the rain and safeguards against rot and decay. Its weather and wear-resisting qualities make it commendable for use on decks and sides of boats. The cost is very low.

One gallon covers about 150-200 square feet

Stainless Floor Oil

A special preparation for treating new or old floors to keep down the dust and prevent wear. Is not a stain, but brings out the natural color of the wood to good advantage. Much used in halls and kitchens, and especially recommended for floors in schools, churches and public halls. One gallon treats 600 square feet. Apply with a cloth or mop.

Inside Floor Paint

We make this Paint especially for use on inside floors. It is extremely tough and durable, resists heelmarks and scratches, may be washed and scrubbed without injuring the finish. Not only brightens and renews floors but protects them from wear. Because of its exceptional wearing qualities, it is recommended especially for kitchen and pantry floors; but it may be used on any floor in the house.

Ward's Co-Var Finish

Colors and Varnishes at one Stroke of the Brush

CO-VAR FINISH is a varnish and stain combined. It colors and varnishes in one operation. Makes any wood any color desired.

Use it on floors, furniture or woodwork. It gives the color of the more expensive woods, like mahogany, walnut or rosewood, at small cost. If your floors or woodwork look dull and seared, use Co-Var Finish to change the color and make them look bright and new again. If you have an old chair which is good in every way except looks, use Co-Var Finish to restore its beauty and put it back into service.

Anyone can use Co-Var Finish. No experience needed—simply apply it with a varnish brush like ordinary varnish. It is not necessary to remove the old finish—just see that the surface is dry, clean and smooth.

Floors finished with Co-Var will wear longer if given a coat of Marproof Floor Varnish.

Choice of seven colors, Ebony and Natural. State color wanted.

No. 183—Cherry. No. 185—Light Oak. No. 191—Bog Oak.
No. 186—Rosewood. No. 187—Antique Oak. No. 190—Ebony (Black).
No. 184—Mahogany. No. 188—Mahogany. No. 189—Natural (Clear).

Important Notice.—Before putting a lighter color over a surface now finished in a dark color, it is necessary to put on a coat of "Ground Color" before applying the desired shade of Co-Var Finish. We supply ground color in the same sizes and at the same prices as for the regular colors listed above. In ordering ground color, specify Co-Var Ground Color No. 192.

Ward's Varnishes

Marproof Special Floor Varnish

Water will not injure floors varnished with Marproof. Its brilliant finish resists heel marks, scratches, scars, etc. Hot or cold water will not injure the finish. Old floors will look like new when varnished with Marproof. Spreads easily and dries with a hard, wear-resisting finish. With its wonderful wearing qualities, Marproof is sold at a remarkably low figure when compared with other varnishes which require frequent coatings in order to retain their bright look. Perfect satisfaction guaranteed or money refunded.

Miro-Lite Special Interior Varnish

Miro-Lite gives a mirror-like brilliancy to woodwork, doors, wood panelings, etc. Brings out the full beauty of the wood and at the same time preserves the surface and makes it last longer. A pale, easy flowing varnish that can be applied to all kinds of woodwork. Miro-Lite may be washed with hot or cold water and will not crack, turn white or blister. It is exceedingly durable—will wear for years and retain its fine brilliant finish for an unusually long time. May be rubbed and polished in forty-eight hours. Dries in six to eight hours.

Wardspar Durable Spar Varnish

Tough and weather-resisting, it may be used on all outdoor jobs such as porch ceilings, vestibules, front doors, etc. A dandy all-year varnish resisting ice cold or boiling hot liquid. Dries with a bright glossy finish which it retains for an unusually long time. Also suitable for use on boat decks, aeroplanes, floors, table tops and all surfaces which are subject to more than the usual amount of wear. May be rubbed or polished.

Dries hard and ready for use in six to eight hours.

Wardway Linoleum Varnish

This varnish is excellent for preserving linoleum and oil cloth. Applied to new linoleum, it will delay that first appearing wear generally seen in front of the door, stove or sink, and which is an eyesore to all housewives. This varnish is a protection for new linoleum, is excellent for renewing old floor coverings, having a hard finish.

Ward's Penetrating Stain

For New Work Only
Choice of 10 Popular Colors

Only one coat of this Penetrating Stain is required to give that popular soft stained finish to any new woodwork. It is ideal for staining newly made tables, book racks, benches, new floors, woodwork and furniture. This stain does not raise the grain, merely penetrates the wood and brings out the color. Gives that beautiful "dull" finish which may be either waxed or varnished (See below for Wax.) Directions in full on the can.

Choice of Light Oak, Golden Oak, Dark Oak, Bog Oak, Mission Oak, Fumed Oak, Early English Oak, Weathered Oak, Walnut, or Mahogany.

Be sure to state color wanted.

Shipping weights:
Per gallon. 11 pounds
Per quart. 4 pounds
Per pint. 2 1/2 pounds

For a complete line of Varnish Brushes, see Page 630.

Wardway Flat Wall Finish

Beautiful Velvety Finish—Easy to Keep Clean

For producing that ever popular "flat" finished wall, use our Wardway Flat Wall Finish. The smooth, velvety, no-gloss which this paint produces is unsurpassed. The "plain" one-toned, no-gloss walls not only give that refined and dignified setting so restful to the eye, but also make a more prominent display of the beauty of the furniture and furnishings.

An important feature of this wall finish is the fact that it may be cleaned easily and quickly. For this purpose we recommended the use of our Wall Paper Cleaner (listed below on this page). For plastered walls not already sized or painted, first use our Fresco Wall Size (also listed on this page).

One gallon covers 200-250 square feet of surface, two coats. Choice of twelve colors, also White. Refer to your No. 96 Spring Catalogue for paint colors or write us for color cards.

Be sure to state color wanted.

Wardway Household Paint

Washable Finish for Walls or Wood

For inside use only—A paint for every purpose. Use it anywhere inside the house, for walls, woodwork, floors and furniture.

Wardway Household Paint is an oil paint with a pleasing medium gloss finish. Soap and water will not injure the finish, and for this reason we particularly recommend its use on kitchen, pantry and bathroom walls and woodwork.

It does the work formerly requiring several different kinds of paint, and always is satisfactory.

One gallon covers about 250 square feet, two coats. Plastered walls never before painted or sized, must first be sized with Fresco Wall Size (see below).

Choice of twelve popular colors, also White. Many beautiful color combinations are possible with these harmonious shades. Refer to your No. 96 Spring Catalogue for paint colors, or write us for color cards.

Be sure to state color wanted.

Wardway Liquid Enamel

Wardway Liquid Enamel is absolutely reliable. For use on all kinds of furniture and woodwork. May be used on plastered walls.

Just the thing for metal ceilings and metal bedsteads. Also recommended for baby carriages, etc.

Dries extremely hard with a high gloss finish. May be washed off with soap and water without injury to the finish. One gallon covers 200-250 square feet, two coats.

Where the surface is to be changed from a dark to a lighter shade, first apply a priming coat of Towerlite White Undercoat. This will hide the dark surface, at the same time supplying a white surface on which to apply your new shade of enamel. Plastered walls never before painted or sized, must first be sized with Fresco Wall Size before applying the enamel.

Choice of eight colors, also White and Black. Refer to your No. 96 Spring Catalogue for paint colors or write us.

Be sure to state color wanted.

Ward's Superior Kalsomine

Kalsomine is one of the most popular wall finishes. It is sanitary and inexpensive. You can do the work yourself, and with a little stencil border make a very neat and attractive decoration.

Ward's Kalsomine is a guaranteed superior grade. It dries with a smooth, velvety finish. Ready for use when mixed with water. Full directions on the package. Four pounds sufficient to cover about 500 square feet. Plastered walls never before painted or kalsomined, must first be sized with Fresco Wall Size (see below).

Choice of twelve colors, also White. Refer to your Spring No. 96 Catalogue for paint colors, or write us for color cards.

Be sure to state color wanted.

200—White.	270—Pearl Gray.	257—Light Buff.	232—Light Tan.
256—Ivory.	262—Pea Green.	201—Buff.	231—Deep Tan.
211—Pale Blue.	230—Sage Green.	210—Pale Canary.	203—Shell Pink.
254—Alice Blue.

Towerlite White Enamel

Hundreds of our customers know the beauty and durability of Towerlite White Enamel. It is highly recommended for use on furniture, either wood or metal, for woodwork, metal ceilings and plastered walls—any place where enamel finish is desired.

We have been selling it for years, and each season sees more people becoming Towerlite friends. We guarantee it to give you satisfaction in every way.

The white of Towerlite is a lasting white and its beautiful finish will not chip or crack. It will retain its beauty for a long time and will stand frequent washings.

Choice of Towerlite White Enamel in two finishes—glossy bright finish or "egg shell" (soft-toned dull). One gallon of either covers about 200-250 square feet, two coats.

For surfaces not already painted white first apply one or more coats of Towerlite White Undercoat (see below).

White Glossy Finish

75 C 8432—½ pint.. .36 |

75 C 8433—1 pint.. .59 |

575 C 8435—½ gallon. 2.15 |

575 C 8436—1 gallon.. 4.20 |

Shipping weight, per gallon, 11 pounds

Towerlite White Undercoat

The ideal first coat for using under any white or light colored enamel, particularly for use with our Towerlite Enamel. This undercoat makes a fine flat finish, just right for the finishing coat of enamel. Helps cover up the old surface and also improves the appearance of the finishing coat.

Towerlite White Undercoat is primarily a first coat preparatory to enameling. It is also used as a flat white finish.

This Book Shows You Samples of Both the Borders and the Side Walls

OUR new Wall Paper Sample Book is made up of actual samples of over 100 up-to-date wall papers.

In addition, it shows you with each side wall pattern, a sample of the border to match. This is our new, patented method of showing the borders—and it makes it much easier for you to select exactly the border you want. You no longer need to guess at the colors and designs from so-called "colored illustrations." Our new book gives you the samples of the borders. You know exactly what they look like before placing your order.

SEND today for this big new **FREE** Sample Book. It contains actual samples of over 100 beautiful and up-to-date wall papers—a wide assortment for every room in the house. **Greatly Reduced Prices.** Now cut to as low as 8¢ per **DOUBLE LENGTH** roll. Others, among the finer patterns such as fabrics, tapestries and embossed papers, up to 50¢ a **DOUBLE LENGTH** roll.

And remember, our **DOUBLE LENGTH** rolls are twice as long as the ordinary "single" roll by which most wall paper is sold. A single roll is only 8 yards long. Each of our **DOUBLE LENGTH** rolls is 16 yards long.

Whatever your preference in wall papers—light colors or darker tones, fancy figures or plain—you are sure to find in this large variety of patterns—over 100 in all—shades and patterns that will please you in the qualities you prefer.

Paper Your Rooms This Fall. Prepare now for the long winter days indoors. Let our new Sample Book show you the correct and latest wall papers—the designs that are up to date artistic and in good taste. It will cost but little to buy enough paper to brighten up the whole house. And you can do your own papering (our Sample Book explains how).

Of Course You Can Hang Your Own Wall Paper

OUR Wall Paper Sample Book explains clearly how to hang wall paper. You can do a first class job yourself. All you need is a brush, a pair of shears and some paste. The paste brush is listed below at a special cut price. You can use a whisk broom for smoothing; a furniture caster for seams; a long table (or some boards stretched between boards); a step ladder and a stout plank.

Special Paste Brush

98¢

Black Chinese bristles with black mixed center; 4 inch bristles, 5½ inches wide. Metal bound. Shipping weight, 8 ounces.

75 C 782 98¢

Prepared Dry Paste

Two pounds with water is enough for average room. For shipping weight, add ¼ pound to each pound actual weight.

75 C 880—2 pounds . . . 22¢

75 C 881—5 pounds . . . 55¢

How to Find Amount of Paper Needed

Use the chart at right. If exact size of your room is not shown, use the figure given for next larger size. Deduct one **DOUBLE LENGTH** roll of side wall for every four openings (doors or windows) in the room.

Side wall and ceiling papers are sold only by the **DOUBLE LENGTH** roll—16 yards long, 18 inches wide. Borders are sold by the yard.

Shipping Weights of Wall Paper

Actual weights of side wall and ceiling papers: Per **DOUBLE LENGTH** roll, 1½ pounds; border, per yard, 1 ounce. Add 1 pound for weight of wrapping in room lots (about 8 double rolls). See Parcel Post and Express Rates on Pages 319 and 321.

PATENTED U. S. A., FEB. 8, 1921—DOM. CAN., JULY 13, 1920

Ward's Roof Coatings

Liquid Roof Cement Special Asphalt Paint

52¢
A Gallon In 50-Gallon Barrels

Trowel Roof Cement

Extra Heavy — Apply with Trowel

5¢ A Pound In 50-Gallon Barrels

Similar to Liquid Roof Cement at the right, but heavier. Sticks to any surface—will not get hard or brittle in the winter or soften in the summer. Jet black in color, non-poisonous. Will not taint or discolor rain water. On average roof, a coating $\frac{1}{8}$ to $\frac{1}{4}$ -inch thick is sufficient. When so spread, 40 pounds covers about 100 square feet. Also used for sealing around chimneys and drain pipes and for waterproofing outside of cement foundations.

Barrels Shipped from Northern Illinois

Tinners' Red Paint

Protects Downspouts and Gutters

For painting metal roofs, gutters, downspouts, etc., to protect them from weather wear. A ready mixed oxide paint used instead of red lead at much smaller cost. Use it either as a first coat before other painting or alone, as a durable protection against rust and decay. Our Tinners' Red is not an experiment, but a tried and proved product which we back with our full guarantee. Use it and we save bills.

Barrels Shipped from Chicago

Elastic Roof Paint

A good paint at a low price. For repairing and patching leaky roofs. Will stand expansion and contraction caused by weather without cracking or peeling. A leak can be stopped by first painting over the leak, then laying on a piece of muslin and coating again with another layer of paint. Glossy black finish. Ready to use. Apply with a brush—a knotted roofing brush is good for this work.

White Lead in Oil

Guaranteed 100% Pure

For ordinary outside painting, use about 4 gallons of pure Raw Linseed Oil, 1 pint pure Spirits of Turpentine and 1 pint of Turpentine Japan Dryer (listed below) to 100 pounds of White Lead in Oil. This makes 7 gallons of paint, which covers about 200 square feet, two coats per gallon. However, we recommend using Coverall or Wardway Ready Mixed House Paint for best wear at lowest cost. (See Page 627.)

Prices Subject to Market Changes

Old Dutch White

Ground in Oil

A combination of pure white lead, white zinc, and other paint making materials which is whiter than lead alone. Used instead of pure white lead.

Add 4 to 5 gallons pure Raw Linseed Oil, 1 quart of Turpentine and 1 pint Turpentine Japan Dryer to each 100 pounds of Old Dutch White. For a flat finish, reverse quantities of oil and turpentine.

Orange Shellac—Used on darker surfaces, such as oak; also for coating knots, etc., before painting.

75 C 8680—Pint can.	55¢
575 C 8681—Quart can.	1.06
575 C 8682—½-gallon can.	2.05
575 C 8683—1-gallon can.	3.90

Shipping weights: Pint, 2¼ pounds; quart, 4 pounds; ½ gallon, 7¼ pounds; gallon, 11 pounds.

Caution: Thin Shellac with 184 Proof Denatured Alcohol. See Page 565 for Denatured Alcohol.

An elastic durable covering that contracts and expands with temperature changes and will not soften or run in the hottest weather or crack or peel in midwinter.

It is a plastic composition reinforced by asbestos fibers running in all directions—which hold the coating in place until it sets. Coating $\frac{1}{2}$ of an inch thick is usually sufficient.

In extreme cases where the roof is sunken or where water stands, we recommend a first coat of our Trowel Roof Cement (at left).

Easy to use—apply with an ordinary paint brush or a knotted roofing brush (see below). One gallon covers about 100 square feet. Shipping weight, per gallon, 10 pounds.

Special Roofing Brush

A brush made similar to our regular knotted roofing brushes, listed on this page, but without the knots.

Makes a big, strong, heavy brush. Fine for spreading roof cement and other heavy paints.

Bristles of heavy mixed stock about 3 inches long, mounted on a block 6 by 2 inches. Handle not furnished. Use broom handle or pole. Shipping weight, 16 ounces.

75 C 725... \$1.20

Broad Flat Paint Brush

For roofs and other large surfaces, 6 inches long, 2½ inches black Chinese bristles, with mixed center. Set in cement.

75 C 705... \$1.20

Shipping weight, 10 ounces

Pointing Trowel

For putting trowel roof cement around chimneys and corners. Shipping weight, 6 to 10 ounces.

84 C 2642—4 inches long... 29¢

5 inches long... 32¢

Square End Trowel

For covering large surfaces. Shipping weight, 2 pounds.

84 C 2634—11 inches long... 67¢

12 inches long... 75¢

A specially prepared Asphalt Paint for iron, steel and other surfaces. One coat will add years to the life of the surface.

Used on tanks, windmills, bridges or any metal surface which needs protection from the sun, rain and snow. Prevents rust and rot. Recommended for flat or composition roofing. Ready for use. Easily applied—simply put it on with an ordinary paint brush. One gallon covers about 200-250 square feet, one coat. Ordinarily one coat is sufficient.

Three colors—black, green and red. The red and green produce very pretty effects and are particularly desirable for residences. Be sure to state color wanted.

Substitute for Turpentine

This Turpentine Substitute is used for thinning varnishes and paints, enamels and other interior finishes. It causes more rapid drying. It is used for the same purposes as spirits of pure turpentine, giving good results and is much lower in price.

Priming coats thinned with our turpentine substitute penetrate the wood, preparing a good surface for the finishing coats of paint.

A Gallon In 50-Gallon Barrels For Black

Wood Preservative

Cresote oil is one of the best Wood Preservatives known. State experiment stations recommend it for preserving fence posts and other wood. It is used for preserving ties, telegraph poles and bridge supports. Steamship companies use it for preserving docks and wharves. It is one of the most highly recommended agents in the nation-wide wood-preservation campaign.

That is why Ward's Wood Preservative is so highly recommended. It is a refined cresote oil product, especially designed for the preservation of wood. It penetrates the surface and seals the pores, protecting the wood from ground moisture and resisting the attack of insects and fungi. (Applied inside of log or hen house, lice will leave.) Makes the wood last longer, postponing rot and decay and saving many dollars in repairs and replacements. Its cost is almost too small to be considered, compared to the value of the property it protects.

Apply with a brush or by dipping. If heated the liquid will penetrate more deeply. No other preparation necessary—no experience required. Five gallons is enough to treat about 100 fence posts or 150 to 200 square feet of surface when applied with a brush.

A Nail Will Not Crack Protecto's Fire Resisting Core

Ward's Protecto Plaster Board, sometimes called sheet plaster, is better and cheaper than lath and plaster.

Any one can put it up—no need for hiring special workmen. No mess or trouble—no dampness, odor or other inconvenience. No waiting for the plaster to dry. No lath stains or settling cracks. Protecto makes a smooth, even wall that stays smooth and even as long as the building lasts. Shipped ready to put up and the minute it is up it is ready for decorating. For extra fine work, especially if you desire to tint the walls, we recommend using our Protecto Crack Filler, listed below.

Protecto has a specially constructed plaster core, made by rolling a patent hard setting plaster between two sheets of tough cardboard and allowing it to dry into hard solid sheets. Ready sized, can be painted, kalsomined or wall papered as desired; fire resisting. A good, safe, durable board made for long hard service.

Nails will not crack Ward's Protecto. Nail it directly to the studding. Ward's Protecto is made in a wide range of widths and lengths—you can order a size that can be used for your walls with practically no waste.

Samples on request.

Protecto Crack Filler

Makes a smooth, even crackless wall. To use, mix with water. Order 5 pounds for each 500 square feet of board. 574 C 312—5-pound package. Shipping weight, 7 pounds.....50c

Ward's Superb Fiber Wall Board is popular because it is light in weight and saves money on freight charges. Also it is easy to handle yet strong and durable. Superb is a form of manufactured lumber—knobs, cracks and can be sawed or nailed the same as any other kind you might buy.

Constructed of three layers of heavy cardboard joined with adhesive asphalt. Already sized—can be painted, papered or kalsomined without further treatment. Any one can put it up. Nail it right to the studding, thus saving the expense of lath, "headers" or extra support. Convenient lengths and sizes. Put on with ordinary bung head or flat head 4-penny nails.

Choice of Three Finishes—Gray, Tan or Golden Oak. The gray or mill finish should be ordered where it is intended either to paint or kalsomine walls. The tan and golden oak are suitable for temporary decorative effects, but we cannot guarantee these colors not to fade. Golden Oak finish can be supplied in 32-inch width only.

White Pine Windows, Frames and Storm Sash

In our FREE Building Material Catalogue, you will find our complete line of windows, window frames and storm sash. We quote here, for your convenience, a few of the more popular sizes; but if you do not find what you want, write for our FREE Building Material Catalogue.

Windows—Best Quality White Pine—glazed with single or double strength glass. Check rail. Thickness, 1 1/4 inches. Plowed and bored for use with or without weights.

Frames—Clear White Pine—Plain Drip Cap. Outside casing, 1 1/4 inches thick. Width of jamb, 5 1/4 inches, including blind stop. (This is correct width for wall with 2 by 4 studs.) Shipped knocked down all grooved and fitted. Pulleys included.

Storm Sash—Best Quality White Pine—glazed with single or double strength glass. Thickness, 1 1/4 inches. Ventilators in bottom rail, 10c additional.

Note—Storm sash are made 1 1/2 inches longer than window opening sizes given below, to allow for fitting and the slant of sill on window frame. Always state width first when ordering.

Average shipping weight of windows and storm sash, 30 pounds; frames, 50 pounds.

For Our Complete Line of Fireplace Fixtures Write for Our FREE Building Material Catalogue

Send for this FREE Book Wardway Homes

In it are shown more than one hundred modern and up-to-date homes, cottages and garages. The designs have been selected because of their individual merits and desirable features. Every detail of construction, ventilation, light, etc., has been carefully worked out by our experts.

These are not experimental or theoretical homes. Every model shown actually has been built and has stood the test of time.

Complete Materials—No Extras to Buy

With every order for a Wardway home we give our written guarantee that we will supply sufficient materials of all kinds to build the home complete according to our plans and specifications. This takes the guess work out of building, as you can determine before you start just what your building will cost you. The Wardway System eliminates "extras."

Modern Construction—Finest of Materials

Wardway Homes are built according to the most modern and approved construction methods. Well insulated walls make them warm in winter and cool in summer. They are sturdy, attractive homes, suitable for any family.

Only the best grades of materials are furnished throughout. All lumber exposed to view on both the exterior and interior of our homes is clear and knotless. The hardware includes solid bronze outside door lock sets. Our best quality Wardway House Paint is furnished. In every respect Wardway Homes will please you.

Prompt Shipments—Safe Delivery Guaranteed

The mills and factories from which Wardway Homes are shipped are situated at the most advantageous shipping points. This insures low freight rates and prompt service. No matter where you live—North, South, East or West—we can ship to you promptly and economically from one of four conveniently located mills.

The Florence A Typical Value in a Wardway Home

\$1198

Our Price Includes:

LUMBER FLOORING DOORS
LATH FINISH WINDOWS
SHINGLES MOULDINGS FRAMES
BUILT-IN CONVENIENCES. All necessary hardware, hinges, locks, etc. Varnish for floors and woodwork. Three coats of Outside Paint (any color desired.) Complete plans and instructions for building.

The "Florence" is one of our most popular five room bungalows. It contains five rooms, bath and a big front porch—an ideal home for the average family.

Everything seems to harmonize so perfectly in this well proportioned and well designed home. The shingled side walls, the broad comfortable porch, the exposed rafters and sturdy roof brackets all combine in making the exterior of the home exceedingly attractive. The Craftsman front door and quaint Colonial windows also add their part, giving a distinctive touch of individuality which makes the "Florence" pleasingly different from the ordinary home.

We are certain you will agree that the floor plan of this design could not be improved. The rooms are all of good size, well proportioned and properly lighted and ventilated. Entering through the beautiful glazed front door, flanked by windows on either side you gain the impression of an unusually large living room because of the wide cased opening which has the effect of combining living and dining room and yet really preserving their separate identity.

The bedrooms and bath are conveniently located on a connecting hall which keeps them entirely separate from the other rooms of the house—a most desirable arrangement.

The kitchen has a most convenient location for the range while a twin window admits a flood of light on the sink and work table. The combined rear and grade entrance, which is but three steps below the level of the kitchen floor, make it possible to take supplies in and out of the basement without going through the kitchen.

Ward's RADIO ROOFING

TRADE MARK

\$210
A Roll

**Our Highest Quality Guaranteed Roofing
Ends Your Roofing Troubles for
the Next 15 Years**

**Re-roof
NOW-
Before
it is
TOO
LATE!**

Why bother with that leaky roof? Re-roof NOW with Radio Slate-Surfaced Roofing and your roofing troubles will be over for the next fifteen years.

RADIO Roofing makes a safe roof; and it makes a beautiful roof. It is heavy and fire-resisting and its colors never fade. It is easy to lay—can be put on right over old wood shingles. It needs no paint—each rain washes it clean and restores its original beauty. It is waterproof and spark proof. It is approved by the Underwriters' Laboratories (under direction of the National Board of Fire Underwriters). **WE GUARANTEE IT FOR FIFTEEN YEARS.**

Radio Roofing is the equal of any standard slate-surfaced roofing you can buy anywhere. It weighs 85 pounds per roll and is extra strong and durable. Constructed of heavy, thick felt, thoroughly saturated with asphalt and then given an extra coating of asphalt on both sides to make it doubly waterproof. The surface of natural crushed slate is rolled on under heavy pressure and is rain proof, sun proof and not affected by heat or cold.

Reduces Fire Danger. Radio Roofing is a better protection than a wood shingled roof and the crushed slate-surface will never catch fire from flying sparks. Radio Roofing will reduce your insurance by reducing the danger of fire.

In full-sized rolls, 40½ feet long and 32 inches wide. Each roll contains 108 square feet or enough to cover 100 square feet (a surface 10 feet by 10 feet).

Lay It Yourself. No experience is required. The only tools needed are a hammer and a jackknife. Complete directions for laying, also nails and cement for the laps, included with each roll. You can lay it right over an old wood shingled roof without removing the old shingles. Simply use the rolls with the extra long nails supplied especially for this purpose.

On new or old buildings use Radio Roofing. It is always safe, always sound and always a good investment.

Has Used 100 Squares

"Have purchased about 100 squares of your roofing in past 3 years and found it very satisfactory."

RADIO Shingle Roll Roofing RADIO V-End Strip Roofing

Red or Green Slate Surface

Guaranteed 15 Years!

Of the same high quality and superior construction as our Radio Slate-Surfaced Roofing, except that the crushed slate surface is finished with a shingle design as shown. When laid it looks like a stained wood shingle roof. Roll 32 inches wide and 40½ feet long; contains 108 square feet, or enough to cover 100 square feet and allow for 2-inch laps at the seams. Nails and cement included. Directions furnished. Actual weight and shipping weight, per roll, 85 pounds.

A Roll

Red or Green Slate Surface

Guaranteed 15 Years!

This is the same quality roofing as our Radio, but is made in strips which are notched on one side to give a shingle-like appearance. These strips are 17½ inches wide, and notches are cut 3 inches deep by 9 inches wide. Should be laid 12 inches to the weather. Makes a good, heavy, single thickness roof all over building, and gives two full thicknesses at the laps. Suitable only for steep or sloping roofs.

Radio V-End Strip Roofing is packed two strips to the roll. Illustration at right shows a single strip ready for laying. Rolls are 48 feet long and are packed complete with 1-inch galvanized nails. Actual weight and shipping weight, per roll, 90 pounds.

Ward's RADIO Asphalt Shingles

The Modern, Up-to-Date Roofing—Attractive and Fire Resisting

Choice of Red or Green

A roof laid with Radio Asphalt Shingles costs only a few dollars more than a wood shingled roof. But the first cost is the last cost. Once it is put on, you need not think of it again for 15 years. It is not affected by the weather and requires no attention after laying. Easy to lay—do the job yourself.

Four-in-One Strip Shingles

Radio Strip Shingles are four shingles in one—save time and labor in laying. Made of the same material as Radio Roll Roofing (listed above), except material is a little heavier.

Use 2½ pounds of 1-inch nails per square if laid directly to the deck, or 5 pounds of 1¾-inch nails per square if laid over old wood shingles. Order nails separately (see opposite page).

We guarantee Radio Asphalt Shingles, both Strip and Individual types, for 15 years.

SIZE, 32½ inches long, 10 inches wide; 112 strips per square. Shipped in two crates, 56 strips to each crate. A square covers 100 square feet. Actual weight and shipping weight, per square, 200 pounds.

174 C 117—Red. Per square.....	\$5.45
174 C 118—Green. Per square.....	5.45

All Shingles Shipped Promptly from Stock in Chicago, York, Pa., St. Louis, Mo., Louisville, Ky.

Prices Subject to Market Changes

Guaranteed for 15 Years!

Radio Asphalt Shingles are absolutely waterproof, sparkproof and fire resisting. They not only make a good looking roof for either city or country homes, but are a reliable protection against weather and fire. Your choice of Individual or Strip (Four-in-One) Shingles. See prices below.

Individual Asphalt Shingles

These Individual Shingles are easily laid. Same construction as our Strip Shingles, except come single instead of four-in-one. Make roof of three thicknesses, and of four thicknesses where nailed. Fire resisting, sparkproof. Safer and longer lasting than a wood shingle roof.

Use four pounds of 1-inch galvanized nails per 100 square feet. Order nails separately. (Article Number 74 C 195.) See opposite page.

SIZE, 12½ inches long, 8 inches wide; 424 shingles per square are shipped in four packages, 106 shingles to each package. A square covers 100 square feet of surface. Actual weight and shipping weight, per square, 240 pounds.

Ward's ATLAS ASPHALT ROOFING

Our Best Smooth Surfaced Roofing

Choice of Light, Medium or Heavy

Guaranteed 7, 10 or 12 Years

\$1.40
Per Roll
35 Pound Weight

Re-roof
NOW-
Before
it is
TOO
LATE!

A new Atlas roof costs but little more than repairing an old one. And with Atlas you are protected for many years to come.

ATLAS Asphalt Roofing is protection from sun and rain in summer—from ice and snow in winter. Atlas Roofing resists heat, cold and moisture. Special mica surface is an added insulation against the burning heat of the summer sun. Atlas Roofing will not melt in the hottest climate nor crack in the coldest. It is waterproof and weatherproof and the medium and heavy weights are approved by the Underwriters' Laboratories (under direction of the National Board of Fire Underwriters). WE GUARANTEE IT FOR 7, 10 or 12 YEARS, according to the weight used.

Made of tough, long-fiber felt thoroughly saturated and coated on both sides with mineral asphalt, which will not dry out or evaporate. On the asphalt coating is a finishing layer of powdered mica, which is embedded in the asphalt coating under pressure, so it cannot wash

or blow off. Mica is a perfect non-conductor of heat and electricity and its glittering surface reflects the rays of the hot sun and gives added protection to the roofing, so that it wears at least one-fourth longer than roofings finished in the ordinary way.

You Can Lay It Yourself. No experience is needed. And the only tools required are a hammer and a jackknife. Nails, cement and complete directions for laying included with each roll. Can be laid right over old wood shingles (order the rolls with the extra long nails).

Atlas Roofing lasts longer and costs less than wood shingles or metal roofs. It is much superior to wood shingles for roofing steep roofs and it is also recommended for comparatively flat roofs where shingles cannot be used.

Choice of 3 Standard Weights. All three weights are the same reliable quality—the only difference being in the thickness and weight. Recommended for every type of building—house, barn or garage.

Rolls are 32 inches wide, 40½ feet long, and contain 108 square feet—enough to cover 100 square feet of roof, allowing a 2-inch lap.

Has Used Atlas for
20 Years

"I have used the Atlas Roofing for 20 years and have had better service from it than from any other roofing at any price."

Ward's Combination Roofing Ward's Lakeside Roofing

Big Value in a Low Priced Roofing

We offer our Combination Roofing to meet the demand for a good, serviceable, low priced roofing for covering inexpensive structures or for temporary work. It is an excellent quality, standard weight, talc surfaced asphalt roofing which gives excellent service. Thoroughly weatherproof and waterproof.

Made of a sheet of roofing felt, saturated and coated on both sides with asphalt. The surface is dusted with powdered talc. Made in three weights, each of the same quality.

Rolls are 32 inches wide and contain 108 square feet—enough to cover 100 square feet of roof area, allowing for a 2-inch lap. Rolls are packed complete with large head roofing nails and liquid asphalt cement for the laps.

No Experience Required to Lay It

Anyone can lay this roofing. We furnish complete directions with each roll, which makes the application a very simple matter. The only tools required are a knife for cutting the roofing into the proper lengths and a hammer for nailing it to the roof boards. May be laid either side up—both sides are talc coated.

We do not give a specific time guarantee on Combination Roofing as we do on Radio, Atlas and Lakeside Roofing, but consider it an excellent value at the price. Shipping weights same as actual weights.

174 C 87—Light. Actual weight, 35 pounds. Per roll...\$.98
174 C 88—Medium. Actual weight, 45 pounds. Per roll... 1.25
174 C 89—Heavy. Actual weight, 55 pounds. Per roll... 1.50

Shipped Promptly from Stock in Chicago, York, Pa., St. Louis, Mo., Louisville, Ky. Also shipped from Warehouse at Atlanta, Ga. When Shipped from Atlanta, our price (freight not included) is 25¢ per roll extra.

Guaranteed 5, 7 or 10 Years

Ward's Lakeside Asphalt Roofing is an unusually high grade, corrugated surface (talc finish) asphalt roofing. Suitable for all types of buildings. It is thoroughly weatherproof, waterproof, and fire resisting; is not affected by extremes of temperature or by frost, rain, sleet or snow. It does not soften and run during the heat of the summer or become brittle or crack in the coldest weather. It may be used in any climate and is not affected by acid, fumes, steam or gases.

Made of High Grade Materials

Lakeside Asphalt Roofing is made of a sheet of roofing felt, thoroughly saturated with genuine asphalt and coated on both sides with a heavy layer of specially selected asphalt which effectively protects the saturation (the life of the roofing) from attack of the elements. The surface is then given a light dusting of powdered talc to prevent sticking in the rolls. Especially adapted for homes, farm buildings, barns and garages. Anyone can put it on—no special tools needed.

Each roll of Lakeside Asphalt Roofing is packed complete with large head roofing nails and liquid asphalt cement for the laps. Complete directions with each roll. Rolls are 32 inches wide and contain 108 square feet—sufficient to cover 100 square feet and allow for 2-inch lap at the seams. Made in three standard weights, each of the same high quality, the only difference being in the weight. Heavy, guaranteed for 10 years. Medium, guaranteed for 7 years; Light, guaranteed for 5 years.

Lakeside Asphalt Roofing is a valuable fire protection. The medium and heavy weights are approved by the Underwriters' Laboratories, Inc. This means that you save on insurance. Shipping weights are same as actual weights.

174 C 30—Light. Actual weight, 35 lbs. Per roll...\$ 1.30
174 C 32—Medium. Actual weight, 45 lbs. Per roll... 1.55

Asbestos Building Felt

Use This Felt for Covering Furnace Pipes

This is the standard Asbestos Sheathing. An excellent insulator for heat and cold. For lining buildings, refrigerator cars and ice houses. Deadens sound when used between floors and for general building purposes.

Extensively used for covering warm air pipes for furnaces. Will not burn even if brought into contact with flames. Rolls contain 450 square feet. Width, 36 inches. Price is subject to market changes. Actual weight, and shipping weight, per roll, 50 pounds.

174 C 244—Per roll.....\$3.25
Shipped from Stock in Chicago

Blue Plaster Cardboard

A strong, durable Cardboard of tough texture, used for sheathing and under claps, and especially for sheathing wells and ceilings of temporary buildings, attics and cellars. Applied over boards or direct on studding with large head tacks and covered with wall paper or wood panel strips at the seams. Purple blue color. Width of roll, 36 inches.

174 C 234—Rolls contain 250 square feet. Actual weight and shipping weight, per roll, 30 pounds. Per roll.....35¢

174 C 235—Rolls contain 500 square feet. Actual weight and shipping weight, per roll, 60 pounds. Per roll...\$1.65

Shipped from Chicago, York, Pa., or St. Louis, Mo.

Red Rosin Sized Sheathing

For use under siding and between floors. Made of best pulp paper stock with a hard smooth surface, thoroughly rosin sized, which helps to exclude wind, moisture and vermin. Tough, clean and durable.

Rolls contain 500 square feet. Width, 36 inches. Prices subject to market changes. Shipping weights same as actual weights.

174 C 218—Light. Actual weight, per roll, 20 pounds. Per roll.....55¢

174 C 220—Medium. Actual weight, per roll, 30 pounds. Per roll.....82¢

174 C 223—Heavy. Actual weight, per roll, 40 pounds. Per roll.....\$1.10

Shipped from Chicago, St. Louis, Mo., or York, Pa.

Herald Tarred Felt Sheathing

Made from tough felt, thoroughly water-proofed with distilled tar. For use between sheathing and siding, also in lining floors. Resists wind and moisture. Strong and durable. Better than ordinary building paper. Clean to handle.

The faint tar odor of this sheathing keeps away mice, rats and insects. Rolls contain 500 sq. ft. Width, 36 inches. Price is subject to market changes. Actual weight, and shipping weight, per roll, 45 pounds.

174 C 226—Per roll.....\$1.65
(Shipped from Chicago, St. Louis, or York, Pa.)

Standard Deadening Felt

Nothing is more annoying than to hear every footstep and sound from the floor above. This Felt will help to overcome this trouble. It deadens the sound through floors and walls. Makes an excellent protection against frost and also insulates against heat.

Adds greatly to the comfort and warmth of the home when used between floors. It is made thick and heavy. Each roll contains about 450 square feet. Width, 36 inches. Price is subject to market changes. Actual weight and shipping weight, per roll, 50 pounds.

174 C 237—Per roll.....\$2.25
Shipped from Chicago and St. Louis, Mo.

Tarred Roofing Felt

A good grade of tough Felt, saturated with distilled coal tar. Used for roofing sheds and temporary structures. Also used in making built-up tar and gravel roofs.

Order tin caps and nails separately, as they are not included. Use 1½ pounds tin caps and 1 pound nails to each roll.

Rolls contain 350 square feet. Width, 36 inches. Price is subject to market changes. Actual weight and shipping weight, per roll, 55 pounds.

174 C 249—Per roll...\$1.65

Shipped from Chicago, St. Louis, Mo., or York, Pa.

Ward's Sattley Farm Equipment

It Pays to Use Good Farm Equipment

NOT only does it pay in money, it pays in satisfaction. Plan now for this Fall and Winter and for 1923. What new equipment will you need to get the most from this year's crops and to make the most during the year ahead?

On the following pages we have not shown all of our big line of farm equipment. Articles usually purchased during Spring and Summer have been omitted. You therefore will not find in this General Catalogue such machines as Mowers, Cultivators, Tillage Implements and other equipment not used during Fall and Winter.

Write for our big special Catalogue of Ward's Sattley Farm Equipment. Study it at your leisure. Compare qualities, mechanical features and prices with those offered elsewhere. Then send us your order under the complete protection of our guarantee—satisfaction or your money back. Send now for the Big Sattley Book!

Sattley Riding Plows

One and two-bottom sizes, right and left hand; also three-bottom power lift Tractor Plows; jointers, rolling coulters, weed hooks and attachments.

Sattley Tillage Tools

Disc harrows; reversible disc harrows; spring-tooth harrows; steel and wood bar peg harrows; soil crushers; harrow carts; one-horse cultivators.

Ward's Windmills

Ward's Ball Bearing Windmills are solving the water problem on farms everywhere. Quiet, powerful, long lived. Mill and tower may be ordered separately.

Sattley Engines

See complete description in this catalogue. Let a Sattley pump water, grind feed, churn, wash, shell corn and do scores of other back-breaking jobs for you.

Sattley Cream Separators

For hand, engine or electric power. Complete description given in this catalogue. Pays for itself quickly by the cream it saves. Puts profits into dairying and takes drudgery out.

Cane Machinery

Cane mills for use with horses, capacities 30 to 120 gallons per hour; mills for belt power, capacities, 1 to 4 tons per hour; also furnaces and evaporating pans.

Sawing Outfits

Portable log sawing outfits with engines; powerful saw rigs with engines mounted on trucks; sliding, tilting and swing saw frames; mandrels.

Dairy Barn Equipment

Litter carriers; ensilage trucks; wood and steel stanchions; rod and steel rail tracks; water tanks of all kinds, and other dairy barn accessories.

Sattley Walking Plows

One and two horse; wood and steel beam; middle busters; brush plows; prairie breakers; sandy land series for Southern soils; right and left hand.

Sattley Spreader

Spread the barn yard manure with a low down, wide spread Sattley — keep the soil fertile and reduce fertilizer bills.

To Our Farmer Customers:

I was born and raised on a farm—lived on a farm for many years—so I can call myself a practical farmer.

I always have been very glad of the early days I spent on the farm. They taught me the necessity for hard work and the value of perseverance.

GEORGE H. MUNNS,
Manager, Farm Equipment Division

They gave me the practical experience and ground work for handling the Implement and Farm Equipment Department of Montgomery Ward & Co.

Here at Ward's we realize fully that the success of this Department depends on how well we serve you year after year. For that reason we constantly study your needs and the needs of other farmers and strive always to keep our line abreast of the times.

This Department was started in a small way. Ever since we have worked hard to give to our customers the utmost in quality, service and value. It has paid both us and our customers, for the business has grown rapidly until today it is one of the important factors in the Implement industry.

While this exceptional growth alone is a convincing evidence of our splendid values, we do not expect you to buy from us on the strength of our past reputation. Everything you buy from us is backed by Montgomery Ward & Co.'s fifty-year old guarantee—"Satisfaction Guaranteed or your Money Back." We could not make it fairer.

Remember, too, we are interested in your problems and want to help you if we can. Do not hesitate to write us; your inquiries about our line and your suggestions for its improvement always are welcome.

GEORGE H. MUNNS,
Manager, Farm Equipment Division

Freight Rates Lowered

The reduction in freight rates July 1st was an incident of great importance to all our customers. Even when freight rates were higher, big savings were made possible by our low prices. Now that the rates have been lowered, still greater savings may be made by ordering your farm equipment and other supplies from this catalogue. The new rates leave more money in your pocket for every article we ship you by freight.

See Page 320. In order that you may determine easily the freight charges on any of our farm equipment, we have carefully prepared the Freight Table printed on page 320. Select from this Catalogue the equipment you need. Get the total shipping weight of the different items. Then consult the Table. The freight charges will be much less than you ordinarily would expect.

When you buy from Ward's you get dependable equipment at prices which represent the combined savings of manufacturing in large quantities, selling by low cost methods and one-profit prices.

Ward's Sattley Cream Separators

No matter how few or how many cows you milk, you want the Separator which will get the most cream. You want a separator which is sanitary and easily cleaned; one which is sturdily built for lasting service. So confident are we of the superiority of the Sattley that we not only are willing, but are anxious, to have you order one on our Free Trial Offer and compare its feature for feature with any other separator on the market. If after 30 days' trial you are not convinced that the Sattley offers greater value than you can obtain elsewhere, return it to us at our expense, and your money together with all transportation charges you have paid, will be promptly refunded.

Read carefully the Sattley features listed below and note the sturdy base shown in the large illustration at the right. The skin properly, the bowl, at all times, must be kept level. That is why we use a heavy square base which stands solidly on the floor and holds the fast whirling bowl in the correct position always. It does not pull or tug at the lag screws; the machine cannot vibrate.

No. 15—Skims 180 Quarts Per Hour
375 Practical size for dairies of 1 to 5 cows. Speed of crank, 60 R.P.M. Turns easily. Shipping weight, 160 pounds. **\$47.50**

 Easy Payment Price, \$5.00 with order and balance in nine easy monthly payments of \$6.65 each. \$64.85

Write for Special Catalog

Self-Oiling Splash System

No oil cups to fill or adjust. One supply of lubricant is sufficient for three to four months. Absolutely does away with any chance of oil coming in contact with the milk or dripping on the floor; prevents hot bearings; saves time, money and trouble.

Skimming Bowl

There are but 30 to 33 discs in a Sattley Separator and every one is a producer — each one skimming 100 per cent from the entire surface. This means increased profits. Discs are of pressed steel, heavily tinned. Steel discs tinned are more efficient in skimming and more sanitary than nickel plated discs.

Easy to Clean

Note simple way in which skimming discs are removed and how easily they are washed and sterilized. Takes only two to four minutes to give them a thorough scalding and dry them. Each disc is pressed from one piece of steel and is heavily tinned.

Anti-Splash Supply Can

Shaped so that when milk is poured in there is no splashing or slopping over. Made of extra heavy pressed steel of one piece, heavily tinned, no seams or bends to catch dirt. Sanitary and easily cleaned. Can deliver full capacity to the last drop of milk.

Simple in Construction

Illustration shows bowl, spindle and gearing with frame removed. Note simple, strong direct gearing and improved noiseless clutch. Gears wide-faced and accurately cut; faces of all teeth ground and polished after being cut to insure faultless operation.

Full Feeding Tubular Shaft

Illustration shows tubular shaft cut in half. Note three slot openings in shaft feed from top to bottom. Milk is thus fed to all discs. Three wings on side break up whole-milk wall, insuring cleaner separation. This is an exclusive Sattley feature.

Center Balanced Bowl

Bowl is supported by the spindle midway between top and bottom, avoiding top-heaviness, wobbling, or springing. Sattley bowls run only 6,000 to 7,000 r. p. m. to get same skimming effect produced by other bowls running 9,000 to 15,000. This means less wear — longer life.

Superior Neck Bearing

The new top bearing is the simplest and most satisfactory ever devised for the purpose. Bearings are special die castings of a material to 10/1000th of an inch; made of an anti-friction metal — far superior to babbit, and almost frictionless.

State size, number, bowl number, and capacity of separator.

It is preferable to have the Power Attachment built into the separator at the factory. We will attach it without charge to your new machine at time of purchase, or to your old one if you will return it. Write us for information before shipping.

Rubber Bowl Rings for Sattley Separators

Sold only in packages of 6 rings. Rubber Bowl Rings for Sattley Separators Nos. 15, 17, 19 or 21. (Be sure to state size, number, serial number and bowl number of your Sattley Separator.) Shipping weight, per package, 4 ounces.

289 C 4660—Package of 6 rings. 39¢

Rubber Bowl Rings for Sattley Golden Harvest Separators Nos. 17, 25, 37 or 50. Shipping weight, per package, 3 ounces.

289 C 4662—Package of 6 rings. 36¢

Power Attachment For Sattley Separators

The new Sattley Power Drive is one of the simplest and best means of driving a hand separator yet devised. It is important that the transmission of power to a separator be uniform and regular, and a novel feature of this attachment is the idler pulley belt tightener, which, by a coiled spring, automatically absorbs all shocks resulting from irregularities in the speed of the engine. Outfit consists of frame with set screws, tight and loose pulleys, belt shifter, idler pulley and spring, driving pulley, short leather belt as shown, and an extended shaft for worm gear, longer than regular to take pulley. Leave crank on and run by hand or power as desired.

289 C 4658—Shipping weight, 30 pounds. **\$11.00**

It is preferable to have the Power Attachment built into the separator at the factory.

Rubber Bowl Rings for Sattley Separators

Rubber Rings for Sattley Golden Harvest Separators Nos. 70 or 90. Shipping weight, per package, 4 ounces.

289 C 4664—Package of 6 rings. 38¢

Rubber Rings for separators bought previous to January 1, 1917. Be sure to state serial number of bowl stamped on bowl-nut or bowl cover or bottom of bowl. Serial number also stamped on edge of bowl casting surrounding bowl; also state capacity and size, number and date of purchase of separator. Shipping weight, per package, 4 ounces.

289 C 4666—Package of 6 rings. 48¢

Electric Driven Separators

SAVE time and labor, run your Cream Separator by electricity. Your farm lighting outfit or any electrical power will run it. Just attach the electric cord to your light socket the same as you would for an electric iron, washing machine or other household appliance, nothing complicated about it. The electric drive insures a constant uniform speed of the bowl, which results in the closest possible skimming.

The Sattley Electric Drive is so arranged that the hand crank remains in place and it may be turned by hand if so desired. Mention in your order whether you have direct or alternating current and give voltage. If alternating, state whether single, two or three phase and number of cycles. Your electric company will furnish you with this information.

For Farm Power Lighting Outfits

32-Volt Direct Current
 Sattley Electric Drive Separator complete, with 32-volt direct current motor (for use with battery lighting plan), with knife switch, fuse plugs and 10 feet of insulated wire. State voltage and kind of current.

Easy Payment Plan

For the benefit of our customers who prefer to buy our Separators on Easy Payments, we will ship any Separator on receipt of Five Dollars with order and balance of easy payment price in nine monthly payments starting after 30 days' trial. See special order blank on Page 625.

Skim Very Closely

Sattley Separators skim so closely that it takes a Babcock test to detect the trace remaining. The skimming bowl is the heart of a separator; our engineers, after spending years in designing and experimenting, have perfected a bowl which cannot be excelled by any separator on the market. The bowl center or tubular shaft is made of a solid piece of steel, and 42 separate machine operations are required to make it. Three wings are scientifically placed inside the bowl center; these wings distribute the milk in thin streams over all the discs, not over a few only. Each disc does its maximum work, thereby separating more thoroughly and getting practically all the butter fat from the milk. That is the reason the Sattley Separators are so well known for their close skimming.

Other reasons why Sattley Separators make friends on the farm are: the low price for exceptionally high quality; their economy in day to day operation; and the increased profits from the cream yield. They are easy to operate; a child can run a Sattley. Accuracy of bearings, improved gears, self-balancing bowl, and self-oiling system — all of these mean easiest running. The speed of the bowl is low — only half the speed of others, so that it does not break up the butter-fat, yet separates it perfectly. Not the least important, Sattley Separators are just the right height; they are easy to fill without spilling the milk, and are less tiresome for women to operate. No unnecessary parts to clog or make it hard to clean and operate.

D.★Montgomery Ward & Co. Chicago

Superior Cream Separator

\$375

Is operated by adding to the milk an equal quantity of cold water or ice. As the water mixes with the milk the cream separates and rises to the top. You always have sweet diluted milk, which is a much better stock food than sour milk. Deep cone bottom with faucet permits drawing off milk without disturbing cream. Made of extra heavy tin, lock seamed and soldered. Tank enameled blue outside and decorated. 43 inches. Price includes tank with gauge glasses, reversible cover with strainer, faucet and hardwood legs.

Article Number	Capacity	Shipping Weight	Price Each
487 C 4250	10 gallons	12 pounds	\$3.75
187 C 4251	14 gallons	14 pounds	4.35
187 C 4252	18 gallons	16 pounds	4.15
187 C 4253	24 gallons	23 pounds	5.90
187 C 4254	32 gallons	36 pounds	6.70

Cream Separator Double Can

Keeps cream cool and separates cream from milk in four to six hours. Inner tank for milk made of pure charcoal tin with an upright tube connected with the water in the outside tank. This provides complete circulation of cool water both inside and outside the milk tank. Outer or water tank made of galvanized steel. Gauge glasses in both cans show depth of cream. Separate faucets to draw off water or milk.

Article Number	Capacity	Shp. Wt.	Price Each
487 C 4258	4 gals.	9 lbs.	\$5.65
187 C 4259	8 gals.	18 lbs.	6.60
187 C 4260	12 gals.	26 lbs.	7.45

Milk Cooler and Aerator

Takes out animal heat and odor; cools and aerates milk as it flows from perforations around bottom of upper tank and over drum. Heavy tin plate drum and galvanized steel bottom plate. Double cheesecloth strainer with spring pins. Agitator for stirring ice mixtures. Full directions.

Article Number	Cap. Qts.	Size of Dairy	Shp. Wt.	Price Each

New Steel Churn

\$310

The strong construction, the light weight and the ease with which it is cleaned, are three features of this Steel Churn which women will appreciate. Easy To Clean. One turn of thumbcrew releases dasher so that it may be removed quickly and easily for cleaning. Dasher made of fine grain hardwood and attached to steel rod which is heavily tinned to permit easy cleaning. After dasher is removed churn case may be lifted from frame and easily cleaned. Churn case is heavy steel, triple tinned inside and baked enamel finish outside. Legs and standards all steel, firmly riveted together and coated aluminum finish. Gear, wheels and top castings made of iron. Lids select hardwood, natural finish.

487 C 4215—Capacity, 2 gallons. Shipping weight, 9 pounds. . . . \$3.10
487 C 4216—Capacity, 3 gallons. Shipping weight, 13 pounds. . . . \$3.80

Elgin Pattern Railroad Milk Cans

One of the most popular cans sold. Heavy double-tinned steel plate; all seams heavily soldered. Body and bottom solidly riveted to bottom hoops. Special lock joint connecting breast with neck; cannot pull apart nor leak. When piled up, weight comes on neck joint; ordinary cans give out here first. Breast and bottom fully rounded. Therefore easily cleaned; no open seams to hold milk or dirt. Handles strongly riveted. Superior quality.

Poultry Fountain Heater

\$3.35

Tank holds 8 gallons of water, sufficient for flock of 75. Made entirely of heavy galvanized steel. Supplies water automatically to trough extending clear around the tank so a dozen chickens or more may drink at once. Heater lamp has large brass burner. Oil reservoir holds three pints. The bottom part is complete with galvanized bottom which prevents any possibility of floor catching fire from the lamp. By removing the bottom section the top part of fountain may be set directly on the ground, making an ideal waterer for the summer months. Shipping weight, 27 pounds.

187 C 3750.....\$3.35

Winter Fountain and Heater

Keeps the drinking water for your chickens at an even temperature during cold weather.

You increase egg yield by using this Fountain and Heater in the poultry house because it keeps the water at the right temperature day and night in the coldest weather.

Made of galvanized steel. Holds two gallons of water; sufficient for flock of 20. Supplied with heater lamp which requires about 1 quart of kerosene oil per week to operate. Shipping weight, 6 pounds.

487 C 3806.....\$1.20

"Farmers' Choice" Feed Cooker

An excellent, economical heater for cooking large quantities of stock feed, scalding hogs, or other boiling. Boiler is made of 20-gauge galvanized steel. One 1-inch flange projects below bottom, so that the boiler sets securely on the furnace. The upper edge of the boiler is supported by 1-inch angle, making it very rigid and durable. Heavy cast iron grate and back wall. Burns wood, coal or cobs.

First 3 sizes have grate 12 1/2 by 22 inches. Large size 12 1/2 by 26 inches. Shipping weight, from 175 to 290 pounds.

Improved Steam Feed Cooker

\$33.95

Quick heater. Will raise steam in a few minutes. Burns coal, cobs, and up to 30-inch cord wood. 33-gallon cast iron reservoir. Grates for burning coal are extra. Furnished with or without pump for filling. Safety pop valve, 2-foot hose, gauge, cock, faucet for drawing off water and one set of pipes for barrel are included. Barrel not furnished. Steam tested to 20 pounds pressure. Requires 6-inch pipe. Shipping weight, 340 pounds.

287 C 3556 — Steam cooker without pump or coal fixtures. **\$33.95**
287 C 3557 — Pump for filling reservoir. Shipping weight, 15 pounds. **\$7.60**
287 C 3558 — For heavy use box and coal grate. Shipping weight, 150 lbs. extra. **\$9.40**

Shipped from Factory in Central Iowa

Stock Feed Cookers

\$7.95 for 15-gal. Size

For cooking feed for hogs, poultry, cattle, horses or sheep; also invaluable on farm for heating water, rendering lard, making soap, scalding hogs and innumerable other uses.

Experiments made by feeding a number of hogs with cooked feed and an equal number with uncooked feed, all from the same drove, and otherwise exactly the same conditions, except feeding, show from 15 to 25 per cent better returns for the cooked feed. It has also been established, where hogs regularly receive a portion of cooked feed, they are practically immune from cholera.

Progressive hog raisers not only cook winter feed, but find it profitable to feed warm, well-cooked, palatable feed to hogs in summer.

This cooker has a jacket made of one continuous sheet of cold-rolled steel, which leaves no joints to open up and take in air, and is supported at bottom with a heavy wrought iron band. The kettle is made of smooth cast iron and may be removed from the casing easily. The inside arrangement includes a cast iron flame deflector set so that the fire and smoke pass around the kettle before going into the smoke pipe, thus bringing the entire bottom of kettle in direct contact with the heat and fire. Coal grates, elbows and pipe are extra.

Hog Remedies

On page 387 of this catalogue we quote prices on various remedies for Hog worms, which are approved by the U.S. Department of Agriculture. These preparations will promote the rapid growth of hogs.

Article Number	Cap. Gal.	Average Height over All	Diameter Kettle, Inside Flange	Shipping Weight Complete	Price Each

Hog Waterer and Heater

\$18.75

Suitable for hogs, calves, sheep or other small stock. Water feeds into drinking pan automatically as needed. Pan is large enough to accommodate two animals at a time. Outer casing of tank is made of galvanized steel and lined with asbestos paper which helps to protect the water in tank from heat or cold. The drinking pan is made of cast iron, easily removed for cleaning. The water from tank is fed down through an opening at bottom of tank into the outside cast iron pan. The flow of water from tank to drinking pan is regulated by a vacuum. No valves required. Water pan is heated with an oil lamp with large funnel (which is included with heater), holds oil enough to run 36 hours.

Height of tank, 37 inches. Diameter, 30 inches. Made in two sizes — 50 and 70-gallon capacity. Shipping weight, 154 and 175 pounds.

287 C 3322 — 50-gallon capacity. **\$18.75**
287 C 3323 — 70-gallon capacity. **19.90**

Shipped from Factory in Western Illinois

Galvanized Steel Hog Troughs

In sizes from 2 to 8 feet inclusive. The 2-foot size is especially desirable for breeding pens and farrowing houses. The 4, 6, and 8-foot sizes are popular in the hog yards. Where longer troughs than 6 and 8 feet are desired we recommend purchasing two, on account of the unwieldy large size. Have rounded bottoms for easy cleaning. Freezing does not affect them. Heavy iron cross bars one foot apart prevent the hogs shoving along in the trough.

Article Number	Height	Width	Length Feet	Shipping Weight	Price Each	Price Each in Lots of 10 or more direct from Factory in Western Illinois

Hog Waterer, Automatic

Supply tank is made of No. 20 gauge galvanized steel and may be removed from the sled for use as a storage barrel for oil or other fluids. Sled is constructed of heavy angle iron securely riveted together. When the supply tank is removed the pan may be used as a feeding trough. It has no valves, tubes or double tank arrangement to get out of order. It is a single tank with an outlet hole to allow the water to run into the trough as fast as the stock drink it and an inlet hole at the top to fill the tank.

Article Number	Capacity	Shp. Wt.	Price Each

Wood barrels shipped from Factory near Chicago

Stock Watering Fountain, Automatic

Easily attached to barrel or tank and held in place by one bolt and strong lock nut on the pipe. The body is made of cast iron with double drinking chamber. The float ball is made of brass and will not rust. Float enclosed within covered chamber outside the barrel, open at the top, leaving it easy to get at, but well protected. Shipping weight, 14 pounds.

487 C 3306. **\$2.00**

Improved Furnace Caldron

\$15.40

Cooks feed, renders lard, beats water. Drum is made of boiler steel. Lower part and fire box of smooth cast iron. The construction is such that it allows the heat to instantly surround the drum making it a quick and economical heater and cooker. Doors, inner container or kettle is made of heavy iron and may be removed for other uses when desired. Prices include furnace complete with kettle but no pipe (requires 6-inch pipe). Coal grate fixtures are extra.

For No. 18-gauge steel add 30% to above prices. For No. 16-gauge steel add 60% to above prices. Shipped from Factory in Northern Indiana

Round Steel Storage Tanks

Made of No. 20 gauge galvanized steel. Riveted and soldered seams. Always shipped knocked down. Tanks in shipping these tanks knocked down, they are all first put up in the shop and as much of the work finished as possible. All tanks are punched. It is seldom that more than two joints need be put together at destination. Solder and rivets, also full instructions, accompany each tank, so that it is simple and easy to set them up. On the larger sizes we do not recommend less than No. 18 gauge. Pipe connections, covers and faucets, extra, same as for round end stock tanks. Prices for No. 20 gauge steel.

Article Number	Ht. Ft.	Diam.	Cap. Bbls.	Ship. Wt. Lbs.	Price Each
287 C 6758	6	6 ft.	41	270	\$28.75

Whitewash Sprayer

Sprayer and force pump are made of galvanized iron. Top and bottom are brass of brass. Painted. Equipped with 3 feet of best hose, one foot brass extension rod and a brass nozzle, adjustable for two different sizes of sprays. It has ball valves and steel foot rest. The pump plunger is easily removed and easy to operate due to double action. It is made with large air chamber. The pressure being held in the air chamber on the nozzle enables the operator to throw a continuous spray, which is not affected by the movement of the plunger. This pump is especially designed for spraying whitewash but may be used for any kind of spraying. Shipping weight, 3 1/2 pounds. 87 C 6012.....\$1.95

Barrel Spray Pump

For spraying orchards; trees and shrubbery or for cold water painting and whitewashing. Quickly attached to any water-tight barrel. Simply set in barrel and bolt casting to barrel staves. All working parts, cylinder, ball valves, valve seats connections and nozzle are brass and are submerged in the liquid so that this pump requires no priming. A constant, high-pressure of 125 pounds is made possible by the large air chamber of this model. Slow, easy pumping throws a powerful mist-like spray. The special canvas plunger packing will not wear out with strong solution. The mechanical agitator keeps liquid stirred and prevents settling. Best quality 5-ply 1/2-inch spray hose. Vermorel brass nozzle with two taps, for fine or coarse spray cannot clog as spring needle keeps nozzle clean. The pump is nicely finished in aluminum bronze. Shipping weight, pump only 41 pounds. 187 C 6026—Pump only, without hose or nozzle.....\$9.95 187 C 6028—Complete with 5-foot hose and nozzle. Shipping weight, 48 pounds.....\$12.60 187 C 6030—Complete with 15-foot hose and nozzle. Shipping weight, 48 pounds.....\$13.95 87 C 6034—Extra 5-foot hose with nozzle and connection. Shipping weight, 8 pounds.....\$2.75

Glass jar holds one quart and may be refilled without detaching. Pump barrel is 18 inches long. Heavy tin, painted. Funnel shape far cap for easy filling or jar may be removed. Shipping weight, 2 pounds. 87 C 6016.....\$4.25

Sprayers, Nozzles and Accessories

No. 22 Banner Compressed Air Sprayer

For all spraying purposes—spraying vegetables or plants, shrubbery, flower beds, fruit trees and cattle; whitewashing and disinfecting poultry houses, stables, cellars; washing windows, automobiles, buggies and the like. It will spray anything in liquid form and operates so easily a boy can use it. Total capacity, 3 1/4 gallons. The tank is made of heavy galvanized steel with double seam head; seams are heavily riveted. The pump is seamless brass tubing and is provided with a brass casting with out threads for screwing into the tank. Nothing to corrode, rust or wear out. Adjustable shoulder strap with snap ends included for carrying. A 2-foot hose, detachable for cleaning, is also supplied. Brass nozzle has hand lever; non-clogable and automatic, throws a fine mist or coarse spray a long distance. No waste of liquid. (This nozzle 87 C 6040, is described below). Full directions and spraying calendar with each sprayer. Shipping weight, 10 pounds. 487 C 6002.....\$4.50 87 C 6094—Brass Extension Pipe, 3 feet long, 1/4-inch diameter, with coupling. Shipping weight, 8 ounces.....62¢

er strap with snap ends included for carrying. A 2-foot hose, detachable for cleaning, is also supplied. Lever Nozzle
No Liquids Wasted
(Regular equipment on No. 22 Banner Sprayer)
Works automatically with hand and fingers. Will not clog, as obstructions are agitated and forced out simply by pressing lever. Made of brass to fit 1/4-inch hose. Shipping weight 12 ounces. 87 C 6040.....\$1.35

Fly Spray
A liquid preparation for protecting stock from the torture of flies. Spraying lightly twice a day helps to keep flies off both horses and cows. Can be used with any sprayer. 187 C 6100—One gallon jacketed can. Shipping weight, 10 pounds. Per can.....75¢ 187 C 6102—5-gallon jacketed can. Shipping weight, 50 pounds. Per can.....\$2.45

Wheelbarrow Sprayer

Width only 15 inches at widest point. It will pass through the narrow passages of green-houses. Especially desirable for orchard, potato or field crop spraying, whitewashing and disinfecting. Fine for florists' use. Machine is only 15 inches wide at the widest point which allows it to pass through the narrow passages of green-houses. The large strong wheel makes it easy to move over rough or soft ground. Construction—1 1/4-inch brass pump cylinder; bronze ball valves; all working parts of brass, iron chamber—all securely bolted to a 10-gallon galvanized steel tank. Equipped with dasher agitator. Supplied complete, as illustrated, with 8 feet of 1/2-inch discharge hose, and couplings; 3 feet of 1/2-inch iron extension pipe and nozzle for fine or coarse spraying. Shipping weight, 60 pounds. 187 C 6062.....\$16.90

1690
The angle curve reacher is difficult to place. Have hard rubber wheel and two steel discs, one for coarse and one for fine spraying. Threaded for 1/4-inch pipe. Shipping weight, 2 ounces. 87 C 6063—Angle Spray Nozzle.....38¢ 87 C 6064—Straight Nozzle.....36¢

Threaded ends to receive 1/4-inch pipe. Shipping weight, 5 ounces.....58¢

Brass Bucket Sprayer

Fits any Pail or Bucket
For all kinds of spraying or for fire fighting. No matter how little spraying you have to do, the Brass Bucket Sprayer will be found most convenient and efficient. For spraying trees, shrubbery and vegetables as well as for whitewashing, spraying disinfectants, washing automobiles, wagons and windows. Double-acting, that is, it works on both the up and the down stroke, giving a continuous spray or stream. Supplied with fine nozzle. Will throw a horizontal stream 40 feet. Solid brass ball valve; adjustable foot brackets; brass cylinder and plunger, 3 1/2-foot hose. 487 C 6000—Combination fine and coarse spray nozzles. Shipping weight, 5 1/2 pounds. 87 C 6006—Bordeaux Nozzle for whitewashing. Shipping weight, 4 ounces.....59¢

225
A good Combination Sprayer and whitewasher built for hard service. Fits any pail or bucket and may be attached to barrel by bolting to the staves through casting provided for this purpose. Adapted to all kinds of garden, field and orchard spraying, whitewashing and spraying disinfectants. Made almost entirely of brass. Easy to operate. Produces a steady, unbroken flow. Will throw a solid stream 40 feet. May be regulated from the finest to a very coarse spray. Malleable iron stirrup for use with bucket is included. Also connecting plate for use on barrel. Has 3 feet of 1/2-inch hose with brass hose clamps and a combination nozzle for fine mist spraying or stream. Shipping weight, 8 1/4 pounds. 487 C 6004.....\$5.30

Sattley Kerosene Engine

Saves Labor — Saves Time — Saves Money

Why spend needless hours of tiresome labor, when a Sattley Kerosene Engine will do the work for you and your family and do it at small expense? Easy to start—even in cold weather—runs steady as a clock—and delivers smooth, even power. Attach it to your pump, your churn, your grinder, your washer, your sheller your saw outfit or your ensilage cutter—and the Sattley always will be on the job ready to deliver power day after day, and year after year.

Its tireless energy does odd jobs quickly and does them with economy. It will operate the churn, the washer and the pump while you are doing the more important and money-producing tasks. It gives you and your family more time to plan and more time for leisure.

Remember, too, the Sattley Engine was designed and built to use low-cost fuel. It is a real Oil Engine. It operates just as successfully on Kerosene as on Gasoline—and at a big saving in fuel cost. For example, the 5 H.P. Sattley will deliver its full rated horsepower for 10 hours on about 6½ gallons of Kerosene, depending on the grade of Kerosene and the atmospheric conditions. Based on an average cost of 15¢ a gallon this amounts to only 98¢. Think of it, 5 horsepower for 10 hours, for only 98¢.

Perhaps you wonder how we can sell the Sattley—a high grade Kerosene Engine—at the low prices quoted here. It is because we own the Sattley Engine plant; because we have spent years in developing the most efficient methods of manufacture, and because we share with you the economy of factory-to-you selling methods. Our prices include nothing but the factory cost and one small profit. And your satisfaction is guaranteed.

We stand back of the Sattley in every way and carry a full stock of renewal parts. The few simple instructions—all that are needed—and a complete price list of renewal parts are shipped with each engine.

Let us help you in selecting the engine best suited to your needs. Tell us what work you wish done and we will recommend the type of engine that will do the work satisfactorily and at the lowest cost.

Order The Way You Like Best

The following ways of ordering are for your convenience.

Full purchase price with your order. Nearly all our customers send cash with their order, so if you wish to order on this plan, send a Postoffice or Express Money Order, Bank Draft or Personal Check, for the engine you desire and we will ship it at once.

When it arrives at your station you then pay the freight charges. Take the engine home and use it for 30 days before deciding to keep it. Then should you decide not to keep the engine, write us for return shipping directions. We will gladly return

your money and all the freight charges you have paid.

You May Pay After 30 Days' Free Trial

Should you want to take advantage of our liberal 30-Day Free Trial to see and try the Sattley before paying for it, just give us the name of your home banker or ask him to give you a letter saying that he knows you are reliable, which he unquestionably will gladly do. Then send this letter with your order. After you receive the engine, try it for 30 days and after assuring yourself that the Sattley is perfectly satisfactory, send us payment in full at the end of your 30-day trial.

Three-Speed

Sattley Gasoline Engine

\$42⁹⁵

1½-Horse Power

THE patented Three-Speed Regulator is the simplest and most perfect speed changing device on the market. It is a marked improvement over the common type of governor which can work accurately only at one speed. It is very simple and effective. Simply push the hand wheel in or pull it out. While the engine is running you can thus change the speed to meet the requirements of the job. By simply changing the speed a cream separator can thus be belted to an engine that has been running a grindstone. And it is all done without the use of extra pulleys, gears, shafting or other equipment. Sattley Gasoline Engines are constructed the same as our kerosene engines except for the kerosene burning features.

A Few Words About Freight

Remember—no matter where you buy your engine, separator or other farm equipment, you pay the cost of transportation to your town. If you buy locally, the freight charges are included in the price you pay; if you buy from us, you pay the freight charges separately. See pages 320-321 for general information; consult your local freight agent for the exact charges—or write to us. We shall be glad to tell you exactly what your engine will cost you, delivered to your town. You will then know how much you save.

Sattley Features

The cylinder and base are made separate. If you wish to replace the cylinder at any time, this can be done without changing the base casting.

Three and 5-Horse Power engine bases are made in one piece. For the 7-Horse Power engine we use a double base. When this engine is mounted on a truck the lower base may be removed. This base casting is designed to support the engine and withstand the weight and vibration through all the years the engine will be in use. A substantial base of this kind is far superior to wood skids.

All bearings are provided with suitable oil holes or grease cups so they may be properly lubricated. T crankshaft bearings are babbitted with the best grade of babbitt metal we can get. The bearings are made of sufficient length to give the crankshaft plenty of bearing surface.

The valves are located in the cylinder head where they can be reached easily for regrounding when necessary. This valve-in-the-head construction is especially desirable in kerosene engines as it avoids valve pockets. This means that there is much less opportunity for carbon to accumulate and the valves can be more readily cooled. Each valve is carefully ground and fitted and the valve springs are set at the right tension to give the best results.

In addition to these general features, note the special details of construction listed below. Numbers refer to the diagram above.

1. Ample Cooling Capacity in every size effectively prevents overheating.
2. Throttling Governor saves fuel and insures steady, even delivery of power.
3. Automatic Sight Feed Lubricator supplies oil to piston, cylinder and wrist pin bearings.
4. Kerosene Mixer with mechanically operated fuel pump.
5. Webster Oscillator Magneto insures easy starting. No batteries, wiring or short circuits.
6. Large Cylinder Bore and Stroke for every size. Ample power at moderate speeds. Smooth finish insures long life and smooth running.
7. Fuel Tanks Inside Base, Safety First. Completely protected from fire or any damage by the heavy iron base.
8. Heavy Cast Base high enough to support the flywheels clear of the ground.
9. Adjustable Side Rod pull back spring.
10. Extra heavy Crankshaft made of high carbon steel. Ground and polished.
11. Wide Main Bearings adjustable. Wile oiled.
12. Connecting Rod especially designed "T" beam section. Wide bearings to take up wear.
13. Heavy, Strong Cast Shield, not thin sheet steel as is sometimes used by engine manufacturers.
14. Large Heavy Flywheels of proper weight and balance, insure smooth steady running without vibration.

Webster Magneto

Reliable Ignition—a hot spark always ready, hot or cold weather. Economical because no fuel wasted in misfiring. Water, oil and dustproof. With proper care, will last many years.

Connecting Rod

The Connecting Rod is the arm which takes the force of the explosion in the cylinder and transmits it to the crankshaft. Sattley Connecting Rod is made of malleable iron—the only correct material for connecting rods. Strong, tough and lasting. It is of I-beam construction, the same form used for the big girders for bridges and for connecting rods of locomotives.

Semi-Steel Pistons

Correctly designed, semi-steel, extra long, ground to an exact fit so as to cause as little friction as possible and still hold compression. Oil grooves are in the right size to lubricate perfectly with waste. Piston rings are fitted accurately into piston grooves, and are dowel pinned into place.

Carbon Steel Crankshaft

Forged from a solid piece of close-grained, high tensile strength steel—the best known metal for the purpose; not a weld in it. Strong enough to carry twice the strain expected and then through heat treated to give it even more tensile strength. Every crankshaft is made according to our chief specifications and guaranteed perfect.

Shipped from Factory in Springfield, Illinois

One of these Power Saw Rig Outfits will pay for itself many times over by helping maintain a steady income. You can use the engine for odd jobs the whole year round—hitch it to your grinder, separator, feed cutter or churn. There is enough power to operate several machines at once if desired. It will be on the job 24 hours a day, delivering full power at a small expense to you. The 5 and 7 H. P. sizes are considered most satisfactory for all round work.

See opposite page for description of the Sattley Engine. It is simple, well made and easy to operate, in either cold or warm weather. The saw frame is of the tilting table type and is removable; has an all steel frame and braces; 60-pound balance wheel; shaft for saws with 1 1/2-inch arbor hole. Standard steel cordwood cutoff saw supplied, filed and set ready for use; 26 inches in diameter with 5 H. P. outfits and 30 inches with 7 H. P. outfits.

The truck has heavy 5-inch channel steel beams 8 feet long and 1 1/2 by 62-inch round axles of solid steel further strengthened by 3-inch "I" beams; braces to rear axle and to fifth wheel; front wheels, 24-inch with 4-inch grooved tires; rear wheels, 32-inch. Complete outfits include truck, engine with Webster magneto, tool and seat box, standard 2-horse pole; saw frame, belt and saw with saw rigs. (Neck yoke, singletree and doubletrees not included.)

5-Horse Power Hand Portable Outfit

Engines described on Page 642

The wheels are large so that the outfit can be moved over uneven ground with a minimum of effort. The front truck can be swung around and set crosswise to help brace the engine when running. Four bolts fasten the engine to the truck.

289 C 5088—5-Horse Power Sattley Gasoline Engine with 14-inch Pulley, Webster Magneto and Three-Speed Governor Mounted on steel truck. Shipping weight, 1080 lbs. \$116.15

Swing Table Wood Saw Frame

Works equally well with cordwood or poles. Balance wheel is low down, and out of the way of long poles, giving machine steadier motion than if attached to mandrel. Diameter of mandrel, 1 1/2 inches, cold-rolled steel; length, 49 inches, turned at arbor to fit saws with 1 1/2-inch hole. Tightener pulley in center hung on strong bracket box. Diameter of pulleys, 5 inches with 6-inch face. All bearings babbitted. 95-pound balance wheel. Speed per minute, 750 to 1,000 revolutions. Saw blades extra. See Page 587. Right hand only. (Wood drops to your right). Shipping weight, 400 pounds.

287 C 6451—Flat babbitted boxes. Shipping weight, per pair, 15 pounds. 5.25

287 C 6452—Pulley, 5-inch diameter, 6-inch face. Shipping weight, 6 pounds

Senior Cider Mill

\$28.50

A high-grade, force feed mill. Crushes large or small fruit quickly and thoroughly. Capacity, 50 to 60 bushels or 125 to 150 gallons per day. Heavy hardwood frame, rigidly bolted. Wood cylinder with sharp edged steel pins. Heavy steel press screw. Large hopper, fastens to top of frame with strong latch, which can be unlatched instantly and entire hopper removed for quick and easy cleaning of all working parts. Two tubs—you can press one while filling the other. Each tub made of hardwood slats riveted to iron bands; diameter, 14 inches; height, 13 1/2 inches. Two cranks, one on each side, enable two boys to run the mill. Shipping weight, 330 pounds.

287 C 6419—10 by 4 inches, for belt power. Shipping weight, 150 pounds. Extra... **\$1.40**
Shipped from Factory in Southern Wisconsin

Junior Cider Mill

\$16.50

This is one of the most popular Cider Mills made—just the right size for the average farm. In illustration, a part of the hopper is removed to show the cylinder and inside working parts. The complete hopper, and the cylinder are the same as on the Senior Mill above. There are two tubs. The hopper is large with force feed. The frame is hardwood, securely bolted. The press screw is made of heavy steel. Diameter of press tubs, 9 1/2 inches; height, 10 1/2 inches. Capacity of mill, 25 to 35 bushels or 60 to 70 gallons per day. Ship. wt., 155 pounds.

287 C 6418—10 by 4 inches, for belt power. Shipping weight, 100 pounds. Extra... **\$1.05**
287 C 6415—Medium Cider Mill same construction as Junior Mill except larger capacity. Diameter of press tubs, 14 inches. Height, 12 1/2 inches. Capacity, 75 to 100 gallons. Shipping weight, 215 pounds. Extra... **\$2.10**
Shipped from Factory in Southern Wisconsin

Force Feed Cider Mill

High grade single tub, family size, force feed mill. Has larger hopper and wider throat than is usually found in mills of this type. Cast iron frame hopper. Wood cylinder with sharp edged steel pins works on same principle as Junior and Senior mills. Steel screw. Large balance wheel makes it run easily. Capacity, 1 1/2 barrels of cider per day. Diameter of the tub, 9 1/2 inches. Height, 10 1/2 inches. Shipping weight, 130 pounds.

287 C 6417—13 by 5 inches, for belt power. Shipping weight, 100 pounds. Extra... **\$1.05**
Shipped from Factory in Southern Wisconsin

Fruit Press

Strong, substantial Fruit Press with heavy wood frame securely bolted. Suitable for grapes and all varieties of small fruits. Heavy cast cross head and steel screw smoothly finished. Tub is made of smooth hardwood slats riveted to wrought iron hoops. Size of tub, 9 1/2 inches in diameter, and 10 1/2 inches high. Shipping weight, 60 pounds.

287 C 6416—**\$6.95**
Shipped from Factory in Southern Wisconsin

Cider Press Cloth

Made of 6-ply cotton cord expressly for straining juice in cider mill tubs. Stitched selvage on four sides. Size, 40 by 40 inches. Shipping weight, 1 1/4 pounds.

87 C 6414—**\$2.22**
287 C 6413—Size, 50 by 50 inches. Shipping weight, 1 3/4 pounds. **\$1.22**
287 C 6412—Size, 66 by 66 inches. Shipping weight, 2 1/2 pounds. **\$2.10**

Single Geared Pump Jacks For Shallow Wells

For any ordinary pump with windmill top. Back geared, 4 1/2 to 1. Three lengths stroke: 5-inch, 7 1/2-inch, 10-inch. Pulleys, 12-inch for 2-inch belt. Clamps and bolts for attaching included. No. 1 137 C 5260 1 1/2 inch pump standards up to 5 inches outside diameter. Pumps not included in prices. Shipping weight, 70 pounds.

187 C 5262—**\$5.15**
187 C 5260—Same as above except sub-base and clamp. Bolts to floor, wall or ceiling. Shipping weight, 80 pounds. **\$6.15**

Pump Jacks Double Back Geared for Deep or Shallow Wells

For use with engines of all sizes and any pump with upright standard and windmill head. Pulleys make 341 revolutions per minute while pump is making 35 strokes per minute. Can be belted direct to small engine without slowing engine down. Back geared—9 3/4 to 1. Three strokes: 4 1/2, 7 and 10 inches. Pulleys, 12 inches in diameter for 2-inch belt. Pump not included. Shipping weight, 95 pounds.

287 C 5264—**\$7.35**
Shipped from Factory in Southern Wisconsin

Guaranteed Pure Manila Rope

Concrete Batch Mixers

\$28.75

Strongly constructed throughout so as to withstand any amount of hard service. Just the right size for all kinds of farm work. Will pay for itself quickly on any farm for such jobs as building granaries, sidewalks, foundations, feeding pens and walls. Pulley is 16 inches in diameter, with 3-inch face and should be run 150 to 200 revolutions per minute. Can be operated with 1 horse power engine and up. Crank is also furnished so that it can be run by hand when desired.

Frame is strong angle steel. Heavy steel drum. Cone shaped to give best results. Three blades inside get perfect mix. Drum is 18 inches top diameter, 22 inches bottom diameter, and 22 inches deep. Mixes one wheelbarrow load. Loads on either side and dumps on either side. The yoke is held in the frame by bearings which bolt securely to the frame casting. Perfectly balanced so it can be tilted easily with full load. The gear ratio is 5 1/2 to 1. The bearings have hard oil cups.

287 C 5862—Batch mixer with pulley, on skids. Shipping weight, 240 pounds. **\$28.75**
287 C 5864—Batch Mixer with pulley, on trucks. Shipping weight, 440 pounds. **\$47.50**
287 C 5865—Batch Mixer on trucks with sprocket, 8 feet of chain and sprocket bored to fit your engine. Shipping weight, 480 pounds. **\$54.50**

Continuous Concrete Mixers

Concrete products are in big demand now for building and road making. Ward's offer a mixer that is sold at such a reasonable price that it is within easy reach of anyone, either for their private use or custom work. A profitable contracting business could be started in a small way with one of these mixers. They are easy to operate, and we supply full directions with each outfit.

The Continuous Mixer is a plain batch mixer with hopper made of 16-gauge sheet steel. The hopper has a capacity of about 2 1/2 cubic feet and is bolted to the mixing drum. Inside is a steel slide to regulate the feed to the mixer, or to shut it off entirely. The mixing drum is about 4 feet long and is equipped with a worm shaped paddle wheel for mixing the concrete. Being made in sections, the mixing blades can be replaced easily and at small cost. Above the mixer is a steel water tank with shut-off valve so that you can always get the proper moisture; tank can also be moved to left or right as desired. The drive pulley is 12 inches in diameter with 3-inch face, should be run at 220 revolutions per minute. Any small engine, 1 1/2 horse power or larger will operate this mixer. Shipping weight, 300 pounds. **Shipped from Factory in Central Iowa**

287 C 5850—Continuous Mixer. **\$30.95**

High Grade Pitless Scales

Order one of these High Grade Pitless Scales. They are guaranteed to meet requirements of all state laws. Have the satisfaction of knowing that your weights are correct. The pipe beam on our scale combines rigidity, strength, and few working parts. Supplied with double brass beam. Hardwood beam box, well constructed and nicely painted, fitted with lock and key. Building plans and directions with each scale. We will replace free any part that proves defective.

All scales on this page are made in compliance with laws governing weights and measures. They are guaranteed to be absolutely accurate when you receive them and to be so well made that they will weigh accurately for many years even under the most severe usage.

287 C 6369—Pitless Scale, 4-ton capacity. Steel frame, steel joists. Size of platform, 8 by 14 feet. Complete with beam box and double beam. Shipping weight, 1375 pounds. **\$97.50**

287 C 6370—Pitless Scale, 5-ton capacity. Steel frame, steel joists. Size of platform, 8 by 14 feet. Complete with beam box and double beam. Shipping weight, 1400 pounds. **\$99.95**
 Platforms are not included with these scales

287 C 6371—Pitless Scale, 6-ton capacity. Steel frame, steel joists. Size of platform, 8 by 14 feet. Complete with beam box and double beam. Shipping weight, 1500 pounds. **\$118.00**

High Grade Motor Truck Scales
287 C 6373—Motor Truck Scale, 10-ton capacity. Steel frame, steel joists. Size platform, 8 by 16 feet. Complete with beam box and double beam. Shipping weight, 3600 pounds. **\$205.00**
Shipped from Warehouse in Central Illinois

Scrapers

Cutting edge is rounded, allowing it to enter ground easily. Double runner scrapers have two runners of hardened steel securely riveted. Double bottom scrapers have an extra bottom of hard steel riveted.

The bowl is made of No. 10 gauge high carbon steel. Heavy steel ball with swivel link on each ball. Handle sockets are steel plates solidly riveted. Handles are smooth hardwood.

Wagon Axles with Skains

These axles with skains and without boxes can be used when you order a new set of metal wheels. No boxes required for metal wheels. Can be used on wood wheels if ordered with boxes. Can also be used where you have previously purchased a set of skains and boxes from us. Skains will not fit all styles of metal wheels and will not fit wood wheels unless boxes are ordered with the skains and can only be used under conditions described above.

We do not make skains to fit old boxes on wood wheels or skains only for old metal wheels.

Safety Tractor Plow Hitch

The object of this Safety Hitch: When a tractor is connected to a tractor plow or other farm implement this attachment permits the automatic release of that connection when the plow strikes a root, a stone or other heavy obstruction. This will prevent serious damage to the plow or implement being used.
Guaranteed not to release while plowing in any kind of soil.
Made of malleable iron with steel release spring.

How to Order and Measure Steel Wheels

If you send us correct measurements we guarantee wheels to fit perfectly.
The number and size of spokes, also hub pattern, vary according to size of skeln or axle. Send all measurements indicated.
Measure from skeln only, not from your old wheels. Factory will allow for

play. If you have no callipers cut a slot in cardboard as shown in illustration to fit over part to be measured, then measure across slot as shown. Do not send circumference measurements. Measure from side to side of spindle, not from top to bottom. Measure both front and rear axles.

We recommend 3/4-inch tires for general farm use and 1/2-inch for gravel or stone roads.

Shipped from
Factory in Central
Illinois

Ward's Standard—Our Popular Breeching Harness

\$55⁹⁵

All Harness
Listed on This
Page without
Collars and
Hitch Reins

It costs but little more to buy a good new set of harness at our reasonable prices than it does to patch up the old harness frequently. When you get your harness from us, you can be sure it will last. It is **made to stand the hardest wear**. We believe our Standard Breeching Harness is the best medium weight harness obtainable at the price. And remember our guarantee stands solidly behind every set purchased.

It is made in our own factory, and quality has not been sacrificed to make a low price, but economies have been possible in its manufacture because of Ward's large harness business, which enables you to buy it at a big saving. The strength and lasting qualities of the Standard Grade Harness will convince you that it is the utmost in harness value.

General Description of All Sets of Harness on This Page

Bridles—Heavy ¾-inch cheek with nose band and bit strap, wide folded adjustable crown, doubled and stitched combination front and winker brace, sensible blinds, round reins with gag swivels, and check up straps.

Lines—1½-inch by 18 foot. Patent buckles and snaps.

Traces—Heavy 1½-inch by 6 foot, doubled and stitched, with wide safe in front end, jointed clip attachment for bolt hames, 6-link heel chain sewed in; 1¼-inch heavy billets, bellybands folded with layer.

Pads—4½ inches wide, doubled and stitched harness leather with solid brass side bridges, and brass spotted 1¼-inch reversed skirts.

Back and Hips—1½-inch back strap through to hame, with extra wear leather; 1½-inch hip straps made to reverse into breeching with solid brass patent buckles, wide leather safe.

Breeching—Heavy folded, with 1½-inch layer, without lead up tugs, 1½-inch heavy single reversed side straps, lazy straps with ¾-inch billets and wide liner.

Breast Straps—Heavy 1½-inch by 4½ foot; with metal loops, snaps and slides.

Martingales—Heavy 1½-inch, doubled and stitched around front end, and with ¾-inch collar straps.

Hames—95 C 2048 as shown on Page 600. All steel bolt style, with 1¼-inch brass ball top.

Hame Straps—1 by 21 inches for bottom, 1 by 27 inches for top.

Spread Straps—¾-inch, with wood rollers.

Trimming—Japanned, brass spots and brass buckles on hip and back straps and pad skirts.

For horses up to 1,400 pounds.

Shipping Weight

Each set of harness shown on this page, boxed ready for shipment, weighs about 75 lbs.

We Manufacture Our Own Harness

The fact that Ward's harness is manufactured in our own factory insures you of the highest grade of leather, the best workmanship and the lowest price that can be charged for harness of such high quality. The service of harness is determined by its good workmanship and thorough inspection of every piece of material used in its making. The durability of Ward's harness is proof of the careful and exacting methods employed in our factory. We feel that we are entitled to have you for a customer, because you are entitled to the best we can make.

Facts About Ward's Collars

Ward's collars are made in our own factory. They are guaranteed for long and satisfactory service. Note the description of each collar.

Our full kip collars are made of best grade collar leather stock. Stuffed with thoroughly seasoned long rye straw, and have hair pockets (See illustration). All collars described as having hair pockets, are made as shown in small sectional picture. In ordering a collar, be sure to state size wanted.

Add to each collar 2 to 2 1/2 pounds for packing.

Good Grade Buggy Collars

Made of best kip leather. Leather top pad, one buckle on top. Wear leathers at Draft. Has no hair pocket, but is strictly first-class in every respect. Sizes, 16 to 22 inches. Average weight, 5 pounds.

595 C 1000—Each.....\$3.20
595 C 1001—Same styles as above except made of all black split leather. Each.....\$2.10

Ward's New Line of Collars Made in Our Own Factory

Madison

Draft about 18 inches. This is our highest grade imitation case truck or dray collar, built to give long service. Hair pocket, all russet cowhide face, back and rim. Back in one piece. Ribbon thong stitching throughout, wide welt, 1 1/2-inch buckle and billet top, thong sewed on. Sole leather collar pad buckled on with two straps. Shipping weight, about 10 pounds.

595 C 972—Size, 23 inches. Each.....\$5.75

Instructions For Measurements

An ill-fitting collar causes many sore spots from rubbing and pressure; it does not allow the horse to put full strength into the work. Be fair to each horse, and when ordering make sure to get the right measurements. The size of a collar is found by measuring the length in inches from top (A) to bottom (B), measurements taken on the inside, as shown in the illustration. The draft of a collar is found by measuring the circumference in inches, the heavy part of the collar (C) and (D) as illustrated. Be careful to take exact figures, for our collars are made accurately, and we give you just what you ask for.

By following the instructions closely, you may make comparisons which will be of value and will insure your getting a proper fit for your horses when you send in your order.

Repeater

Draft about 15 inches. One of our most popular collars. It is guaranteed to give complete satisfaction. Heavy black split leather back and rim, with heavy pearl grey, chrome leather face, thong-sewed throughout. Sole leather pad. Buckle and billet top, heavy rim, and extra wear leather on back. A Few Simple Measurements Enable Us to Fill Promptly Your Orders for Clothing

These simple measurements are easy to take and assure you of perfect fitting garments. Be sure to have some one take your measurements for you; do not endeavor to measure yourself. Before having your measurements taken, please read carefully the following suggestions: (1) Do not have the tape measure drawn too tightly, just enough to fit comfortably; (2) Be sure it does not slip out of position while measurement is being taken; (3) Be sure to send us correct figures plainly written.

Our garments are made in daylight sanitary workshops where the most careful attention is given to designing, cutting, and workmanship. We overlook no point in style, quality, or finishing that will add to your satisfaction.

We have in our extensive stock, garments that will fit you perfectly. Any information you can give us in addition to the measurements asked for, will help our experts in selecting the proper size for you.

Send us these measurements when ordering women's, misses' and children's clothing

Study the illustrations below and note position of tape measure for measurements before you have them taken. Be sure an accurate tape measure is used. Read carefully the catalogue description of the garment you are ordering to see that they come in the size and color you want.

Bust Measure: Have the tape measure placed around the fullest part of bust, well up under the arms, over your shirtwaist or dress. Do not take this measurement too tight and do not allow tape measure to slip down in back. Make no allowance whatever.

Waist Measure: Have the tape measure placed around the waist at smallest part of waist over your skirt.

Hip Measure: Have the tape measure placed around the hips, about 7 inches below your natural waistline over your skirt. Do not allow tape measure to slip up or down.

Front Length of Skirt: Have this measurement taken by placing tape measure at natural waist line in front and continue down to whatever length skirt is desired.

Measurements to Give When Ordering

Back Lace Corsets: Take waist measure tightly over corset and subtract 2 inches to allow for the lacing.

Front Lace Corsets and Topless Corsets: Take waist measure tightly over corset and subtract 1 inch.

Blouses: State bust measure.

Girls' and Children's Coats: State age and back length from neck to bottom of coat.

Misses' and Juniors' Coats: Order by age only. See description.

Women's Coats: State bust measure.

Children's Dresses: State age, length desired, and give

Misses' and Juniors' Dresses: Order by age only, corresponding to 32 to 38 bust. See description.

Women's Dresses: State bust, waist, hip measures and skirt length, also your height.

House Dresses, Kimonos, Aprons: State bust measure.

Children's Hats: State age, and whether small, average or large for age.

Misses' Hats: State whether average or large size is desired.

Women's Hats: We carry two sizes, average and small. Be sure to state which is preferred.

Women's Sweaters: Add three (3) inches to your bust measure, taken over your dress. Even number sizes only, 34 to 46.

Underwear, Knitted and Muslin: For Union Suits, Vests, and Shirts, state bust measure; Drawers, waist measure.

Misses' and Women's Skirts: State waist and hip measure, also front length wanted.

Raincoats: State bust measure.

Abdominal Supporters: State chest measure.

Shoulder Braces: State chest measure.

Stockings (Elastic): See illustration on Page 385.

Suits, Women's and Misses': Give actual bust, waist and hip measures, also front length of skirt.

Maternity Garments: See descriptions of garments.

Petticoats: Give front length desired and hip measure.

Trusses: Unless you have already worn a truss and know your exact measurements, have yourself measured by your physician. See Page 384.

Glove Measurements—Men's, Women's

Draw your tape measure around over the knuckles (as shown in picture to the left) not too tight, and not including the thumb. To this measurement add $\frac{1}{4}$ inch for dress gloves and $\frac{1}{2}$ inch for working gloves, which will be your correct size. Women's unlined Kid glove sizes: $5\frac{1}{2}$, $5\frac{3}{4}$, 6 , $6\frac{1}{4}$, $6\frac{1}{2}$, $6\frac{3}{4}$, 7 , $7\frac{1}{4}$, $7\frac{1}{2}$, $7\frac{3}{4}$, 8 . Women's Silk Fabric and lined glove sizes: $5\frac{1}{2}$, 6 , $6\frac{1}{4}$, $6\frac{1}{2}$, $6\frac{3}{4}$, 7 , $7\frac{1}{4}$, $7\frac{1}{2}$, $7\frac{3}{4}$, 8 , $8\frac{1}{2}$. Men's Dress glove sizes: 7 , $7\frac{1}{2}$, 8 , $8\frac{1}{2}$, 9 , $9\frac{1}{2}$, 10 , $10\frac{1}{2}$. Men's Work Glove sizes: $7\frac{1}{2}$, 8 , $8\frac{1}{2}$, 9 , $9\frac{1}{2}$, 10 , $10\frac{1}{2}$, 11 . Children's gloves: Order by age. Be sure to state if child is large or small for age.

Children's Bonnets

Measure head as illustrated by placing tape measure around the head and face, beginning at the arrow point shown in picture, which is on the neck just below the ear and continues around face to point on opposite side. This shows size of bonnet to order.

Send us these measurements when ordering men's, young men's and boys' clothing

Only a few simple measurements are necessary to assure you of perfect fitting suit, coat or heavy outer garments. Be sure to read carefully catalogue descriptions of the garments you are ordering to determine if they come in color and size that you want to order.

Chest Measure: Have the tape measure placed all around the body over chest close up under the arm and over shoulder blades in the back. Have measurements taken over vest as illustrated in Picture No. 3. When ordering men's suits, give height and weight, also give outside sleeve measure.

Sleeve Measurement: Place hand and arm in position as illustrated in the top picture. Have tape measure placed on center seam in back and continue around elbow to wrist, for the length desired.

Waist Measurement: Have the tape measure placed all around your waist just above hips. See first measurement illustrated in Picture No. 4.

Inseam Measurement: Have tape measure placed close up in crotch and continue down the leg to the desired length shown in Picture No. 4. The above measurements should be taken over trousers and tape measure should not be drawn too tightly. When ordering trousers or overalls, state waist and inseam, also height and weight.

Outing Coats: Draw tape measure around chest, close up under the arms, over the shirt. If chest measures 40 inches, order a size 40 coat, provided nothing more than an ordinary shirt is to be worn underneath. If additional clothing is to be worn, order a size 42 coat for a chest measurement of 40 inches.

Men's Sweaters: Add 2 or 3 inches to your chest measure, taken close up under the arms, over shirt, or give one size larger than coat size. Sweater sizes run in even numbers, 34 to 46.

Shirts: Neckband of shirt should be $\frac{1}{2}$ size smaller than collar size. Or give actual neck measure. Also state length of sleeve desired.

Overalls: State waist measure and inseam length and give height and weight.

Raincoats: State chest measure (Picture No. 3) taken over vest. Also give height and weight.

Vest: Draw the tape measure around the chest, over the vest, close up under the arms (Picture No. 3). Also give waist measure.

Overcoats: State chest measure (Picture No. 3) taken over vest. Also give height and weight.

Men's Rubber Raincoats, Oiled Slicker Clothing and Working Clothing: Give chest measure (Picture No. 3), also height and weight.

Men's Overall Jackets: Give chest measure (Picture No. 3).

Men's Underwear: For Union Suits and Shirts, state chest measure; Drawers, waist measure.

Youths' or High School Clothing: When ordering long trouser suits give same information as requested for men's and young men's suits.

Hat Measurements

Measure as illustrated and compare the number of inches your head measures with this scale of hat sizes and send us the hat size you wear.

Children's Hat Size, $6\frac{1}{4}$ to $6\frac{3}{4}$.
Boys' Hat Size, $6\frac{1}{2}$ to 7 .
Men's Hat Size, $6\frac{3}{4}$ to $7\frac{1}{4}$.

Head Measure Inches	Corresponding Hat Size	Head Measure Inches	Corresponding Hat Size
18 $\frac{1}{2}$	6	21 $\frac{1}{2}$	7
19.....	6 $\frac{1}{4}$	22.....	7 $\frac{1}{4}$
19 $\frac{1}{2}$	6 $\frac{1}{2}$	22 $\frac{1}{2}$	7 $\frac{1}{2}$
19 $\frac{3}{4}$	6 $\frac{3}{4}$	23.....	7 $\frac{3}{4}$
20.....	7	23 $\frac{1}{2}$	8
20 $\frac{1}{2}$	7 $\frac{1}{4}$	23 $\frac{3}{4}$	8 $\frac{1}{4}$
20 $\frac{3}{4}$	7 $\frac{1}{2}$	24.....	8 $\frac{1}{2}$
21.....	7 $\frac{3}{4}$		

Boys' Clothing: Place tape measure all around chest, over blouse, close up under the arms and over shoulder blades in back. Then compare with size scale and you will know what age suit will fit your boy. If you want perfect fitting clothing you must state, when ordering, age and chest measure, also height and weight.

Size Scale of Boys' Suits and Overcoats

Ages, years....	5	6	7	8	9
Chest, inches....	24	24 $\frac{1}{2}$	25 $\frac{1}{2}$	26 $\frac{1}{2}$	27
Ages, years....	10	11	12	13	14
Chest, inches....	27 $\frac{1}{2}$	28 $\frac{1}{2}$	29 $\frac{1}{2}$	30	30 $\frac{1}{2}$
Ages, years....	15	16	17	18	
Chest, inches....	31 $\frac{1}{2}$	32 $\frac{1}{2}$	33	34	

Measurements for Shoes:

See our special measurement chart for shoes, which is on Page 285 in our shoe section. It is a self-measurement chart which enables us to fit your foot correctly.

- How to measure for Rings, Page 344.
- How to measure for Thimbles, Page 348.
- How to measure for Bed Springs, 471.
- How to measure for Window Shades, 478.
- How to order Carpeting, Page 495.
- How to order Linoleum, Page 499.
- How to find amount of Paint necessary for a house, Page 627.

This order is accepted by us with the understanding that you may return any merchandise that does not please you and we will exchange it for other goods or refund your money, whichever you prefer.

Čechoslovácky

Jest možno Vám psáti česky neb slovácky jestli jest to pro Vás pohodlné. Vaše psaní a objednávky dostanou tu stejnou pozornost jako by byly psány anglicky.

Prohlédněte si dobře obrázek a popis v katalogu, od každé věci co si objednáte. Udejte číslo, barvu a velikost a pošlete dosti peněz i na poštovné, jestli objednávka má být poslána po poště.

Deutsch

Im Falle es leichter ist fuer Sie, koennen Sie uns auf deutsch schreiben. Ihre Bestellungen werden abenso sorgfaeltig ausgefuehrt wie die auf Englisch abgefassten. Wir bitten, immer genau zu achten auf die Abbildung und Beschreibung von jedem Gegenstand den Sie bestellen wollen. Geben Sie die Nummer, Groesse und Farbe an und legen Sie Ihrer Bestellung genug Geld bei, sowie auch den Betrag der Frankierungs kosten, falls die Bestellung mit der Post gehen soll.

Español

Usted puede escribiros en Español si le es más conveniente. Contestaremos sus cartas, y sus órdenes recibirán la misma cuidadosa atención que recibirían si fueran escritas en Inglés.

Suplicamos a Ud. estudiar cuidadosamente las ilustraciones y descripciones en nuestro catálogo, de cada artículo que Ud. ordene. Sirvase mencionar el número del artículo, tamaño y color en su orden, y envíenos dinero suficiente para cubrir el costo total de las mercaderías, incluyendo franqueo, si su orden es para enviarse por correo.

Français

Vous êtes libre de nous écrire en français, si vous trouvez cela plus facile. Vos commandes recevront la même soigneuse attention que celles qui sont écrites en anglais.

Veuillez étudier dans notre catalogue l'illustration et la description de chaque article que vous désirez commander. Designez l'article par son nom, son numéro et son prix et indiquez la couleur et vos mesures, si cela est nécessaire. Votre commande doit être accompagnée d'une somme suffisante pour couvrir le prix de la marchandise et aussi l'affranchissement, si la commande doit être expédiée par la poste.

Hollandsch

U kan ons in de Hollandsche taal schrijven, indien dit gemakkelijker voor u is. Alle bestellingen worden zorgvuldig uitgevoerd, onverschillig of deze in de Engelsche of in een andere taal geschreven zijn.

Ieder artikel in onzen catalogus is duidelijk beschreven en geïllustreerd. Geef nummer, maat en kleur op den bestelbrief aan en zend ons het totaal bedrag der bestelling, frankeeringskosten inbegrepen, indien de bestelling per post moet worden gezonden.

Italiano

Ci potrete scrivere in Italiano se questa vi riesce piu' facile. Risponderemo le vostre lettere e i vostri ordini riceveranno la medesima attenzione come se fossero scritti in inglese.

Vi preghiamo di studiare attentivamente le illustrazione e descrizione nel catalogo di ogni articolo che ordinate. Menzionate il numero dell'articolo, grandezza e colore nel vostro ordine, e mandateci sufficiente moneta per coprire l'ammontare della merce incluso le spese postale, se il vostro ordine deve essere spedito in questa maniera.

Norsk

De kan skrive til os paa Norsk, om det falder lettere for Dem. Vi vil svare Deres breve og bestillinger med den samme nøiagtighed, som om de var skrevne paa Engelsk.

Venligst se nøie paa illustrationen og læs forklaringen i katalogen af hver artikel, De ordrer. Opgiv artikel nummer, størrelse og kulør naar bestillinger sendes, og indlæg nok penge til at betale total beløbet af varerne, iberegnet porto, om Deres bestillinger skal sendes pr. post.

Polskie

Można do nas pisywać po polsku. Listy i zamówienia odpowiemy z najdokładniejszą starannością, taksamo jak otrzymują zamówienia pisane w języku angielskim.

Uprasza się aby zastanowić się nad każdą ilustracją i opisem podanym w katalogu. Trzeba podać dokładnie numer, wielkość i kolor rzeczy zamawianej, sumę pieniężną za rzeczy zamawiane włączając także koszt za przesyłkę trzeba nadesłać wraz z zamówieniem.

Portuguez

Podeis escrever-nos na lingua portugueza se os convir mais fazer isso. Daremos ás vossas encomendas a mesma cuidadosa atenção que ellas receberiam se as escrevesseis em inglez. E'importante que estudeis attentamente no nosso catalogo a illustração e descripção dada n'elle de cada artigo que desejeis encomendar, e que ao tempo de mandar-nos a encomenda nos deis o numero que o artigo traz no catalogo, e tambem o tamanho e a cor. Tambem é preciso enviar-nos bastante dinheiro para cobrir o importe total das mercadorias, incluindo o porte, se desejaes que enviemos as mercadorias pelo correio.

По Русски

Вы можете писать намъ по-русски если для Васъ выгодно. Ваши заказы будутъ верѣчны съ такимъ же вниманіемъ если бы были писаны по англійски. Изучите картину и описаніе въ каталогѣ каждой вещи которую Вы закажете. Въ Вашемъ заказѣ укажите предметъ, номеръ, мѣру и цвѣтъ, и пришлите достаточно денегъ для покрытія стоимости товаровъ и почтовыхъ расходовъ, если Вашъ заказъ будетъ присланъ по почтѣ.

Suomea

Te voitte kirjoittaa meille suomeksi jos se on teille käytännöllisempi, teidän tilauksenne tulee saamaan saman huolellisen huomion kuin jos ne olisivat Englannin kielellä kirjoitettu.

Tarkastakaa huolellisesti kuva ja selvitys hinta luetelossa jokaisesta tavarasta mitä tilaatte Mainitkaa tavarain numero, koko, ja väri, tilauksessanne, ja lähettäkää meille tarpeellinen summa rahaa peittämään tavarain hinta, postimaksu siihen luettuna jos tavaranne on lähetettävä postin kautta.

Svenska

Ni kan skrifva på Svenska språket om Ni föredragat det, vi skola besvara edert bref, och eder rekvisition skall få samma noggranna uppmärksamhet som den skulle ha fått om den varit skrifven på Engelska.

Betrakta noga bilden och beskrifningen i Katalogen, på hvarje artikel ni rekviderar. Gif artikelns nummer, storlek och färg. Sänd oss tillräckligt pengar för såväl priset på varan som också postpengar om en rekvisition skall sändas pr. post.

These are Typical of the
Hundreds of Big Values
in Home Furnishings
to be Found in this Book

All are listed on the Blue Pages 323 to 333

Beautiful Blue Enameled Range

THIS beautiful Blue Porcelain Enameled Range—the Commodore Windsor—is a splendid value, yet it is fully representative of the many extraordinary stove bargains we are offering our customers this year. Never before have we shown such values in ranges and heaters as are shown on Pages 500 to 511 of this catalogue. The Commodore Windsor is a cast iron range of medium size, covered with turquoise blue porcelain enamel, baked on in such a way that it becomes practically a part of the metal itself. Splasher back and door panels are white enamel. While it is not our biggest range, it easily meets all ordinary cooking needs.

Body. High grade cast iron, coated with blue porcelain enamel. Takes 7-inch stovepipe.

Cooking Top. Six holes, three 8-inch regular lids, two fuel saving cyclonic lids, one sectional lid. Top is highly polished, turns gunmetal blue when heated; does not require blacking.

Fire Box. Has duplex grate; burns wood or coal. Size for coal, 18 by 7½ by 5 inches. Takes 17½-inch wood, with end linings removed. For water front, add \$5.50.

Oven. Size, 18 by 16½ by 12 inches. Accurate heat indicator in enameled door.

High Closet. Convenient and roomy. Drop doors are flush with frame; invisible hinges. No bolt heads show.

Reservoir. Made by hand of best grade of pure copper. Holds 15 quarts. Heats by contact.

268 C 537—Range with reservoir. Shipping weight, 450 pounds.

Cash Price \$67.75
Easy Payment Price 73.75

268 C 536—Range without reservoir. Shipping weight, 410 pounds.

Cash Price \$62.75
Easy Payment Price 68.75

Easy Payment Terms: \$5.00 with your order and \$5.00 per month. See Page 504 for Time Payment Order Blank.

Shipped from Factory in Hannibal, Mo.

Solid Oak Kitchen Cabinet

A SPLENDID Solid Oak Kitchen Cabinet of late design, which will save you much time and many steps and relieve you of kitchen drudgery. The low price is typical of the big kitchen cabinet values offered on Pages 460 and 461.

These Features Save Your Steps

Upper Section. Tilting flour bin of thirty-five pounds capacity, fitted with sifter. Sugar jar on swinging bracket, five spice jars on a wire rack, and tea and coffee jars, all of which have aluminum covers and are included in the price. Doors of large cupboard and flour bin have frosted art glass panels, with decorative clear glass stripes. Roomy open space under cupboard and flour bin.

Base Section. Extra large cupboard for pots and pans, and strong removable wire shelf. Wire pan rack on the door. Three dustproof drawers, one of which is a cake drawer with sliding metal lid. Removable cutting board. Food chopper bracket. Table top may be pulled out to provide large working surface. Choice of white porcelain enamel or metal table top.

Sturdily built of seasoned Solid Oak and finished a beautiful Golden.

Entire height of cabinet, 68 inches. Height of table top from floor, with casters, 31 inches. Size of table top, closed, 40 by 25 inches; extended, 40 by 32 inches. Groceries in cupboard, coffee grinder, food chopper and pans in lower section are illustrated only to show arrangement of cabinet, and are not included in the price. Shipping weight, about 190 pounds.
